P.-T. A. Panel Covers Home, Family Life

Four Chief Agencies Are Represented

The respective influences of the home, church, school and community were discussed last night in a panel on "The Home and Family Life of Today's Children." The event was sponsored by the Indianapolis Council of Parent-Teachers Associations and was held in the War Memorial.

Dr. Grover L. Hartman, director of the social service department of the Indianapolis Church federation, emphasized in his opening remarks the importance of teamwork among the four agencies in building the character of a child.

"A child is a product of all the forces influencing his life," Dr. Hartman stated, and he quoted Plato who once said, "I saw a child making mischief in the street. I went to his parents straightway."

Agencies Represented
The four agencies of influence were represented by the persons participating in the discussion. Mrs. Ben Paller, representing the home, discussed the attitudes that should be developed under the guidance of the parents.

The Rev. R. H. Peoples, pastor of the Second Christian church, represented the church influence. He brought out that the church has particular responsibility for the child's formal religious education. However, he said, the church also must inspire the home to encourage and develop the characteristics it represents.

Open Discussion
Lloyd Blue, principal of school 85, emphasized that it is the responsibility of the school to develop skills, knowledge, arts and citizenship.

Mrs. Norma Kester, supervisor of special activities for the city park and recreation department, presented the attitude of the community. "The community is responsible ultimately," she said, "for providing every child the kind of environment and opportunities which the best parents in the community seek for their own children."

After a summation by Dr. Hartman of the viewpoints presented, the meeting was opened for discussion by the audience.

Teen Talk—

'Radio Is Open to Women,' Says Catherine Daniels

By ROBBIE SCHAEFFER

SHE'S DONE a radio program with the lights out. She's been script writer, announcer and engineer for one program. And she's written the history of Indianapolis and the Indiana state fair.

That's Miss Catherine Daniels, whose program for women comes on at 1 p. m. Monday through Friday over station WISH. Her last name is Snodgrass, really, but Daniels, her mother's maiden name and her middle name, is much easier to remember and is a better radio "tag."

The radio field is not all glamour and excitement, Miss Daniels claims. There's work and preparation that a teen-ager must consider before choosing radio for her career.

"Anybody can write one good show," she says, "but the important thing is to write one good show—every day."

MISS DANIELS' life forms a pattern typical of a successful career woman in radio—her training and experience give an insight into what it takes to reach a niche in radio.

A graduate of Columbia university in home economics, Miss Daniels started out by writing advertising copy for a woman's show. She was thrilled with her

hours, "9 to 12," but soon found out she spent mornings with the program, afternoons with the advertisers and evenings writing the next day's copy—it was 9 to 12, midnight.

At station KMOX in St. Louis (Miss Daniels' home) she became Jane Porter, head of the "magic kitchen" and a half-hour food program, broadcast six days a week.

In a trailer fitted with the "magic kitchen," Miss Daniels toured Missouri and Illinois, gave lectures and made transcriptions of interviews with shoppers. She's written food columns and baked one cake that brought \$75,000—it was auctioned off in a war bond show.

Here at WISH, where she's been a year, she conducts interviews on the air, discusses news, fashions, food and gives some of her tested recipes. Before the state fair she wrote a series of half-hour skits on the history of the city and fair—"It always takes an outsider to do that," she laughs.

CATHERINE DANIELS is a perfect example of her own remark, "Everything you learn you will use someday." Her versatility has served her well in her years of radio work. She advises teen-agers to know one subject extremely well—just as she knows food from every angle.

One must like to talk and like people. One must understand people and she advises each person to learn typing and shorthand.

Fortunately for the girls who look toward a radio career, there is an open field for women. Although there are plenty of singers and dramatists, there are few persons who can produce their own program, Miss Daniels points out. That's something to work on.
