A TRAITOR'S FATE—
**Quisling Given
Death Penalty
For Treason**

By SAMUEL D. HALE

United Press Staff Correspondent

OSLO, Sept. 10.—Vid-

kun Quisling—the first of
the European traitors to
sell out to Nazi Germany
today was convicted and
sentenced to death.He was found guilty by a jury of
fellow-Norwegians on six
counts of treason, murder and
theft.The hulking Quisling, who
steadfastly had denied his guilt
throughout the weeks-long trial,
stood erect for more than an hour
while presiding Justice Erik Sol-
lem read the verdict.Sollem then told the former
Norwegian puppet-premier that
he had the right to appeal to the
supreme court."If you think the sentence is
too severe or that the procedure was illegal,"
I wish the case to be recon-
sidered by the supreme court,"
Quisling replied in a low voice.In view of the appeal, no date
for the execution was set.SOLEM said it had been proved
conclusively that Quisling dealt
secretly with the Nazis before the
German invasion of Norway on
April 9, 1940, and betrayed his
country's military defenses in ex-
change for money and the pre-
miership.of military treason, civil treason,
assistance to the enemy, murder
in connection with the deaths of
100 Norwegians killed by the
Nazi occupation forces—embezzle-
ment and theft.He also was convicted of man-
slaughter for the deaths of
roughly 1,000 Norwegian Jews who
were gassed in Nazi concentra-
tion camps, and of Oslo Police
Chief Ellisen and 14 other Nor-
wegians. The latter were executed
after Quisling had refused their
appeal for clemency.THE VERDICT was unanimous
on all the main counts, but Quis-
ling was acquitted on specific
charges of stealing some state
property. The jury was divided
on whether he knew the Jews
were being sent to the Nazi gas
chambers.It ordered Quisling's fortune,
totalling 1,000,000 kroner, (ap-
proximately \$206,640) confiscated.The 58-year-old Quisling, whose
name became a byword for
treachery throughout the world
after he welcomed the German
invaders into Norway in 1940 and
formed a puppet government to
collaborate with them, played a
prominent role in Norwegian politi-
cal and military affairs for three
decades.A MEMBER of the Norwegian
general staff from 1911 to 1923,
he held minor diplomatic posts
in Finland and Russia after the
last world war and was a volunteer
relief worker in the Soviet
Union during the famine of
1922-23.He represented British inter-
ests in Russia from 1927 to 1929,
when London and Moscow had no
diplomatic relations, and was dec-
orated by the British govern-
ment for that service. The dec-
oration was rescinded when he
turned traitor in 1940.QUISLING served in the Nor-
wegian government as minister of
defense from 1931 to 1933, and
it was during that period that
the prosecution charged, he gathered
information which was to
prove of value to the Germans
in 1940.After his brief term in office,
he organized the Norwegian national-
ist movement, patterned on
Hitler's Nazi organization, and
launched into a rabid anti-Rus-
sian movement that culminated in
his seizure of power on April
9, 1940.RESCUED FROM SHIP
AVON, N. J., Sept. 10 (U. P.)—
Coast guard crews brought 60 pas-
sengers ashore today from the three-
masted schooner, Mabel & Ruth,
which had drifted helplessly all
night in a heavy fog.BRITAIN'S WAR COSTS
LONDON, Sept. 10 (U. P.)—
Herbert Morrison, lord president of
the council, said today that the
war cost Britain \$4,800,000,000 on
land and \$920,000,000 at sea.

**RATIONING OF
MEAT DUE TO
END BY OCT. 1**

OPA Controls on Shoes
Will Be Lifted
By Nov. 1.

WASHINGTON, Sept. 10 (U. P.)—Meat rationing will end Oct. 1 and shoe rationing will end soon after, it was learned today.

Secretary of Agriculture Clinton Anderson favored lifting meat rationing Sept. 1, it was learned. But Price Administrator Chester Bowles requested that no action be taken until OPA had cut down its paid field personnel.

Having laid off most of its paid field employees, OPA has agreed that meat rationing will go Oct. 1. The two agencies have drawn up blueprints heralding the end.

There is a good supply of beef, lamb, mutton and poultry on the market, although there is still a pork shortage.

Fats and oils will continue to be rationed, as will sugar.

Shoe rationing, it was learned, will probably end between Oct. 15 and Nov. 1.

Most WPB Bans Lifted

President Truman notified war agencies on Aug. 15 at the time of the Japanese surrender that as many controls as possible should be lifted within 60 days—all if possible.

Already rationing of processed foods, fuel and gasoline has ended. Most war production board controls have been eliminated. The office of defense transportation and the petroleum administration for war have also slashed most of their controls.

The OPA believes most rationing will end this year—including rationing of automobiles and tires as well as shoes and meat. Because of the shortage of sugar and fats and oils, however, rationing of these items may continue into next year.

Other controls which will continue for some time are those over rent and prices. The OPA wants to keep prices down.

Rent control has been the most successful of all OPA price control programs. According to the bureau of labor statistics, rents went up only 4 per cent between August, 1939, and August, 1943, whereas food went up almost 50 per cent, and clothing 45 per cent.

At the same time OPA points out that landlords had an increased income of around 40 per cent during the same period because of fewer vacancies, decreased maintenance costs and slightly increased rental rates.

The next important WPB control scheduled to go is the one over home construction. It is expected to be removed within the next month.

ELECTRIC LIGHTS OFF EARLY TODAY

Company Generator Out of
Service for Hour.

Early rising Indianapolis men and women wore an untidy appearance today—the result of electric power failure that kept men from shaving and prevented women from applying their make-up.

For a yet to be determined reason, one of the two large generators failed at the S. H. Harding plant of the Indianapolis Power and Light Co. Carrying about 60 per cent of the load at the time, the generator went out at 5:40 a. m. and service was not restored until about an hour later.

Many persons were late to work—those who depended upon electric clocks—while flickering lights at some homes made it difficult to shave or apply make-up.

Downtown residents were not affected, company officials said, because power for this region is provided by the Mill st. and Perry K. plants, both located in the downtown area.

SCHMELING CLEARED OF BRITISH CHARGE

HAMBURG, GERMANY, Sept. 10 (U. P.)—Max Schmeling, former world heavyweight boxing champion, was acquitted today of a charge of providing false information to the British foreign office.

Schmeling was arraigned in a Hamburg court on the charges made by British military authorities.

He pleaded innocent to a charge that he falsely stated he had been given a permit to publish books.

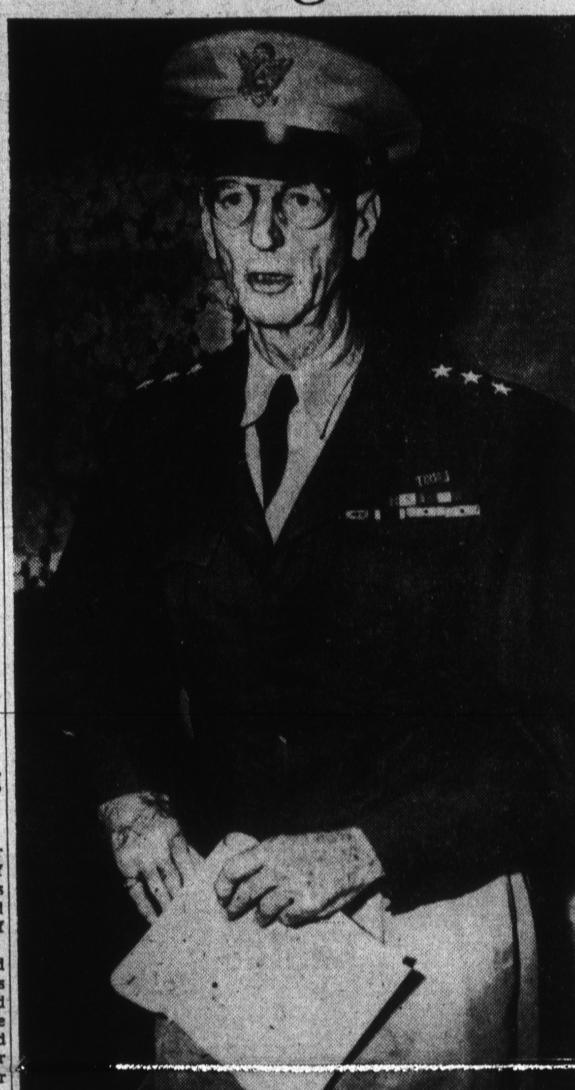

Schmeling had been arrested by British military authorities and accused of breach against army regulations.

Wainwright, Hero In Defeat, Given Great Ovation

By CHILES COLEMAN
United Press Staff Correspondent
WASHINGTON, Sept. 10 (U. P.)—Skinny Wainwright—a hero in defeat—flew home from the ugly shadows of a Jap prison camp today.

He came back to a reunion with his wife and a tumultuous reception which the nation's capital had waited 3½ years to give him.

Wainwright's plane, a C-54 four-motored Skymaster, landed at the airport at 11:26 p. m.

(Indianapolis time) and five minutes later taxied to a stop.

Wainwright appeared in the doorway, smiled at his waving wife and snapped to a salute as the Fort Myer band burst into the general's march.

He descended from the plane, kissed Mrs. Wainwright—and then kissed her again. To her "Hello, darling," he appeared too overcome with emotion to reply.

Wainwright, his tanned face thin and lined, walked slowly with the aid of a cane. After greetings from Gen. George C. Mar-

shall and Gen. Jacob L. Devers, while the crowd applauded, he entered a long, black Cadillac touring car for the ride to the Pentagon building and a gigantic reception in the capitol.

Great crowds lined the flag-draped route of his motorcade through Washington to catch a glimpse of the man—now full Gen. Jonathan M. Wainwright.

His heroic defense of Bataan and Corregidor in the spring of 1942 gave the allies time to plan the defense of Australia and the mili-

tary comeback which led last week to Tokyo.

For the man known to thousands of Washingtonians as "Skinny" the four-hour reception was a crowded one.

It included a key-of-the-city ceremony before hundreds of thousands of hero worshippers in the shadow of the Washington monument; a visit to the halls of congress; and a personal welcome at the White House from President Truman.

After the airport reception—

After a sweltering week-end, Indianapolis is supposed to "cool off" today and tomorrow for at least temporary relief from some of the hottest days of the summer.

Although the weatherman predicted refreshing Saturday and Sunday, it was a typical hot and sticky September vacation for tired workers.

Showers today will cause the drop in temperature, but the skies will clear tonight, and tomorrow promises to be fair, but still cool.

SIAMESE TWINS DIE; ALIVE ONLY 2 WEEKS

PHOENIX, Ariz., Sept. 10 (U. P.)—Louise and Macilia Miranda, "Siamese" twins born Aug. 25, died here last night after less than two weeks of life.

Death came at St. Monica's hospital, just 12 days, 17 hours and five minutes after they were born to Mrs. Rita Miranda, 25.

Hopes that the babies might be severed and live independently were given up soon after their birth when it was discovered that the girls had separate stomachs and intestines, but only one liver and joined in testicles.

Research disclosed that the Miranda girls were the only Siamese twins joined at the front of their bodies. Other sets of Siamese twins known to science were joined at hips, buttocks or shoulders.
