HEALTH QUIZ
Do you have poor digestion? ☐ YES ☐ NO
Do you feel bloated after eating? ☐ YES ☐ NO
Do you get sour or upset easily? ☐ YES ☐ NO
Do you feel tired—listless? ☐ YES ☐ NO
Now everyone knows that to get the good
out of the food you eat—you must digest
it properly. But what most people don't
know is that Nature must produce about
two pints of the digestive juice—liver
bile—each day to help digest your food.
If Nature fails—your food may remain
undigested—its sour and heavy in your
digestive tract.
Thus, it is simple to see that one way
to aid digestion is to increase the flow
of liver bile. Now, Carter's Little Liver
Pills start to increase this flow quickly
for thousands—often in as little as thirty
minutes. When bile flow increases, your
digestion may improve. And, soon you're
on the road to feeling better—which is
what you're after.
Don't depend on artificial aids to coun-
teract indigestion—when Carter's Little
Liver Pills are directed. Get Carter's Little
Liver Pills today—at any drugstore—
only 25c. You will be glad you did.
