which cleans engines and keeps 'em clean... it actually  
**Removes the "goo"**  
and, by keeping moving engine parts free, it also  
**Improves the go!**

## You get premium-plus lubrication

There's nothing to stifle power, stick rings, or hamper valve action when you remove the "goo." Right! Get rid of engine deposits of soot, varnish, carbon, and sludge... and you definitely improve the go! You get a sweeter-running engine... a better-lubricated, longer-lasting one, too.

Removing the "goo" is the latest idea in motor oils—it's the Permalube idea. Yes, Standard's great new oil does more than thoroughly lubricate—it cleans your engine and keeps it clean. That's premium-plus lubrication!

You see, Permalube contains a patented ingredient which not only cleans up deposits already present, but also prevents new ones from forming. It keeps engine dirt in harmless suspension... unable to interfere with free valve action and smooth, powerful piston strokes. The "goo" drains out when you change oil.

So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35c a quart.

When you wash your hands, the basin water gets dirty. But your hands get clean! Same way when you use Permalube Motor Oil. The oil gets dirty. But the engine gets clean. The dirt is carried out of the engine when you drain out the oil.

"I never saw oil drain so dirty!"  
"Good! That shows Permalube's been taking out the 'goo'!"
