Here's Your Weekly Payment Under the New Tax Law

WASHINGTON, Nov. 2 (U. P.).—The following table shows the amount of federal income tax that will be withheld from weekly wages in 1946 under the new tax law passed by congress.

A single person has one exemption for withholding purposes; a married man with non-working wife, two exemptions; a married man with non-working wife and two children, four exemptions, etc. When a man and his wife both are employed, the husband might take the exemptions for both of them, and the wife none, or they might each take one exemption.
