## INGALLS FACES 8 TO 24 MONTHS

Flier Calm as She Hears  
Conviction for Serving  
As Nazi Agent.

WASHINGTON, Feb. 14 (U. P.).—Stunt-flier Laura Ingalls today faced a possible maximum penalty of eight to 24 months in prison and \$1000 fine for selling her propaganda services to Germany and failing to report them to the State Department.

The flier, who gives her age as 38, was convicted by a District Court jury of 10 men and two women of wilful failure to register as a German agent.

Justice James W. Morris revoked her \$7500 bail and remanded her to jail pending sentence.

Saw Self a "Mata Hari."

Miss Ingalls, who told the jury she saw herself as "a sort of Mata Hari, an international spy," received with calm the verdict which the jury reached.

The Government had charged that Miss Ingalls received \$400 from Baron Ulrich von Gienanth, second secretary of the German embassy and chief of Gestapo agents in the United States, for making anti-British, isolationist speeches at America's First Committee rallies.

The defense admitted as much but insisted that the flier had been engaged in private counter-espionage work against the Germans, impelled by the fact that she had been three times turned down when she sought a job with the Federal Bureau of Investigation.

Miss Ingalls' attorney in his summation called his client "a bit of a crackpot" whose only ambition was to serve her country.

Miss Ingalls violated the same statute under which George Sylvester Viereck, German agent, was indicted last fall.

## STATE IGNORES SCHOOL STRIKE

Plans No Action in Clinton  
Township Walkout Over  
New Time Issue.

The State will not interfere in the two-day strike of Clinton Township High School pupils, Dr. C. T. Malan, State Superintendent of Public Instruction said today.

E. C. Boyd, Clinton school superintendent, directed an appeal for aid to Dr. Malan yesterday after pupils walked out in protest to Mr. Boyd's ruling that they must remain an extra hour in the afternoon to make up for an hour lost by late starting in the morning.

Dr. Malan said that he had no authority to act in the matter. He said the strikers were mainly those who lived in the township outside of Clinton and who claimed the extra hour prevented them from doing their farm chores because it would get them home too late.

## Hint New School Plan

Parents of the protesting pupils were reported making plans to establish their own township high school. Mr. Boyd said he would not penalize the students for striking. The conflict developed when Clinton city schools adopted War Time, and township officials advanced morning classes an hour ahead of War Time to avoid the necessity of picking up rural children before daylight, with a consequent hour's delay to high school pupils picked up by the same busses.

## MAP OFFENSIVE PLANS

## Making a Soldier of Sugar

AS we have sent men abroad to fight for America—as we have sent money—as we have drafted steel, with other commodities, into fighting-service or enlisted wheat and other fighting-foods—so we must make a soldier of sugar.

Nutrient for the nations at war is as vital to the outcome as the powder that feeds the guns. A great nutrient in time of peace—in war a veritable sinew—sugar is now called upon to play a heroic part, to supply the peoples of our Allies—whose strength is ours.

To wrap up sugar in the American flag, so to speak, and put it into the fight becomes a duty of loyalty. It will be borne cheerfully by every industry, every dealer, and every individual it falls upon. Upon certain industries it falls heavily—and especially on the workers who derive their living from them. Yet the American civilian is in this war with the soldier. America's greatest and small, American capital from Wall Street to the remotest country bank, is with the Government every step of the way. The U. S. means U. S. All of us, are in the fight with everything we have, for everything we cherish.

This company regards it a privilege to contribute to the Government's war effort, to help in the conservation of sugar, to help in the conservation of every direction that opportunity may disclose, in manufacture as well as beyond the scope of our immediate interests; and in this effort generally we bespeak the co-operation of dealers and consumers everywhere.

## WORLD WAR I 1917

The United States Government restricted the use of sugar in World War I. The response of The Coca-Cola Company was expressed in the newspaper advertisement reproduced at the left.

# Again, Sugar enlists for Victory

## WORLD WAR II 1942

History repeats itself in World War II. Sugar has been called to war again. Our government has restricted the use of sugar for all. Naturally, that includes Coca-Cola.

You'll continue to find Coca-Cola around the corner from anywhere, though we regret that you won't be able to enjoy the pause that refreshes as often as you might like. Our volume has been reduced. But this we pledge: the character of Coca-Cola will be unimpaired. The American people can continue to trust its quality.

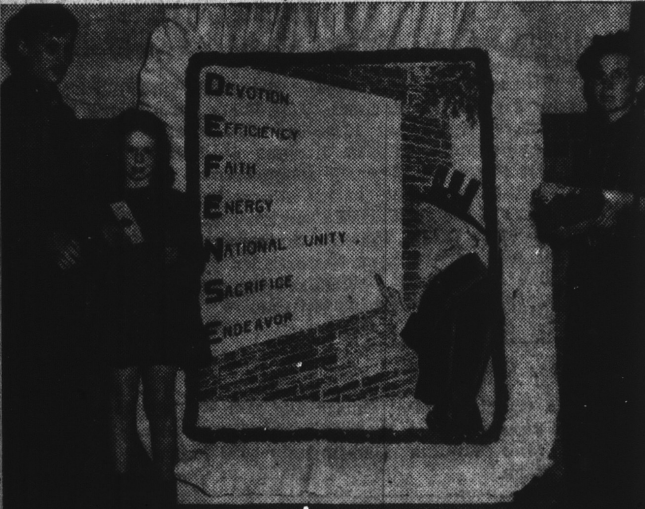

As in 1917, we count upon the patience of dealers everywhere. Conserving sugar is another step toward Victory. Whatever any of us may have, or may not have, Victory we must have above all else!
