RADIO PLANTS ORDERED INTO ARMS OUTPUT

Equipment and Labor May Be Seized, Is Warning To Manufacturers.

WASHINGTON, Feb. 13 (U. P.)—The War Production Board today ordered all radio manufacturers to convert their facilities to war production within four months.

R. R. Guthrie, assistant chief of the WFB Bureau of Industry branches, told 55 radio set manufacturers that if they had not converted within "three or four months from now," the Government might have to break up their plant, equipment, labor and management and shift them "to war production."

BOYS IN THE SERVICE

If you're like the mythical Whifflebird, who flies backward because he doesn't care where he's going, you might be interested in a bulletin released today by the navy department.

Six specially qualified men are needed immediately from the Indianapolis area for a construction regiment to be sent to an undisclosed place by the navy.

At present are two chairman and a stadiaman for surveying; a chauffeur, preferably with truck-driving experience, a clerk-stenographer with construction experience, and a cook, with hotel or restaurant experience.

Com. R. H. G. Mathews, officer in charge of navy recruiting in Indiana, said that particularly good qualifications for the clerk-stenographer and stadiaman enlistments might result in chief petty officers' ratings.

Lieut. R. E. Harrison, from the office of the inspector of recruiting in Chicago, will visit Indianapolis March 4 and 5 to interview experienced building men with a view to filling out a construction regiment.

Plans Series of Talks

Capt. Ralph E. Boulton, who is in charge of marine corps recruiting in Indianapolis, will begin a series of talks to business men's clubs throughout the state tonight when he will be guest of honor at the annual dinner meeting of the Martinsville Chamber of Commerce. He is to address the Richmond Co-operative club Feb. 25.

MOVIE ON SYPHILIS READY FOR RELEASE

By Science Service

WASHINGTON.—A Hollywood-produced motion picture that pulls no punches but shows men exactly how to "play safe" and what to use to escape syphilis is the latest shot fired by the U. S. Public Health Service in its all-out war on syphilis.

The film, "Know for Sure," directed by Lewis Milestone under the supervision of Darryl Zanuck, was produced by the research council of

the Academy of Motion Picture Arts and Sciences for the federal health services. It will be shown only to men's groups in clubs, factories, colleges and possibly army training camps.

Details of that treatment and of methods for diagnosing syphilis in all its many masquerades make up a longer film, produced by the U. S. Public Health Service itself in color and sound, for doctors and medical students.

This film is designed especially for the general practitioner who has
