Jane Jordan

DEAR JANE JORDAN—I am the type of girl who is not noticed by boys, but I am sure there is one in high school who would like to get better acquainted with me. I have had only a few dates and would be too shy to talk with him as other girls would. We both are shy and can't get the courage to speak. Should I be the first to speak or should he? We only see each other during school hours. I have been puzzled by this same problem before and I want to get it straight. What should I do?
SHYNESS.

Answer—By all means speak to boy and to others. Form the habit of smiling at all of your school fellows, both boys and girls. It is true that you can't ask a boy for a date but you can look friendly and encouraging instead of curling up in your shell.

Note to Mrs. C. B. F.: All you can do is submit your poems to magazines which publish poetry.
JANE JORDAN.

Put your problems in a letter to Jane Jordan, who will answer your questions in this column daily.
