"The morale of the German people is sustained by the faults and inadequacies of the Roosevelt administration which will be the cause of sacrificing our sons, brothers, husbands and sweethearts," Ely told a Jeffersonian Democrats' meeting.

Senate Resolution Lauds Dawson for Statesmanship

By SHERLEY UHL

In view of Lt. Gov. Charles Dawson's known gubernatorial ambitions, considerable political significance was attached today to a state senate resolution praising the "statesmanlike manner" in which he has presided over that body during the last three sessions.

Introduced by Senator John W. Van Ness (R., Valparaiso), senate president pro tem., the resolution was passed unanimously after being seconded in a series of highly eulogistic addresses offered by both Republicans and Democrats.

Mr. Dawson, obviously moved by the senate's action, acknowledged the resolution in a brief speech in which he congratulated the members for speeding the two principal special session bills on their way without delay.

Another resolution, introduced by Senator Phelps commanded the "capable qualities" of Senator Vermillion, the minority leader and a senatorial veteran of many years.
