

WARNs INDIA ON FREEDOM AIMS

England to Fight Claims
Now, but Pledges Self
Rule Later.

LONDON, July 30 (U. P.)—Great Britain warned militant Indian nationalists today that it would take all means to meet anti-British activity in pursuance of immediate independence aims.

L. S. Amery, secretary of state for India, told the house of commons:

"The government can not but solemnly warn all those who stand behind the policy abominated by the working committee of the all-India congress that the government of India will not flinch from its duty to take every possible step to meet the situation."

The working committee, the executive of the nationalist congress, demands freedom for India now as the price of its full cooperation with the empire war effort against Japan.

As he gave his warning, Amery repeated that Great Britain would make good its pledge to give India the fullest opportunity to attain self-government.

Two Sets of Brothers Join Marines

Two sets of brothers who have been inseparable companions and neighbors for 11 years at Anderson enlisted in the marine corps here this week. They are (left to right, standing) James and William Holman, sons of Mr. and Mrs. Lester Holman of Anderson, and Gilbert and Charles Eldridge, sons of Mr. and Mrs. G. D. Eldridge. Sgt. C. E. Kinsey is showing the boys on a map the route they will take to San Diego, Cal., marine training center.

HINT NAZI DIET AT 1918 LEVELS

Report Mothers Turning to
Vitamin Pills to Ward Off
Diseases.

By DAVID M. NICOL

Copyright, 1942, by The Indianapolis

and The Chicago Daily News.

LONDON, July 30.—On the basis of information available here experts believe that the average German diet is approaching 1918 levels while mothers are turning especially to "vitamin pills" and other means to ward off children's diseases, especially rickets.

Forty per cent of the Reich's entire population is now eating on levels below those required to maintain health and efficiency, according to these sources which estimate the daily average of calories at less than 1800.

Dietitians say that 2000 calories are required to maintain efficiency and 2500 to maintain health over a long period.

Deficiency in iron, calcium and vitamin A is increasing the incidence of anemia, dental decay and skin diseases, according to reports.

Home Front Forecast

Shortages Certain Before Summer Ends In Golf Balls, Fish Hooks, Horseshoes

ress of pipeline construction, amount of iron available for making new coal grates. Meanwhile, the old-fashioned Franklin stove is coming into its own. Many closed fireplaces will gradually replace the old types. The new soups will be clearly marked and will sell under slightly higher ceilings than those canned before June 30, 1942.

Oil-bearing soybeans and flax have cut into popcorn acreage this year thereby making less available for circus, movie and cocktail consumption.

MAKERS of ceramics have developed a way to use hard burned clay, plain or glazed, for stove tops, sinks, tubs—and even acid tanks. With all sorts of metal kitchenware priority-struck, pottery utensils will soon be invading kitchens, too.

STOP ORDERS on manufacture of all pianos and other instruments may have made better care of old ones imperative, but if you've got an old, out-of-tune model sitting around unused, contribute it to the salvation campaign. One piano contains about 160 lbs. cast iron, 40 lbs. steel, 5.5 lbs. copper wire plus lots of brass, felt and rubber.

REVERSING last year's campaign, Americans are urged to buy and eat as much cheese as they can. Stepped-up production has outstripped even huge lend-lease

orders.

ALREADY under threat of travel "rationing" train passengers are urged to take only one bag with them. Others should be checked.

REVERSING last year's campaign, Americans are urged to buy and eat as much cheese as they can. Stepped-up production has outstripped even huge lend-lease

orders.
