## SEE NATIONAL GUARD AS PEACETIME FORCE

WASHINGTON, Nov. 24 (U. P.).—

Secretary of War Henry L. Stimson hinted yesterday that the national guard might be the source of American troops that would be used by the proposed united nations organization to maintain future peace and thwart any aggressor.

Asserting that his new conference that the war department approves of a plan to continue the national guard after the war as a component of the U. S. army, he said: "It would be the mission of this reserve component, in the event of a national emergency, to furnish units fit for service anywhere in the world."

He declined to say whether this meant that the reserve component would be utilized as part of an international police force.

## BRITISH SPAN COSINA SOUTHEAST OF AENZA

ROME, Nov. 24 (U. P.).—British

troops of the 8th army stormed across the Cosina river last night and have established five small beachheads on a two and a half mile front, three and a half miles southeast of Aenza, despite heavy German counter-attacks, headquarters announced today.

A communique described the fighting as "very bitter" with the Germans throwing in infantry, artillery, mortars and machine guns. To the south, Polish troops advanced a half mile north of San Biagio and were reported fighting on the crest of Mount Ricci, three and a half miles south of Aenza.

The injured were William Spangler, who suffered a brain concussion and bruises; Herman Bailey and H. R. Myers, who received cuts and bruises when the derailed train wrecked the section building along the right of way. All the injured were section hands.

Town Marshal Mill Weir said that two carloads of sheep and two carloads of cattle were upset. Townspeople and state police had rounded up all the uninjured animals today, but about 100 head were killed outright or had to be destroyed.

The cause of the accident was not immediately determined. L. C. Stanford, Charleston, Ill., was the engineer.

**DE GAULLE TO SEEK RUSS SECURITY PACT**

LONDON, Nov. 24 (U. P.).—Gen. Charles De Gaulle will seek during his coming visit to Moscow to negotiate with Premier Joseph Stalin a 20-year security treaty in which France and Russia would pledge each other military and economic support if Germany attacks either of them before 1965, reliable diplomatic quarters said yesterday.

It is believed that agreement on such a pact will be reached in principle during De Gaulle's visit. Signature of a treaty, however, probably will come at a later date after the two contracting parties have had time to settle details and working arrangements.

**100 ANIMALS KILLED ON DERAILED TRAIN**

CAYUGA, Ind., Nov. 24 (U. P.).—The engine and 18 cars of a Nickel Plate freight train were derailed here last night, injuring three persons in a nearby section building and killing an estimated 100 head of livestock in cars just behind the engine.

The injured were William Spangler, who suffered a brain concussion and bruises; Herman Bailey and H. R. Myers, who received cuts and bruises when the derailed train wrecked the section building along the right of way. All the injured were section hands.

Town Marshal Mill Weir said that two carloads of sheep and two carloads of cattle were upset. Townspeople and state police had rounded up all the uninjured animals today, but about 100 head were killed outright or had to be destroyed.
