

Paris Peace Conference Dodges American-Yugoslav Crisis

BALKANS HELD 'POWDER KEG' OF ALL EUROPE

Brazil Appeals for Italy; India Backs Egypt On Libya.

By R. H. SHACKFORD.
United Press Staff Correspondent.
PARIS, Aug. 22.—The peace conference plenary session today skirted the thin ice of U. S.-Yugoslav relations, but discussed the great gap which divides the western powers and those affiliated with the Soviet Union.

U. S. Secretary of State Byrnes left today's session shortly after it began, presumably because of the pressure of the Yugoslav situation. His place was taken by Senator Tom Connally (D. Tex.), who arrived today to assist Mr. Byrnes.

Fear 'Powder Keg'
Ukrainian Foreign Minister Dmitri Manuilski warned the delegates that "the Balkans once more may become the powder keg of Europe."

Neither M. Manuilski nor any other speaker referred directly to the American-Yugoslav crisis. The Ukrainian denounced what he called a policy of greed with regard to the Balkan states, saying it was having "a nefarious effect on international relations."

Brazil's Joao Neves da Fontoura opened the session with an impassioned appeal to the conference to draft a less harsh peace for Italy in what was regarded as a direct answer to violent Russian attacks of last week on the Italian government.

Senor Fontoura's statement was followed by another east-west controversy when Greek Premier Constantinos Tsaldaris answered Albanian Premier Enver Hoxha's attack on Greece yesterday.

Iraq Asks Hearing
Iraq asked the peace conference for a vote in drafting the peace treaty with Italy when Iraqi Minister Tahsin Kardy applied to the conference to be "admitted to the conference" to give his country's point of view.

Str Samuel Rungahan of India threw India's support behind Egypt's demand that Libya be granted immediate independence. Any plan which would return any part of the former Italian colonies to any kind of Italian administration would be "contrary to justice."

HOUSE GROUP O. K.'S BUNKER HILL LEASE

WASHINGTON, Aug. 22.—Final approval of the lease-contract between the navy and the city of Peru for use of part of the Bunker Hill naval air station as a municipal airport was obtained today from the house naval affairs committee.

Announcement of this approval was made by the office of Senator Capehart (R. Ind.). It now awaits similar approval from the senate naval affairs committee of which Senator Willis (R. Ind.) is a member.

Views of each member of the committees is obtained by mail. Action on the senate side is expected Aug. 27, when information will be sent to members. It takes about 12 days before the final decision is tabulated. Approval is expected from the senate committee also.

USE DDT IN CHICAGO FIGHT ON PARALYSIS

CHICAGO, Aug. 22 (U. P.).—Nine areas of Chicago were to be sprayed with DDT today in an effort to halt an outbreak of poliomyelitis which has affected 223 persons and killed 13.

An airplane will spray six garbage dumps. A swamp, a refuse loading station and a stagnant dead-end slip on the south branch of the Chicago river. The sections cover five square miles.

Authorities said the spray would be effective against flies, mosquitoes, beetles and larvae for about a month. Sixteen new cases of polio—the highest one-day total this year—were reported here yesterday.

Argentine Envoy

Dr. Oscar Ivanissevich, above, is the new Argentine ambassador to the United States. A leading surgeon and medical authority, Dr. Ivanissevich has served in university faculties in Argentina and other South and Central American countries.

CHINA FACTION CHIEFS CONFER

Slight Hope Seen in Talks For Peace.

By WALTER LOGAN.
United Press Staff Correspondent.
NANKING, Aug. 22.—Premier T. V. Soong met Communist leader Chou En-lai for a "preliminary exchange of views" in China's civil war crisis today while the Communists accelerated their general mobilization of regular troops and guerrillas for battle with the armies of Chiang Kai-shek.

Mr. Soong, president of China's executive yuan (cabinet), conferred with Mr. Chou for the first time today amidst reports of a possible impending government re-organization in line with agreements reached by the political consultative council.

But despite the Soong-Chou meeting and other political activities in the capital, reliable sources told the United Press there has been no new developments in peace negotiations which might revive hopes for an agreement.

Communists State Terms
However the communists said they would stop their general mobilization if Chiang Kai-shek's troops will halt their new offensive now being launched from the north.

Field dispatches said government troops under Chief-of-Staff Chen Cheng were smashing forward along a 100-mile front in Honan and Shantung provinces. Some 200,000 Communists were reported scurrying northward in retreat.

Nationalist press reports said Gen. Chen's troops had captured a 30-mile section of the railway between Lanfang and Hsinlung.

Can't Tell if He's Coming or Going

CHICAGO, Aug. 22 (U. P.).—Pvt. Charles Breed doesn't know whether he is coming or going. Neither does anyone else.

Pvt. Breed, 19, of Paw Paw, Mich., drove into Chicago in an automobile with two front ends and no rear.

He made it himself, by cutting two 1929 model-A Fords in half and then welding both front ends together.

The "two-headed monster" has only one engine now, but Pvt. Breed plans to install another motor so he can drive in either direction.

It has two sets of steering wheels, panels, clutches and brakes, however.

"I made it just for the heck of it," Pvt. Breed said.

"It eliminates back seat drivers."

COLUMBUS CHAIR PLANT IS CLOSED

COLUMBUS, Ind., Aug. 22.—Because of a shortage of steel, Noblitt-Sparks Industries, Inc., is closing its outdoor furniture division. Employees of the chair plant are being transferred to other plants of the company.

MARION PLANT SOLD TO ANACONDA FIRM

Times Washington Bureau.
WASHINGTON, Aug. 22.—Anaconda Wire & Cable Co., Chicago, has purchased the Marion, Ind., plant which they operated during the war, for \$178,889 the War Assets Administration announced today.

Engaged in the manufacture of wire and cable for war purposes, company and plant officials were prosecuted for providing defective products to the navy. The case was tried in the Northern Indiana Federal court and fines imposed.

The number of jobs the company will provide for the peacetime operation at Marion was not disclosed WAA said. But the company announced that operation would put former employees there back to work.

Local People Want U. S. to Be Cautious With Yugoslavs

By HARVEY HARRIS

Indianapolis residents and visitors want our state department to take cautious, but determined action in the present Yugoslav crisis. A number of persons on downtown streets were questioned.

The situation: "Russia has a hand behind this whole thing," Charles Calvert, 5602 Shelby st. said. An army veteran studying medicine at Indiana university, the young man believes submission of the issue to the United Nations will solve the problem.

We're letting them get away with quite a lot," was the opinion of Mrs. A. J. Williams, 334 N. Noble st., housewife.

Cab Driver George Engelking, 1435 Williams st., favors stricter action on the part of the United States.

"The only thing I can see," he

said, "is that the United States should take its own part. We shouldn't be pushed around."

Barbara Patterson, clerk, 5692 Broadway, wearily surmised that it seems to be one crisis or investigation after another.

"I hope we can come out of this with level heads."

"The Yugoslavs were glad enough to have had our equipment and planes during the war," Miss Dorothy Darling, department store fashion co-ordinator, 337 W. 46th st., said. "It certainly is paradoxical that they're using the weapons against us now."

An unemployed veteran, Eugene Holton, 917 Ft. Wayne ave., is pessimistic. He believes that "it just looks like another war."

"It was all premeditated," Ed

Shaffleton, city bond clerk, 124 W.

12th st. suggested. "The Yugoslavs are backed by the Russians and they're wearing a chip on their shoulder."

"They should feel indebted to the United States," George Zainey, 605 N. LaSalle, Butler university said. "I don't think too much will come of this mess. Yugoslavia doesn't have the power to be an aggressor nation, and that's what really counts."

Dr. Lewis Jaffe, optometrist, 5406 N. Delaware st., regards the Yugoslavs as "too arrogant and very unappreciative of what we did for them." They'll eventually back own, he believes. Their army of 500,000 poorly trained troops have little potential power, he said.

"I wonder if we're not partly to blame," Mrs. Mary Hight, housewife, 424 N. Tibbs ave., speculated.

"We mean well," she said, "but frequently we don't impress our friends with that good intention. If our planes were asked to land, they should have landed."

J. F. Griffin, Providence, R. I., photographer, believes nothing is liable to come out of the situation. "I don't think that Europe wants another war," the A. A. F. veteran observed.

Said Mrs. Cora Bunnell, housewife-stenographer, 4835 College ave: "I think that the United States should be firm as I see the hand of the Russians behind this activity," she said.

Sam Andl, Milwaukee restaurant manager conventioning here, philosophizes that everyone wants to get the upper hand these days. "Nothing will come of the situation," he declared.

CHICAGO LIFEGUARDS HAVE THEIR WORRIES

CHICAGO, Aug. 22 (U. P.).—The boss of Chicago's lifeguards called for help yesterday.

Sam Pecoraro, general supervisor of building facilities of the Chicago park district, complained too many women fake drownings to attract the attention of the city's 1600 male lifeguards.

But what's worse, he said, the 56 female lifeguards have their hands full answering shrieks from men who only want the girls' addresses.

PARTY ADVISER NAMED
WASHINGTON, Aug. 22 (U. P.).—Democratic National Chairman Robert E. Hannegan has named Rep. A. S. Mike Monroney (Okla.), as his special congressional campaign adviser.

Back to School Means Anklelets . . .

and you never have enough! These are just what you've been looking for . . .
