Peasant Motif Characterizes New Blouses

By BARBARA BUNDSCHU

NEW YORK, Nov. 22.—Under the tiny girls' skirt suspenders, over the dirndls and tailored plaid skirts, probably under the jackets of a young-sized woman's suit, there'll be lots of starched cotton femininity this season with a Scandinavian flavor.

Sally Mason, who sticks to sturdy washable cottons and rayons for hard-on-clothes young ladies sizes 3 to 15, has picked her newest bunch of ideas in the museums. The blouses are a charming series of variations on Scandinavian peasant themes.

Shoulder lines are dropped. Sleeves are wide and pushed up, frequently cuffed below the elbow. Necklines are prettied with ruffles, berthas, draw string, wing and stand-up collars. Cotton lace, braid and fagotting are the favorite trim.

Modeled from a man's Sunday-go-to-meeting shirt is a white cotton with a stand-up collar, push-up sleeves and a lace-banded cross on the gathered bodice.

Another series uses its cotton lace standing up from shoulder to cuff on the outside of a sleeve.

There's neckline variation in a keyhole which emerges from under a braided edged wing collar.

There's plenty of blouse for those who prefer the classic to gaiety. The house still shows its popular quilted front white cottons and the convertible neck shirts which are the backbone of a blouse wardrobe.

Sally Mason says there's a Scandinavian legend that anyone could get in to see the king if he turned up in a clean starched shirt. She guarantees hers will withstand the necessary laundry.

B. P. W. Hears Life Insurance Executive

Mrs. Marion Eberly Is Speaker

"In the first nine months of the year, more than a billion dollars worth of mortgages were financed by the life insurance companies, a large part of which were on homes," Mrs. Marion Stevens Eberly told members of the Business and Professional Women's club last night.

Director of the Women's division of the Institute of Life Insurance in New York, Mrs. Eberly addressed the local group in the Women's Department club. "More than \$150,000,000 worth of rental housing, representing homes for an estimated 75,000 persons, is either under construction by the life insurance companies of the country, or is scheduled to be started within the next year," Mrs. Eberly said.

Jobs for Women
She pointed out that mortgage financing will continue to be the major means used by the life insurance companies to help meet the housing shortage.

Mrs. Eberly is a member of the New York Council of Women, a group appointed by the governor to study job opportunities for women.

"Women in increasing numbers are finding job opportunities in life insurance," Mrs. Eberly stated. "At the beginning of this year there were more than three times as many women agents as there were in 1940."

Companionship Develops In Traveling

Bus Trips Unite Typical Group

By MRS. WALTER FERGUSON

Script-Howard Staff Writer
IT STRIKES me that the most senseless quarrel going on is that involving railroads, air lines, and bus companies. Don't people know we couldn't get along without all of them now?

When you board a plane and hop across the continent in little more than a jiffy, you get an emotional thrill as well as a quick trip.

On the train, leisurely loafing is compensation for slower travel. A day-long train journey is a relaxing experience, giving a short vacation in transit.

And what brings you closer to the heart of America than a bus trip? Not too long, but long enough to let you sit in on the exchange of chatter that is the most fascinating phase of community life on wheels. Since this method of getting around is used by most people because it is cheaper, it offers a typical national view.

PULLMAN and plane passengers are sometimes the sort who can afford lavishly to tip their way across the country (and let it be said for the airplane companies that they have not burdened passengers with that nuisance yet). But bus riders get the best of courteous service without putting out an extra penny. There is a delightful free and easy communion that develops among companions of a long bus journey.

Of course the best way of travel still is one's own automobile. But war gave many a child an opportunity for a train or plane ride that he might not have had if gasoline had been unrationed and cars plentiful.

Marian College Dance Is Tonight

Guild Will Meet

Mrs. William Murphy will be officer of the day at the monthly meeting of the St. Francis Hospital guild on Dec. 3. Mrs. Walter Lutz will be hostess at the luncheon.
