

34 Are Reported Killed In Anti-Jewish Riots In Poland

YOUTH'S TALE OF ABDUCTION STIRS CROWDS

42 Others Are Injured, 63 Arrested; Residences Are Ransacked.

WARSAW, July 5 (U. P.).—A tale spread by a frightened 8-year-old boy was revealed today to have touched off the bloody anti-semitic riot at Kielce.

Thirty-four persons were reported killed, 42 injured and 63 arrested. Among those arrested, according to reports, were some Polish military.

Information from Kielce said a youngster named Handzik Blaszyk told the story which whipped up the riot.

He said he had been kidnapped in the basement of a Jewish apartment house and he managed to escape before residents could murder him.

The youngster, under questioning, was said to have admitted his story was false and he actually had been held by a Pole named Anthony Jasowski who told him to tell people Jews had held him prisoner.

Crowds Gather.

After the boy had told his story many crowds gathered in front of an apartment house. The crowds were reported to have attacked the Jews, sacked the apartments and looted.

Government officials, including security and justice ministry representatives, went to the scene to investigate.

The Kielce outbreak, the worst anti-semitic disturbance in Poland in recent times, occurred as Poland's remaining 100,000 Jews planned a demonstration strike today in protest against the British policy in Palestine.

Present Protest

Polish Jews presented a resolution of protest to the Warsaw government and to the ambassadors of the United States, Great Britain, Russia and France.

Authorities feared the strike call could serve as fuel for the flames of resentment already stirred by the riot at Kielce.

Gen. Wiktor Groc, a foreign office spokesman, said the violence was a "lamentable aftermath to Sunday's referendum."

The election itself had unleashed relatively little friction. Gen. Groc said the attacks were organized by Fascist elements who were members of an illegal underground organization, known as National Armed Forces.

At 7 p. m. curfew was ordered in Kielce after two hours of bloodshed.

Undersea Atomic Bomb Test Tentatively Set for July 25

By JOSEPH L. MYLER
United Press Staff Correspondent

OFF BIKINI ATOLL, July 5.—

Vice Adm. W. H. P. Blandy, director of the "Operation Crossroads" project, announced today the underwater explosion of an atomic bomb to test its power against naval ships has been set tentatively for July 25.

At the same time, Adm. Blandy declared last Monday's explosion from the air turned out to be "a far greater success in most respects than expected."

He said possibility had been taken into account beforehand the July 1 air drop might be a "miss of appreciable dimension," which it turned out to be.

The bomb, instead of bursting within 200 yards of the aiming point on the battleship Nevada, burst around 500 yards astern and to port, according to unofficial observers.

Adm. Blandy would not give the location of the burst, but said despite the fact "it was not precisely where we wanted, we still got a very satisfactory hit."

Adm. Blandy said the explosion was a "miss of appreciable dimension," which it turned out to be.
