LIFTING OF BUILDING CONTROLS IS ASKED
 The "immediate lifting of OPA price controls on building materials" was asked today by A. H. M. Graves, president of the Marion County Residential Builders, Inc. Mr. Graves said this step is "essential to the success of veterans' emergency housing programs." He charged the government has failed to secure production of the materials needed to build homes. "Houses are being built," he said, "but in spite of the government, not because of it. The main reason for building delays is an utterly inadequate supply of many materials needed for home construction."

Telephone Club Names Officers
 P. F. Brown, plant engineer of the Indiana Bell Telephone Co., has been elected president of the Bell Telephone club of Indianapolis. He succeeds H. A. York, Indianapolis division traffic superintendent.
 R. G. Sherman, advertising assistant, was elected secretary-treasurer. Newly elected members of the board of governors are G. B. Jarvis, equipment and building engineer and P. P. Baker, auditor of receipts. Other members are Mr. York; A. B. Nail and R. L. Gavin.

OFFERS 'SOLUTION' TO HOUSE SHORTAGE
 WASHINGTON, Nov. 7 (U. P.).—Herbert U. Nelson, executive vice president of the National Association of Real Estate Boards, today offers an eight-point program to combat the housing shortage. Mr. Nelson called for immediate removal of all controls on materials, construction, sales, prices and rents on new buildings, while continuing to give veterans priority in the purchase or occupancy of new housing. His program also called for gradual rent decontrol, elimination of subsidy payments to industry, and a ban on further public housing programs.
