

POINT VALUES CUT ON TOMATO, FRUIT JUICES

OPA TAKES DRY SOUP OFF LIST

Drop in Sales Prompts Action; Frozen Foods Are Unchanged.

WASHINGTON, May 3 (U. P.).—Most tomato and fruit juices received lower point values and dried or dehydrated soups were removed from ration lists altogether in an OPA order which went into effect yesterday.

Removal of dried soups followed the complaint of dealers that their wholesale stocks had increased 80 per cent in March and much of their supplies were in danger of spoiling. These soups may be rationed again in the fall.

The fruit juice point reduction also was due to a decrease in sales. Pineapple juice was the only one not affected and it went up from 13 to 17 points for the popular No. 2 size.

Some Fruits Increased

Items not changed include frozen fruits and vegetables, baby foods, dry beans and dry peas.

Reductions were made on certain sizes of processed apples, berries, cherries, peaches, pears, plums and prunes. Increases were made on certain sizes of canned apricots, fruit cocktail and pineapple.

Other items removed entirely from the ration list were canned corn on the cob, canned green turtle soup, clam juice, clam broth and clam juice cocktail.

The new values apply to G. H. and blue coupons which are valid until the end of May.

'FRATERNAL WEEK' IS OBSERVED HERE

Governor Schriker has designated the period beginning today and running through Saturday as "fraternal week," during which members of the Indiana Fraternal Congress will hold patriotic meetings. In his proclamation Governor Schriker referred to the war as a battle for "liberty, equality and fraternity, which is democracy," and this thought will be the theme at all meetings which the fraternal organizations will hold throughout the state during the week.

HOOSIER FLIER GETS STAR FOR GALLANTRY

A Hoosier flier, who was a member of a Mitchell bomber attacked by eight zeros during a raid on Lee, New Guinea, has received a silver star, with other crew members, for gallantry in action. He is 1st Lt. William R. Lett, Danville, cited for "extraordinary coolness and dispatch" when the bomber was forced to make a landing.

AUXILIARY TO MEET

The auxiliary of the Sons of Union Veterans of the Civil War will meet at 8 p. m. Thursday in Ft. Friendly.

Want to Live 100 Years? Here's the Prescription

By Science Service

NEW YORK, May 3.—If you want to live to be a hundred, marry, keep busy, love romance, make plans for the future, have pride in your personal appearance, develop a hobby and sharpen your sense of humor.

This would seem to be the prescription that might be written as a result of a study of a 20-year crop of centenarians numbering 450 made by Dr. Grace E. Bird, professor emeritus of the Rhode Island State College of Education. Of these, 350 are still living.

"Life for some may begin at 100, instead of 40," Dr. Bird told the Eastern Psychological association meeting here. She located the long-lived men and women of her study with the aid of two Eastern newspapers, but the individuals themselves were located in every state of the union.

About twice as many women as men live to be 100 or more, and all but eight of the women were married. Many had raised large families of children.

All were interested in life and most of them in romance. One lady cynically stated that she was "through with men," but she was just recovering from a recent disappointing romance with a 77-year-old suitor.

A man at the age of 111 regretted that his 30 children were not present on his birthday.

The jobs of men and women over 100 are varied and may be strenuous. One man at 100 is an airplane spotter. Another chops wood. A woman, at 100, works in her son's candy shop.

One man was appointed deputy sheriff at the age of 100. Another man supervises the care of 68 cattle, six horses, and two mules in Arizona. One woman is an artist still painting. One preaches in a small church every Sunday.

YES You can still be an AVIATION CADET!

• If you want to fight for your country in the air, where there's need for your skill and daring—if you want to be ready for a future career in aviation—the opportunity is still open to you.

1 If you are 18 to 26 years old, inclusive, and have not yet been called for induction under Selective Service, you may apply at once at the nearest Aviation Cadet Examining Board to take your physical and mental examinations. No school or college credits are required. If you pass the examinations and are found acceptable, you will be given a letter to the Armed Forces Induction Station requesting your assignment to the Army Air Forces upon induction. You may then volunteer for induction through your local Selective Service Board. After induction you will be assigned for preparatory training, upon completion of which you will receive your appointment as an Aviation Cadet and have an opportunity to become a Bombardier, Navigator or Pilot—one of the "Three Musketeers of the Air!"

2 If you have already been called for induction, you cannot apply direct for Aviation Cadet training. But, if you are assigned to the Army, you have the same opportunity open to every soldier, 18 to 26 years old, inclusive, to apply for Aviation Cadet training after you are in the ranks.

3 If you are 17 but not yet 18, you can go now to your Aviation Cadet Examining Board and volunteer for enlistment in the Air Corps Cadet Enlisted Reserve. Air Corps Enlisted Reservists are called to active duty for pre-flight training at the end of the first school semester after reaching the age of 18.

THIS ANNOUNCEMENT IS MADE WITH THE APPROVAL OF THE JOINT ARMY-NAVY PERSONNEL BOARD.

Write to The Adjutant General of the Army, Washington, D. C., for booklet entitled "Aviation Cadet Training for the Army Air Forces."
