

BUSINESS— REALTORS NAME G. I.-AID GROUP

Board Also Installs New
Officers at Dinner.

A G. I. committee to deal with veterans' problems on housing and loans was chosen last night at the annual dinner meeting of the board of directors of the Indianapolis Real Estate board.

Sixteen members of the board were guests of incoming President E. W. Springer last night at the Columbia club and during the meeting following the dinner they approved over 200 suggested board representatives on committees for 1946.

Hicks Is Head
Wendell Hicks, chairman and retiring president of the board, and Howard W. Fieber, vice chairman and vice president of the board for 1946, head the G. I. committee including Walter M. Evans, Robert Mason, J. C. Van Briggie, H. Duff Vilm, A. H. M. Graves, Harry Dillehay, Fred W. Asperger and Guy F. Boyd.

Besides Mr. Springer and Mr. Fieber, Ralph E. Hueber, secretary, and William Wattermire, treasurer, were installed as officers of the board succeeding Mr. Hicks, Carl G. Seytler, Bruce C. Savage and C. O. Grinslade, Mr. Hicks replacing Fred C. Tucker as special counselor.

Mrs. Mary Binford, executive secretary, was named as representative of the regional board for the meeting of the National Association of Real Estate boards in Chicago, Jan. 16-17. The regional board consists of Indiana, Ohio, Michigan, Kentucky and Illinois.

Chairmen Named
William L. Bridges, Mr. Hicks and Mr. Seytler were named for three-year terms on the appraisal committee.

Chairmen of other committees elected were Norman Metzger, arbitration; George T. Whelden, assessment and taxation; Mr. Fieber, attendance and program; Ben F. Claypool, budget; Forest B. Kellogg, building; Henry J. Dent, bowling; R. W. Stempel, golf; Earl B. Tacke, moyer, legislative; T. N. Meredith, membership; Mr. Bridges, membership examining; Leo Welch, mortgage loan; Mr. Savage, associated north side realtors; Paul L. McCord, planning and industrial; C. R. Fant, policy; G. W. Applegate Jr., property management division; T. Lorin Driscoll, publicity and realtor use; John G. Dyer, social affairs, and Harry L. Robbins, welfare.

FREE 'ENTERPRISE' LAUDED BY DEAN

NEW YORK, Jan. 8 (U. P.).—The American public should be educated about the achievements of free enterprise, Dean James E. McCarthy, University of Notre Dame, told the National Retail Dry Goods association here last night.

Management has failed to tell the story of American industrialism, Dean McCarthy said in his dinner speech, resulting in an "appalling low state of economic literacy among the American people." And he urged a vigorous campaign to inform the public.

He pointed out that an increasing number of people are advocating statism in the belief our economy can be best preserved and aided by government control, because management has failed to provide the true story of free industry.

"Actually," Dean McCarthy said, "the herculean task that American business has performed since 1941 will probably be recorded as the greatest industrial achievement of all times."

Books

The following new books have been received by the business branch of the Indianapolis public library:

DEVELOPING MARKETABLE PRODUCTS AND THEIR PACKAGING, by Ben Nash.

PLASTICS: WHAT EVERYONE SHOULD KNOW, by Bernard Wolfe.

UNDERSTANDING LABOR, by Bernard H. Fitzpatrick.

CHINA'S POST-WAR MARKETS, by Chih Tsang.

HOW TO MAKE MONEY IN REAL ESTATE, by Stanley McMichael (revised edition).

Thieves Like Furs and Jewelry Best of All!

That's why wise owners insure their valuables with Grain Dealers.

Costs so little—gives best protection.

Officials of Real Estate Board

Newly installed officers of the Indianapolis Real Estate board for 1946 are (left to right) Edward W. Springer, president; Howard W. Fieber, vice president; Ralph E. Hueber, treasurer, and William Wattermire, secretary.

Members of the board of directors of the Indianapolis Real Estate board for 1946 are (seated, left to right) William L. Bridges, C. A. Dahlman, Glen E. Burit, Claude G. Jacquet, (standing, left to right) Edgar E. Brodbeck, Harry Dillehay and A. H. M. Graves.

DURHAM FOREMAN DENIES 'FLAW HIDING'

PT. WAYNE, Ind., Jan. 8 (U. P.).—Walter Bates, day foreman of the shaft line at the Durham Manufacturing Corp., was called for cross-examination today in the government's conspiracy trial against the company and nine of its employees.

In long and detailed testimony yesterday, Bates denied attempting to conceal defects in war materials. Bates, a defendant, said he once had refused to work on a load of 180 propeller shafts received by the Durham plant because they contained "cracks and seams." The shafts, he said, had been approved by navy inspectors at the supplier plant.

Bates testified that a navy inspector had told him the cracks could be "fixed" by welding and said he had seen the welding done under navy supervision. The defendant also recalled a conversation with a navy chief inspector who he said complained because a shaft was one-thousandth of an inch off specifications. "I told him it was foolish to argue about about 1-1000 of an inch when 1000 of our fellows were getting their heads shot off waiting for the shafts," Bates said.

Bates said he had taught many new navy inspectors to use micrometer instruments for testing the size of the shafts. He said a different inspector was assigned to the shaft line each week and that they all differed in their specifications.

BEGIN NEW FLIGHTS TO JOHANNESBURG

NEW YORK, Jan. 8 (U. P.).—Round-trip flights from New York to Johannesburg, South Africa, a gold and diamond center, will start within two weeks, Walter J. Lettis, president of World Travelers, Inc., announced today.

The cost of the round-trip will be \$1981 and one-way \$1109, according to Lettis, who explained that the 8700 mile one-way journey will take four days.

FREEZING FAVORED TO CONSERVE FOOD

CINCINNATI, O., Jan. 8 (U. P.).—Food editors and processors in convention here today were considering better food conservation methods as the result of recent developments in quick freezing processes.

The Cincinnati chapter of the Ohio Society of Professional Engineers was served a meal last night of fluffy mashed potatoes, lima bean casserole and a light golden-crust apple pie. The food was prepared last March.

George Garnatz, director of the Kroger Food Foundation, said the meal was prepared 10 months ago in the Foundation kitchens. Quick freezing turned the trick, he said, saving a lot of time for the cook who prepared the dinner.

Dr. Donald K. Tresler, Westport, Conn., food technologist, also praised quick freezing methods at a meeting of the convention last night.

A housewife, he said, with the new process can preserve fruits and berries as good as or better than the best obtainable commercially. He cautioned that although quick freezing is the best preservation method, it is not always done correctly.

To prevent fruits from tasting badly after being thawed, Dr. Tresler recommended use of a sugar syrup known as "Sweetose," which is made by the A. E. Staley Manufacturing Co., of Decatur, Ill. It is sweeter than ordinary corn syrup and it makes canning of tree-ripened fruit possible, Dr. Tresler stated.

The convention, which opened here yesterday, will continue for one week.

Taxicab of 1946 Now on Display

NEW YORK, Jan. 8 (U. P.).—The taxi of 1946 went on display today. It includes the driver in a plexiglass shell, eliminates the usual "jump seats" by providing a swinging front seat wide enough for two passengers, and features a power-operated rear window. The Packard Motor Car Co. expects to start deliveries in two months.

CPA HEAD WARNS OF INFLATION DANGERS

NEW YORK, Jan. 8 (U. P.).—John D. Small, administrator of the civilian production administration, speaking here yesterday before the National Retail Dry Goods association convention, warned that discarding price controls now would set off an "atomic chain explosion of inflation."

Small compared the post world war I period of 1920 when prices rose 100 per cent above 1914 prices, to the present, with prices only 40 per cent above 1941 levels.

"The next six months," Small said, "are critical to the industrial future of our country. Given a good measure of industrial peace and assurance that we will not have runaway inflation, we can look forward to years of the highest prosperity this country has ever experienced."

Small assured the businessmen that the civilian production administration would not hold onto controls over industry "a day longer than we have to."

The administrator expressed particular concern over production shortages in the textile field, and said that the men's suit shortage will be present for "a long time to come."

OPA TO ESTABLISH CEILING ON COTTON

WASHINGTON, Jan. 8 (U. P.).—Cotton marketers today awaited declaration of an OPA ceiling on the 1946 cotton crop.

Chester Bowles, office of price administration director, announced Saturday that he planned to put the 1946 crop under price control to avoid the need for raising prices on textiles and clothing.

Bowles said the OPA was disturbed over recent advances in raw cotton prices. These might affect fabric and rayon ceilings, he said.

"A large element in the rise in the market seems to have been speculative in nature due to traders who are betting on inflation," Bowles said.

The OPA and civilian production administration have joined in efforts to control textile and clothing prices under low-cost clothing programs.

Bowles praised action of the Commodity Credit Corp. recently in putting more cotton on the market.

11,100 PORKERS RECEIVED HERE

Yards Get 2300 Cattle and
625 Calves.

The hog market at the Indianapolis stockyards was steady today in line with Friday's losses, the U. S. agriculture department said. Hogs totaled 11,100.

The 2300 cattle sold strong to 18 cents up in improved action, and the 625 calves gained 50 to 55 cents to reach the local ceiling in an active trade.

Sheep and lambs totaled 1080 and sold steady.
