

Two Hoosiers Walk Off With World Corn Titles

(Continued From Page One)

His son Lair, 11, won third prize in the 4-H club corn contest at the Chicago exposition.

Crown Prince Tommy is the oldest of three children in the Fischer family. He was Indiana state corn prince the last two years, his mother said.

"I'm going to get Tommy right at school and head for Chicago to get that prize," said Mrs. Fischer.

The parade of blue bloods was resumed at the International Livestock Exposition today as preliminary judging got under way in lamb, Hereford and Aberdeen-Angus divisions.

Also under way this morning was judging in Shorthorn, polled-shorthorn and Aberdeen-Angus breeding classes.

Two young Hoosiers were weekend standouts in the 28th anniversary National 4-H Club Congress which is running concurrently with the international exposition.

Wins Scholarship

Carl M. Orth, 18-year-old Terre Haute contestant, was one of four who won \$300 Fowler McCormick college scholarships for better crop-raising methods. The scholarship was awarded by the International Harvester Co.

Another \$200 scholarship was won by Charles O. Sauerman, 19, of Crown Point, in the handling of dairy herds. Young Sauerman's herd, Young Sauerman's, is based on nine cows and 10 head of calves.

During which he won 85 acres of soybeans, 85 acres of corn, 85 acres of truck crops and \$23,370. Sauerman's dairy herd of 10 cows and 10 head of calves has amounted to more than \$200,000.

His Ayres dairy herd of 10 cows and 10 head of calves has amounted to more than \$200,000.

His Ayres dairy herd of 10 cows and 10 head of calves has amounted to more than \$200,000.

Hoosier winners were: Region 1—1. Newton L. Waltermann, Rushville; 2. A. C. Stewart, Greensburg; 3. Frank W. Lux, Shelbyville; 4. H. L. Cobert, Washington; 5. O'Brien Gray, Hartsville; 6. Charles N. Fischer, Shelbyville; 7. R. L. Heilmann, Hope; 8. Kenneth Carls, Shelbyville; 9. Stanton Shirk, Greensburg; 10. A. Russell Cortelyou, Edinburg; 11. Kenneth F. Blackwell, Franklin.

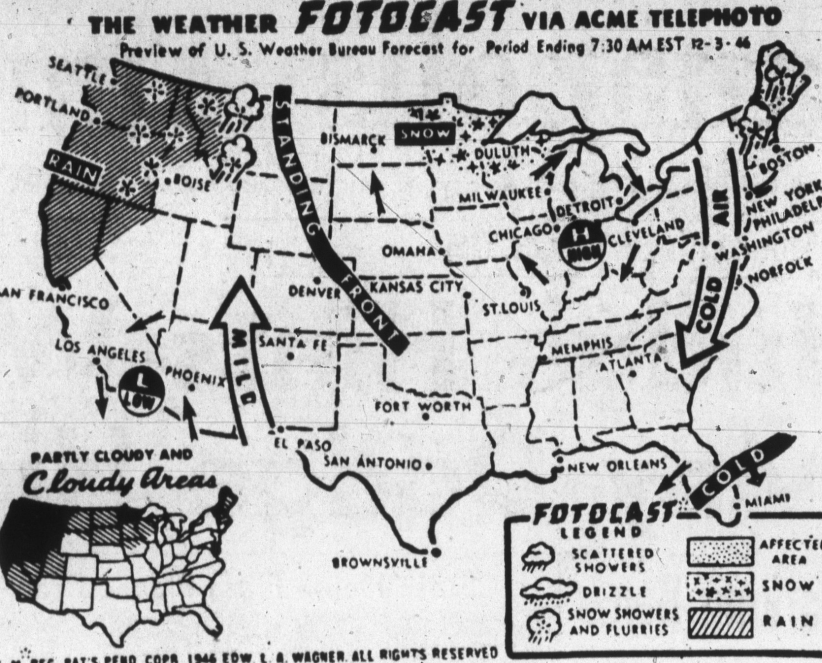

Region 2—1. Ella D. Shafer, Royal Center; 2. Dean Todd, Flora; 3. Jason De Ford, One City; 4. Chester Joyce, Logansport; 5. Walter J. Harvel, Crawfordville; 6. Charles Spangler, Kokomo; 7. Roy Kew Jr., Valparaiso; 8. Fred M. Fraser, Rochester; 9. Carnes C. Cronan, Union City; 10. L. E. Wyckoff, Valparaiso; 11. Frank Salzman, Fowler.

The Purdue university livestock judging team won fifth place in the nationwide judging contest while F. D. Johnson of Stockwell, a member of the Purdue team, tied with one other contestant for seventh place honors individually.

International Champion

George J. Sauerman of Crown Point, four-time International Hay champion, repeated at this year's exposition, winning both the championship and reserve championship. Henry Spinn of Monticello won third spot in the soft red winter wheat class.

Others in the Indiana delegation to the international shows include: Ames Snyder, Butler, 4-H achievement; Indiana Board of Agriculture; John Johnson, Gaston, poultry, Swift and Co.; Ralph Smith, Plainfield, 4-H achievement; Indiana Board of Agriculture; Ralph Hise, Bloomington, 4-H achievement; Indiana Board of Agriculture; Harold Wimmer, Rockville, 4-H achievement; Indiana Board of Agriculture; Robert Petty, Lexington, 4-H achievement; Indiana Board of Agriculture; Alan Gustaf, Lafayette, 4-H achievement; Indiana Board of Agriculture; Floyd Rugg, Evansville, 4-H achievement; Indiana Board of Agriculture; Roy Short, Centerville, tractor maintenance, Standard Oil Co.; Marie Blessing, P. Wayne, leadership, H. P. Watson & Co.; Lorene Lagan, Columbus, leadership, H. P. Watson & Co.; Ruth Ann Clinton, Odon, girls' record, Montgomery-Ward & Co.; Carol Jean Smith, Albany, leadership, L. S. Ayres & Co.; Juanita Stahl, Brownstown, leadership, L. S. Ayres & Co.; Patricia Moran, Westville, canning, Kerr Glass Manufacturers; Urdine Christensen, Indianapolis, food preparation, Sevel, Inc.; Betty Lou Haymaker, Indianapolis, better methods, Westinghouse Co.; Patricia Adams, Martinsville, 4-H achievement; Indiana Board of Agriculture; Jean Godfrey, Sullivan, clothing, Spool Cotton; Shirley Anne Gregg, Sullivan, dress revue, American Viscose Co.; Rose Ann Schurr, Evansville, 4-H achievement; Indiana Board of Agriculture; Patricia Pachen, Monticello, 4-H achievement; Indiana Board of Agriculture.

NATIONAL 24-HOUR FORECAST-SUMMARY

Well below freezing temperatures will prevail over the Northeast and thermometer readings of between 26 and 32 degrees will be experienced as far south as southern Georgia and South Carolina tonight.

Wintry blasts of cold air will push temperatures far below normal in most states east of the Mississippi as the high pressure system centered over the northern Ohio Valley overspreads the country from the Rockies to the Atlantic.

Skies will be overcast in northern New England where scattered snow flurries are predicted. There will also be snow showers in the Berkshires.

The central states will have moderating temperatures, while little variation in temperature is indicated for western areas.

A low pressure storm approaching the Pacific Northwest coast will produce cloudiness and rainfall from northern California to the Canadian border. Snow and rain are anticipated in eastern sectors of Washington and Oregon, also over the northern Rockies.

Snow or snow showers are forecast in the upper Mississippi Valley area. Northerly winds along the east coast may persist tonight and small craft warnings remain up from Cape Hatteras to Eastport, Me.

It will be most cloudy over northern New England, the upper Mississippi and Missouri valleys and in the West. Elsewhere, it will be clear or only partly cloudy tonight. (See insert chart for cloud data.)

Minimum temperatures tomorrow morning will read around 15 degrees at Cleveland, 18 degrees at New York City, Philadelphia and Detroit; about 20 degrees at Washington, 26 degrees at Norfolk, 24 degrees at Memphis; St. Louis is scheduled for a 30 degree reading; Chicago and Milwaukee can expect 25 degrees minima, while San Francisco gets a mild 50 degrees.

Byrd Expedition Off for Antarctic

Flights Scheduled Over South Pole

(Continued From Page One)

other ships left Norfolk at 12 noon, Indianapolis time. Four other ships leave the West coast later today.

Adm. Cruzen is in technical command of the 4000-man peacetime navy task force assigned to explore the earth's last unknown continent—the 6 million square miles of frozen wasteland surrounding the South Pole. The area may hold mineral resources vital in an atomic age.

Byrd Delays Departure

Rear Adm. Richard Evelyn Byrd, veteran polar explorer and commander of the expedition, flew here from Washington today for a final inspection of this part of the task force. He had lunch with Adm. Cruzen before the ship's sailed.

Adm. Byrd will delay his departure for the Antarctic until Jan. 2, when the big 27,000-ton Essex class carrier, Philippine Sea leaves Norfolk for a point about 300 miles off the Ross ice shelf near Little America, the base that served Adm. Byrd on his previous expeditions to the pole.

Adm. Cruzen said the flights over the pole would be made by twin-engine DC-3's and Mariner flying boats.

He said the expedition must get a lot of its work done by Feb. 20, when the sun sets for the first time in the Antarctic. The days grow shorter quickly after that, he said.

Normally Land Based

The big carrier Philippine Sea will make aviation history when it shoots the DC-3's from its deck with the aid of jato-jet power bottles attached to their wings. The DC-3's normally are land-based transport planes and never before have been flown from a carrier deck.

The six Douglas planes will join units of seaplanes, helicopters, and scout

planes in the expedition's biggest job, physically charting coast lines and shaving down the four-million square miles of unexplored area, a region as large as the United States and Mexico combined, on Antarctica.

Adm. Byrd has denied that the expedition is part of a uranium race for the material now necessary for atomic energy.

He said at a press conference, however, that the Antarctic continent is an "untouched reservoir of natural resources" and that "uranium happens to be one of many" minerals which will be investigated.

Russia Plans Expedition

Officials, according to Adm. Byrd, will co-operate, if they encounter them, with British explorers who have occupied Byrd's old base at

Marguerite bay, due south of Horn.

However, the U. S. expedition headed for Little America, 1,000 miles west of Marguerite bay. Russia, also, has an expedition ready for Antarctica.

Reports that the United States, Britain, Russia, Argentina, and Norway had launched a joint strategic control of the Antarctic have been denied by the U. S. Navy.

CATTLE ARE SPRAYED

WASHINGTON.—Oklahoma started a state-wide program today to spray 3,000,000 cattle with DDT to eliminate horn flies; nearly 90,000 head of cattle are being treated, each complete with head and pump; fees collected pay operating cost.

You're Invited To Attend!

What? . . . a SHEILA LYNN fashion show

Where? . . . Budget Shop, Third Floor,

When? . . . Tuesday, December 3

12:15 p.m. (for the career girl)

2:30 p.m. (for everyone!)

Miss Matty Talmack, Sheila Lynn representative, will be in the Budget Shop for consultation December 3-4.

(Sheila Lynn fashions are exclusive with Ayres')
