

SOUTHPORT HIGH DRILLS FOR RAID

They Stay Away From Glass; \$200 Worth of Stamps Each Week.

Teachers and pupils of Southport High School find they have one more event added to their routine—that of preparing for air raids.

The method of placement of pupils in the lower hall close to the walls and away from glass doors is used in the practice drills at the schools.

Southport pupils are purchasing almost \$200 worth of Defense Stamps each week. The total for the second semester has reached almost \$1000.

The 1942 Anchor Staff of Southport is sponsoring a skating party at the Riverside Rink Monday. Arrangements are in charge of Delbert Klies, Peggy Ruffin and Joe Greenlee.

Japanese Can't Take the Philippines, Says Hoosier Sailor Who's Been There

You can take it from an ex-Navy man that the Japanese have bitten off more than they can chew in their invasion of the Philippines.

Daniel Dennis Sullivan, a husky youth who served a four-year stretch with Uncle Sam's fleet all over the world—and who has the pictures to prove it—compares the Japanese problem with that of the Nazis in France.

"It wouldn't surprise me a bit to start reading in the papers most any day where some high ranking members of the Japanese Army have been assassinated by the Filipinos," he declared.

Praises Natives' Loyalty

"The Filipinos don't want to be controlled by anyone."

Mr. Sullivan praised the loyalty of the island natives, saying that when the "Star-Spangled Banner" is played, you will see just as many Filipinos jump up as you will Americans.

"They are very loyal to the United States and the independence this country was soon to give them

Part of the island of Corregidor and its disappearing guns . . .

"a beautiful blue sky and an outline of the fortress."

was wanted more by the Government there than by the people," he said.

His pictures range from views of

important world scenes to horror "shots" of innocent Chinese citizens riddled with Japanese machine gun bullets and left in the city streets for others to look at.

"The hardest picture I tried to take was one of the few I failed to get," Mr. Sullivan said. "While en route home on the U. S. S. Augusta, on which I was stationed, we passed by Corregidor and I wanted to shoot a picture of one of the 12-inch disappearing guns that help fortify the island.

Just the Sky'

"The troops were having target practice and I thought I could snap the picture when the gun reached the peak of its climb and have the weapon recorded on film before it descended. So I aimed the camera, got my focus and waited. I saw the gun come up with lightning speed, saw the flash as it sounded off and then snapped the camera shutter. When the film was developed, there was nothing on it but a beautiful blue sky and an outline of the fortress."

Mr. Sullivan said it wouldn't surprise him if Gen. Douglas MacArthur's valiant forces are able to hold out indefinitely against the overwhelming forces of the Japanese Army.

May Join Navy Again

Mr. Sullivan, the son of Mr. and Mrs. Eugene Victor Sullivan, Lawrence, Ind., is seriously thinking about going right back into the Navy. He left Manila in December, 1940 on a homeward-bound cruise just before his discharge.

It was on that cruise that Mr. Sullivan obtained a souvenir of the voyage which he is fairly sure no one else on the boat was able to get. On a cruise back to home port, the ship always trails behind it the "homeward bound" pennant, a strip of flags 800-900 feet long. During this particular voyage, part of the pennant was lost when it struck the water and while the remainder was being hauled aboard to be repaired, Mr. Sullivan snipped a piece from it.

Flown out once more, the pennant struck the water a second time shortly afterward and was lost.

MIDDIES DUE AT N.D. ON APRIL 15

Naval Reserves to Train for Month; More Plan Summer Courses.

NOTRE DAME, Ind., Feb. 13.—The first contingent of naval reserve midshipmen is expected to arrive at Notre Dame University April 15 for a month's training in naval subjects.

Notre Dame officials received word Monday from the U. S. Navy Department that the University campus had been selected as an indoctrination center for midshipmen.

The month's work on the campus will be similar to the work formerly accomplished by a month's cruise.

More than 1900 Notre Dame students have notified University officials that they will take summer courses in order to shorten their college careers because of the war.

Edits News Magazine

Thomas V. Powers of Enid, Okla., has been named editor of Notre Dame Scholastic, weekly news magazine, succeeding John A. Reilly who resigned to enter military service.

More than 1000 students in 35 campus organizations have united in a huge War Charities Carnival this week-end at Notre Dame.

Proceeds from the holiday affair, the first of its kind ever staged on Notre Dame campus, will go to the Red Cross, Navy Relief and the Notre Dame Student Commission which aids Notre Dame men in the armed forces.

The Rev. J. Hugh O'Donnell, C. S. C., president of Notre Dame University, has been appointed by the U. S. Treasury Department as an executive member of the National Defense Savings Minute-Men Committee.

AWARDS GIVEN TO 105 AT HOWE HIGH

Journalism, library and music awards have been presented to 105 students of Howe High School. At an all-school assembly recently 41 journalism students, 33 students in the Library Club, and 31 students in the music department were honored.

A public address system may be installed in Howe High School through the efforts of the Men's 400 Club.

The club which is made up of fathers of Howe students, met recently and discussed the possibility of a system. And the members may take it upon themselves to install speakers if the school board refuses.

The meeting was the first under the new officers of the year, C. L. Thompson, president, presided and he introduced H. H. Arnholter, vice president, Dwight Casey, treasurer, and Ralph Smith, secretary.

STATISTICIANS HOLD 1ST MEETING MONDAY

The newly-organized Indianapolis Chapter of the American Statistical Association will hold its first dinner meeting at 6 p. m. Monday at the Y. W. C. A.

Prof. George Starr, director of the Indiana University Bureau of Business Research, will address the group on the war's effect on economy. Thomas G. Hutton, statistician for the State Welfare Department, and F. E. McIntyre, professor of statistics at Indiana University, also will talk.

Members of the organization's executive committee are C. D. Hadley, professor of statistics at Indiana University; Wade T. Seales, faculty member of the Indiana University Training Course for Social Work; Carl G. Schmid, state statistician for WPA; John V. Barnett, assistant statistician for the State Welfare Department, and Mr. McIntyre.

ORGANIZE TWO NEW FIRST-AID CLASSES

Two new classes in first aid under the supervision of the American Red Cross have been organized in Indianapolis following the recent registration of 130 women desiring to take the course.

One of the classes with 70 of the new registrants opened yesterday at Christian Park Community Center and the other 60 first aid students will meet tonight at Brookside Community Center for their first lesson in the 16-week course.

FOOD COSTS UP 18% OVER JANUARY, 1941

WASHINGTON, Feb. 13 (U. P.)—The American housewife paid an average of 2.7 per cent more for food in mid-January than in mid-December, the Bureau of Labor Statistics reported today.

The mid-month statistics showed also that retail food prices for the nation advanced 18.8 per cent over January, 1941.

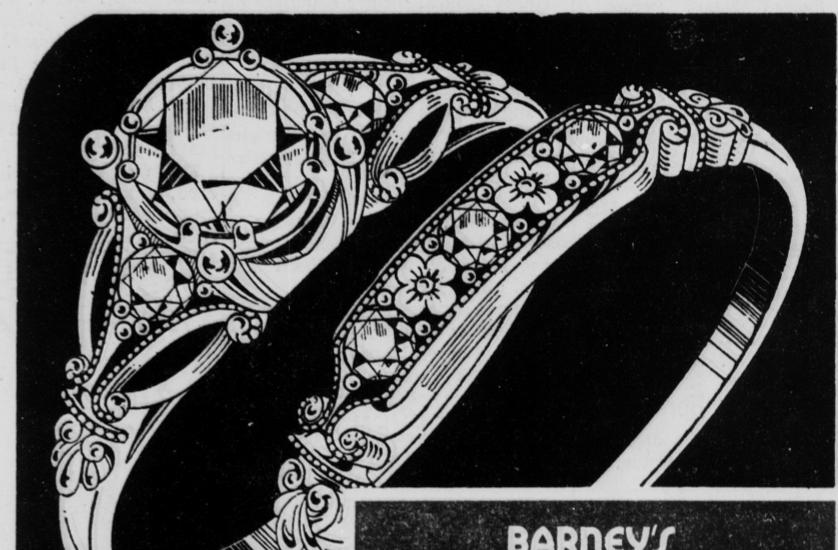

The average price of sugar in retail stores advanced 3.6 per cent between Dec. 16 and Jan. 13, "largely because only small quantities, usually two pounds, were available in cities where purchases were limited voluntarily by retail grocers."
