By Science Service  
CLEVELAND, Nov. 11.—For their part in helping to win victory over disease and death, seven scientists will receive the Lasker awards of the American Public Health association at its meeting here tomorrow.

Dr. John Friend Mahoney, U. S. public health service senior surgeon, receives the award for his first use of penicillin to treat syphilis.

**RH Discoverers Included**  
For discovery of the RH blood factor for the third award will be presented jointly to Dr. Philip Levine, of Plainfield, N. J.; Dr. Alexander S. Wiener of Brooklyn, and to Ernest Landsteiner for his father, the late Dr. Karl Landsteiner.

Dr. Alfred Newton Richards, University of Pennsylvania professor of pharmacology, receives the fourth \$1000 award for the many vital wartime medical achievements made under the OSRD committee on medical research of which he was chairman.

For his successful fight against malaria and yellow fever, Dr. Fred L. Soper of the Rockefeller foundation's international health division will receive the fifth \$1000 award.

## GEORGIA WON'T BID FOR COLONIAL PAPERS

ATLANTA, Ga., Nov. 11 (U. P.).—The state of Georgia has withdrawn from bidding for the British collection of colonial papers and documents of its early history.

Secretary of State Ben W. Fortson Jr. had sought an emergency state appropriation of \$8,000 to enable the purchase when the collection goes on sale at public auction in London today.

Mr. Fortson said he was advised that funds for the purchase could not be legally expended.

## How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2. Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.
