# Russians Propose Geneva As United Nations Capital

## U. S. OPPOSED AS PERMANENT MEETING SITE

Small Nations Line Up to Force Action Against Franco Spain.

By ROBERT J. MANNING  
United Press Staff Correspondent  
LAKE SUCCESS, N. Y., Nov. 5.—White Russia proposed today that the United Nations abandon the United States and establish permanent headquarters in Europe—preferably at Geneva.

The Soviet republic threw the proposal into the United Nations general assembly's steering committee.

This came as the steering committee prepared to consider America's request that the search for permanent headquarters be extended to Greater New York and San Francisco.

The Byelorussian (White Russian) proposal was the opening gun in an anticipated Russian campaign to move the United Nations out of the United States, which was picked as the world organization's home country after a long fight early this year in London.

About Face  
At the previous discussion, Russia opposed the choice of Geneva, because the Soviet Union then had no diplomatic relations with Switzerland.

The Byelorussian proposal was made in the form of a resolution received this morning by Secretary General Trygve Lie. It was certain to provoke a fight in the assembly steering committee.

The resolution—along with the American proposal to extend the present headquarters search from Westchester county, N. Y., to other parts of the New York area and San Francisco—must be placed on the assembly's agenda by the committee before it can be taken up by the 51 United Nations.

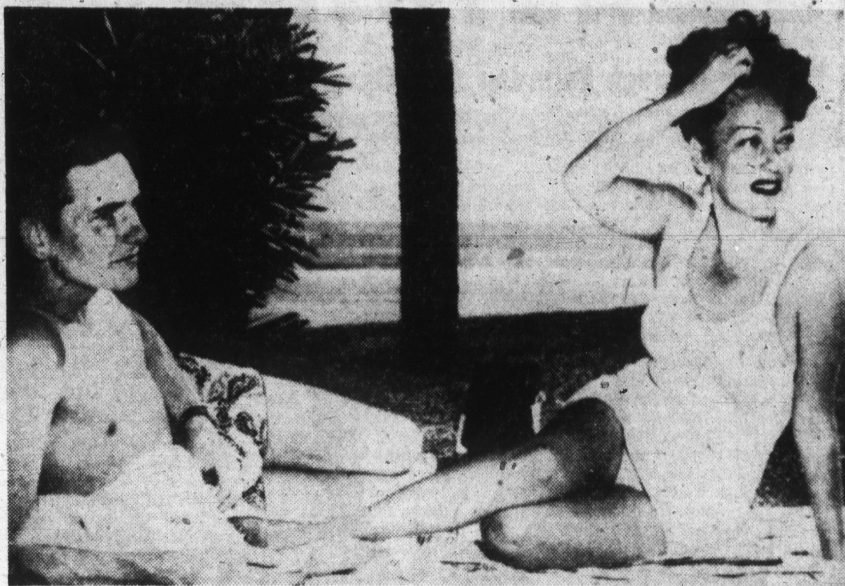

Meanwhile, the United States and Britain sat on a warm and familiar spot in the general assembly.

Small nations lined up impressive support for Poland's proposal that all 51 United Nations break off diplomatic relations with Franco Spain.

U. S., Britain Seek Compromise  
American and British delegations groped for a compromise solution, apparently hoping to score again with their old argument that such drastic action against Generalissimo Franco would rally the Spanish people behind him or push Spain into civil war.

This attitude on the part of the western powers has reduced past efforts for action against Franco to

moral condemnation. However, the assembly did succeed early this year in banning Spain from the United Nations as long as Generalissimo Franco remains in power.

The growing pressure for decisive action against the Caudillo found Russia in the comfortable role of initiative-taker—through her friend, Poland—and sole supporter among the Big Three of an all-out diplomatic assault.

Unanimity to be Short Lived  
The Anglo-Americans, as well as most other delegates on the 14-member assembly steering committee, were expected to join with Russia when the committee meets today to place the Franco case on the formal agenda. But that unanimity was not expected to last when the showdown comes later in the assembly political and security committee, one of the six 51-member working committees where delegates now are trying to solve the problems confronting the United Nations.

There was obviously strong support among small nations for action against Franco Spain. One anti-Franco source claimed 36 votes in favor of Poland's proposal, more than the required two-thirds. There is no Big Five veto in the assembly.

The Spanish issue moved nearer a climax yesterday when the United Nations security council, in a rare show of unanimity, dropped the case from its agenda. It had lain 197 days in the council without a settlement satisfactory to both the western powers or Soviet Russia.

The council's action makes it possible for the assembly to make recommendations on the case.

## Money for Boy's New Bicycle Recovered in Burned Trailer

Twelve-year-old Richard Gordon will get a new bicycle for Christmas from his mother, though her trailer home was destroyed by fire last night.

Richard's mother, Mrs. Ruth Gordon, heard a cracking noise while visiting in the home of her landlady, Mrs. Achaat T. Lindquist, 2247 N. Talbott ave.

She glanced out of a window to her house trailer in the rear of the residence. It was in flames.

By the time firemen arrived and put out the blaze Mrs. Gordon's house trailer was a total loss.

Firemen said the fire was caused by an overheated oil drum, used to heat the trailer. Estimated damage was \$1000.

Mrs. Gordon told the firemen she had savings for her son's Christmas present in a number of tin cans in the trailer.

A search through the ruins recovered \$50 in silver and a check, which was not even scorched.

## EAST SIDE WOMAN SLUGGED BY THUG

Police today sought a short, stocky thug, wearing a red bow tie, who slugged a 25-year-old housewife as she answered her front doorbell last night.

Mrs. Wilma Wilkins, 405 N. Jefferson ave., told police her husband, Richard Wilkins, left home about 9:30 p. m. to get some sandwiches from a nearby lunchroom.

While he was gone, she said the bell rang. She opened the door and a stranger forced his way into the house. He struck her in the face. She screamed. He hit her again and knocked her unconscious, she said.

Finding his wife lying unconscious when he returned a short time later, Mr. Wilkins called the police. Mrs. Wilkins was revived by the emergency squad.

## U. S. BORN WOMAN FACES POLISH TRIAL

WARSAW, Poland, Nov. 5 (U. P.).—Mrs. Irena Dmochowska, 34, American-born translator and secretary of the U. S. embassy in Warsaw, went on trial yesterday in a military court guarded by armored cars, machine guns and at least 50 soldiers.

She was charged with having been in "active contact" with the murderers of Polish Peasant Party Leaders Boleslaw Soborek, who was killed in Lodz last Dec. 15, and with trying to help the slayers escape from Poland.

The Polish military criminal code prescribes from one year's imprisonment to a death sentence for such crime.

## PHILIPPINES PLANS ECONOMIC RECOVERY

Times Foreign Service  
MANILA, P. I., Nov. 5.—The Philippine republic is presently engaged in setting up a new financial

institution to be known as the Rehabilitation Financing Corp., capitalized at \$250 million.

Patterned after the United States Reconstruction Finance Corp., the new organization will be used for

the purpose of backing up the republic's long-range economic, industrial and agricultural program.

The government recently acquired an enormous quantity of surplus U. S. army property, water craft

and fixed installations. It is certain this can easily be disposed of for at least \$250 million and therefore feels justified in proceeding with its plans.
