

MORE GUARDS AT AIRPORT SOUGHT

Dienhart Warns of Closing Unless U. S. War Rules Are Met.

The board of works took steps today to provide more guards and fire protection for municipal airport to conform with federal war time regulations.

The action followed a warning by I. J. Dienhart, superintendent, who said that the airport will either have to conform with regulations on guards or be closed for the duration.

Mr. Dienhart requested, at least seven additional guards.

Works board members said they would try to comply with the requests as soon as possible.

DENY RAID ON HAWAII
HONOLULU, Feb. 19 (U. P.).—U. S. naval officials today denied a Vichy radio report that the Japs have made a second air raid on Hawaii.

Japs Using Flame-Throwers in Bataan; Final Drive to Conquer Philippines Looms

WASHINGTON, Feb. 19 (U. P.).—Strong Japanese forces armed with flame throwers and supported by a non-stop artillery bombardment are hammering at Gen. Douglas MacArthur's line in apparent preparation for "a resumption of the offensive" aimed at a knockout conquest of the Philippines.

Today's War Department communique reported increasing pressure on Gen. MacArthur's thinly held lines on Bataan peninsula and reported ominously that the Japanese are regrouping their numerically superior forces for what probably will be their all-out, supreme effort.

Gen. MacArthur's right flank anchored in the vicinity of the highway center of Pilar on Manila bay was said to be under particularly heavy pressure.

For the fourth day the Japanese, using newly-installed batteries and trading tons of steel with Gen. MacArthur's guns, laid down a bombardment of the American-Filipino lines.

Despite the constant bombardment of his positions by the Japanese guns and squadrons of dive-bombers, many of which are believed to have been shifted from the Malayan battlefield following Singapore's surrender, Gen. MacArthur's main line of defense across the wasteline of Bataan was understood to be holding resolutely.

Found Manila Forts

Today's communique carried the first official disclosure that the Japanese are using flame-throwers, a favorite weapon of their Axis allies on the European fronts, but the extent of the enemy's employment of these fire-spreading hoses was not disclosed.

Several flame-throwers and a quantity of ordnance and signal supplies as well as three pieces of Japanese artillery were captured by Gen. MacArthur's men in a "relatively minor local action," the communique said.

Apace with the shelling of the American-Filipino lines, Japanese guns on the Cavite shore across

Manila bay continued to pound at the U. S. forts astraddle the entrance to the bay but "without accomplishing a great amount of damage."

SUSPECT FREED IN ATTACK ON GIRL, 17

A 17-year-old girl who was criminally assaulted in her Woodruff place home Tuesday was unable to identify a 29-year-old suspect who was arrested in a downtown hotel. The man was released.

The girl said she was certain the police had arrested the wrong man. The suspect, who has a police record, also gave detectives a satisfactory alibi.

Mrs. Mary Clements, 61, of 631 N. Beville ave., told police today that a man with a mask over his face peeped through a basement window while she was stoking the furnace late yesterday.

BRITAIN BUILDS INVASION ARMY

Churchill Is Expected to Create Smaller War Cabinet Soon.

LONDON, Feb. 19 (U. P.).—Great Britain is building up a parachute and air-borne invasion army and producing still bigger tank and anti-tank guns, Capt. David Margesson, anti-tank guns war secretary, said today in reviewing grim developments and future prospects on the world's war fronts.

A two-day debate on the war situation will be held at the next meeting of the house of commons.

Great Britain must be maintained inviolate as a bridgehead for future allied operations against the Axis on the European continent, Capt. Margesson said in emphasizing an offensive attitude.

The organization on air-borne troops (big transport planes and gliders) is progressing, he said, while a number of parachute and air landing units already are organized.

In regard to armored land forces—the striking power for a future offensive against the Axis in Europe—he said that Britain now was working on production of still larger tank guns.

At the same time, he added, defense against enemy tanks is being strengthened with production of anti-tank guns of even greater penetrating power than any now in use.

(Lord Beaverbrook, minister of production, recently said that the British were now putting out the most powerful anti-tank guns ever built, capable of penetrating any tank armor.)

Today's War Moves

German invasion. It does not mean that the Soviet Union is abandoning European Russia as a probable loss and is preparing to withdraw into its shell beyond the Urals. It does mean a new Russia with a different, stronger economic and industrial balance. It is to be accomplished by one of the greatest population shifts, achieved in an ordinary manner, in history.

How many millions are involved it is hard to say, but the figure might be around 10,000,000 or more.

Russians Get Land, Jobs

This Russian re-settlement is not to be compared to the mass shift in populations callously carried out by Hitler in Europe, particularly among the Jews and Poles.

In the latter case, millions were booted from their homes, farms and businesses, stripped of their possessions and money and herded into non-productive regions to starve and die.

The Russians will be given land and material to build permanent homes. They will be fruitfully employed in the new network of industries being set up east of the Urals and in Siberia.

Planned Years Ago
The exigencies of war have served to speed up a vast project which already was under way.

Russia years ago saw the danger of invasion from the west and the threat to her unbalanced economic structure because of the top-heavy concentration of her industry west of the Urals.

Under the second and third five-year plans, emphasis was laid on

AIR PROPAGANDA BY U. S. STUDIED

Officials Urge Lease of Short-Wave Stations to Answer Axis Radios.

WASHINGTON, Feb. 19 (U. P.).—Plans for establishment of an American radio propaganda service resembling the British Broadcasting Co. are being considered today by a group of influential officials.

Officials were reported to be studying a proposal that the government lease at least most of the 11 existing short-wave stations or buy time over them to match axis radio attacks on this country.

The plan also includes arrangements for sending large numbers of radio receiving sets to Latin America where the axis has centered much of its major propaganda efforts. A total of 1,000,000 sets has been mentioned as a likely figure at the start—not large considering Latin America's population of 130,000,000.

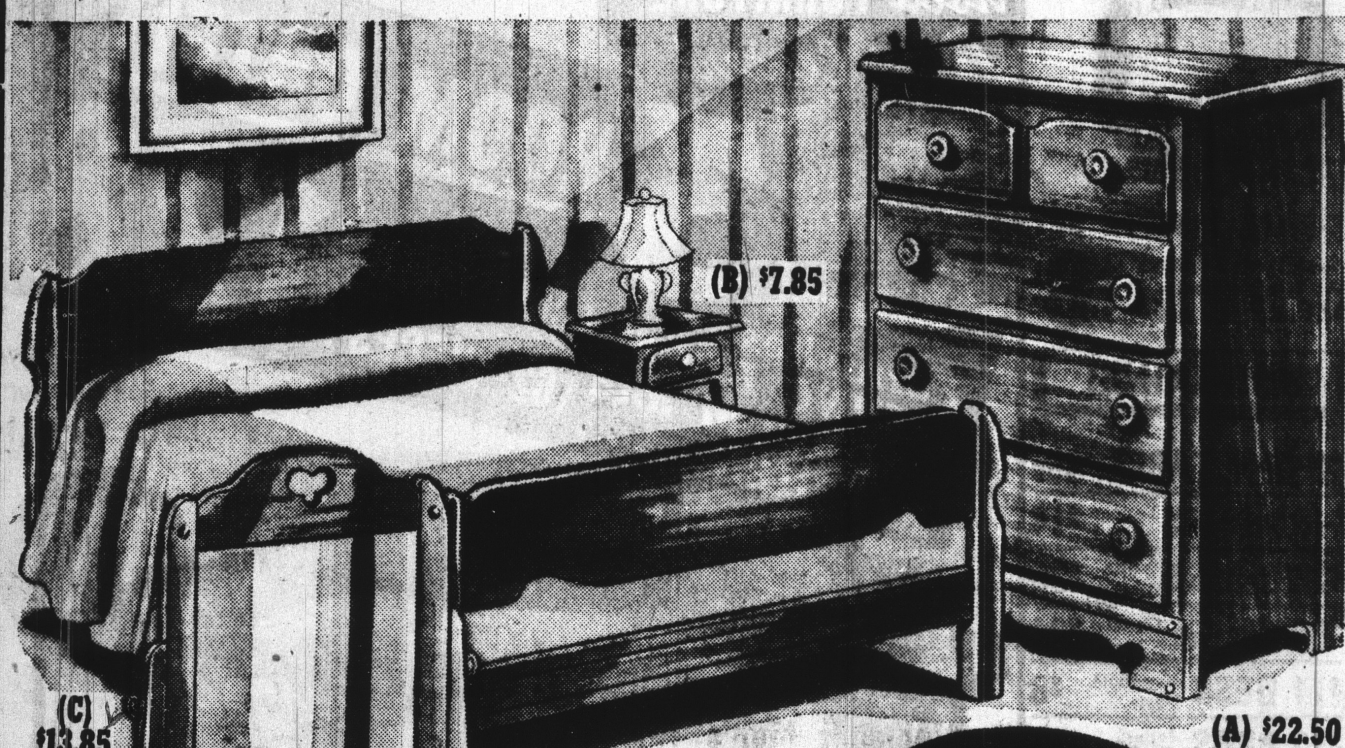

But, it was explained, in Latin America few individuals outside the major cities own sets. They are placed in public places in small villages where the community listens.

4 ESCAPE STATE FARM

Four inmates of the Indiana state farm escaped last night and are still at large.

State police said the men were Charles Mungle, 19, sentenced from Allen county; Norman Smith, 19, sentenced from Henry county; Claude Guiley, 18, sentenced from Vigo county, and Ralph Wells, 19, sentenced from Marion county.

Solid Maple Bedroom Group

Bed, Chest and Vanity, shown above

\$59⁵⁰

Make Up Your Own Suite From Wide Choice of Pieces!

Very soundly constructed—with genuine oak interiors—all top drawers fully dustproofed. Rich, carefully styled, mellow SOLID MAPLE in smooth, rubbed finishes. Thriftily priced.

Any Piece May Be Purchased Separately

- (A) Chest, 28" wide, 43" high . . . \$22.50
- (B) Night Table, with drawer . . . \$7.85
- (C) Full Size Bed . . . \$13.85
- (D) Vanity with mirror, 20x31" . . . \$28.50
- (E) Vanity Bench, 24x14" . . . \$5.85
- (F) Dresser, 38" wide, 33½" high . . . \$28.50
- (G) Chest Desk, 28" wide, 46" high . . . \$27.50
- (H) Chest Robe, 36" wide, 51" high . . . \$36.50
- (I) Chest on Chest, 30" wide . . . \$27.50
- (J) Poster Bed, in twin size . . . \$14.85
- (K) Panel Bed, twin size . . . \$13.85

You May Pay as Low as 10% DOWN
Small carrying charge.

SCHULTE STRESSES LABOR'S WAR ROLE

WASHINGTON, Feb. 19.—Free American labor will be the greatest factor for victory in this war, Rep. William T. Schulte (D. Ind.) predicted today in a congressional speech.

"American labor knows that this war is a challenge to itself," the Hoosier congressman said. "It is a challenge to its method of work, mode of life and means of progress. American labor accepts that challenge. It accepts it eagerly and determinedly for American labor knows that in any duel of production it cannot come off second best."

Rep. Schulte represents the Calumet industrial district, which includes the Gary steel mills and Hammond oil refineries.

Uses First Aid To Revive Dog

FT. WAYNE, Ind., Feb. 19 (U. P.).—From now on, milkman Ralph Latham Jr., will be the very favorite caller at the home of a beautiful white shepherd dog named Jane.

Jane, belonging to Archie Amos, of Ft. Wayne, was nosing around the Amos basement. But she was just a little too curious and when her wet nose came in contact with a 220-volt outlet on a power saw, Jane apparently was electrocuted.

Mr. Latham arrived just then. Remembering a resuscitation method taught him in a first aid course, he applied it to the dog.

A few minutes later Jane was not in the least dead. But her new interest in life does not include the Amos basement.

ATTORNEYS TO GIVE JURY EWING'S SIDE

WASHINGTON, Feb. 19 (U. P.).—Attorneys for Orman W. Ewing, former Democratic national committeeman from Utah charged with taping a 20-year-old government stenographer, will try to substantiate today their contention that Ewing never was in the room in which the alleged attack occurred.

Defense attorneys promised the jury of 11 men and one woman in their opening statement that they would present evidence to show that Ewing did not enter the girl's bedroom soon after 3 a. m. on Oct. 26, as she has charged.

Federal Judge James W. Morris overruled a defense motion for a directed verdict of acquittal after the state completed its case.

FORMER MISSIONARY TO ADDRESS WOMEN

Protestant women of Indianapolis will observe the world day of prayer in two downtown services tomorrow. The services are sponsored by the personal faith and experience committee of the Indianapolis Council of Churchwomen.

The Rev. Egon Hessel, former missionary to Japan, now of the Chicago Presbytery, will speak at Christ church at 12:45 and at the First Baptist church at 1:30 p. m.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 million of tiny tubes or filaments which help purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or empty urination, swelling and backache sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, milky urine, itching skin, headache and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of tiny tubes in your kidneys and save you from your blood. Get Doan's Pills.
