AN EXCELLENT YEAR JUST FINISHED—ANOTHER AHEAD IN 1946

Annual Report

TO YOU AND THE POLICYHOLDERS OF STANDARD LIFE OF INDIANA For the Year 1945

STANDARD LIFE has again completed another outstandingly successful year. In 1945 sales boomed, assets mounted and insurance-in-force jumped to over \$36,000,000 (not including small loan insurance).

During our first decade of life the company has established phenomenal records. Basically there is no difference between Standard Life and other good companies, but there are differences that give Standard Life policyholders certain advantages... advantages that have made it one of the greatest modest sized life insurance companies.

YOUR G. I. RIGHTS... By Douglas Larson

Housing Loans Not Limited To Property's Normal Value

WASHINGTON, Jan. 1.—Here are some questions on the new G. I. Bill of Rights just passed by congress:

Q.—Several months ago I tried to get a loan to buy a house. It suited my needs perfectly, but when I asked approval of the purchase by the government representative, he turned it down. He said the price was too high. Since then I have looked at all the available houses in my town but they are all about the same price. I understand now that you can pay more for a house under the new G. I. bill passed by congress. What do you advise me to do? I still want to buy the house I selected first.

A.—The new law does not say that a price has to be "normal" in order to be approved for a guaranteed loan by the government. As long as the price is "reasonable" it is all right. Make another application for the loan and the chances are, if all the prices are up in your city, you will get the approval under the new law.

Q.—Early in the war I enlisted with the Canadian air force. Since then I have been honorably discharged and have returned to my home. I want to go to college but they tell me in Canada I have to

attend school there to get Canadian education benefits. A friend told me that under the new G. I. bill I can now attend school in the United States. Is this true and how does it work?

A.—Under the new G. I. bill as passed by congress, Americans who served honorably with any allied army during World War II are now eligible for the benefits of the G. I. Bill of Rights.

Q.—My son was attending college under the army training program but he was never able to get any benefits under the G. I. Bill of Rights when he got out. Does the new law change this?

A.—No.

'A NEW DAY FOR JAPS'—M'ARTHUR

TOKYO, Jan. 1 (U. P.).—Gen. Douglas MacArthur, in a New Year's statement to the Japanese people, today promised they would have freedom they have never known before.

"A new year has come," MacArthur said. "With it a new day dawns for Japan."

"No longer is the future to be settled by a few."

"The shackles of militarism, of feudalism, of regimentation of the body and soul, have been removed."

"Thought control and the abuse of education are no more."

"All now enjoy religious freedom and the right of speech without undue restraint. Free assembly is guaranteed."

"Removal of this national enslavement means freedom for the people, but at the same time it imposes upon them the individual duty to think and act, each on his own initiative. It is necessary for the masses of Japan to awaken to the fact that they now have the power to govern, and what is done must be done by themselves."

"It is my hope that the new year may be the beginning for them of the way and the truth and the light."
