

Marshall And Pravda Agree Big 4 Made Some Progress

Communist Paper Places Blame on U. S.

Bevin, Bidault Make Brief Comments

By HARRISON SALISBURY
United Press Staff Correspondent
The United States and Russia agree that the Moscow conference made more progress than appears on the surface toward a solution of the world's problems, it appeared today.

But the two powers stand at opposite poles regarding who is to blame for the conference's failures.

This became evident in parallel and contrasting views of the Big Four meeting presented on behalf of the United States by Secretary of State George C. Marshall and on behalf of the Soviet by an editorialist for Pravda, organ of the Communist party.

Both Secretary Marshall and Pravda insisted that progress was made at Moscow despite disagreements and difficulties. But Mr. Marshall blamed Russia for inability to go farther toward a European settlement. And Pravda blamed the United States.

The most optimistic note struck by both Mr. Marshall and Pravda was a revelation that Russia does not believe the differences between herself and the west cannot be settled by negotiation and compromise.

Pravda noted that many disputed points were agreed upon at Moscow and suggested that if the United States would modify its firm position other questions would yield to solution.

Secretary Marshall suggested that if Russia would yield, agreement would become easier.

The chief difference—aside from the question of blame—in the startlingly parallel analyses of the American secretary of state and the Communist party organ was that Mr. Marshall insisted that there must be speed in solving the European dilemma, that "the patient is sinking while the doctors deliberate."

The Russian analysis ignored the factor of speed completely.

Bevin Avoide Details

A third analysis, this one from the British point of view, was made today by Foreign Secretary Ernest Bevin. Mr. Bevin did not go into any detail on the Moscow negotiations but appealed for patience in the peace negotiations.

Like the Russian and American analysts, Bevin emphasized the complexity of the problems involved and the necessity for thorough and careful negotiation.

French Foreign Minister Georges Bidault was even briefer. Arriving in Paris from Moscow today, he commented only:

"We did our best."

Orders Rehiring Of Fired Workers

The national labor relations board today ordered immediate reinstatement of three employees discharged by Lewis Meier & Co., 1002 Central ave., for campaigning for a change in the employees' bargaining agent.

The three employees had been fired for alleged C. I. O. organization activity in company plants operating under A. F. of L. "closed shop" agreements. The board said the employees were discharged by the company at the request of the United Garment Workers of America (A. F. of L.).

The board said it had no choice but to rule for reinstatement of the three employees since to hold otherwise would mean that an employer and a labor union, acting in concert, could maintain one labor organization in perpetuity as the bargaining representative of its employees.

Senate Passes Bill To Hire Burton Wheeler

WASHINGTON, April 29 (U. P.)—The senate yesterday passed a substitute for the bill President Truman vetoed last week—authority for former senator Burton K. Wheeler (D. Mont.) to serve as counsel for the senate war investigating committee inquiry into Arabian oil deals.

The new measure, which was referred to the house for concurrence, contains a proviso specifying that nothing in it can be interpreted as giving Mr. Wheeler or any other committee attorney the right to bring civil or criminal suits in behalf of the government.

Mr. Truman had vetoed the first bill on grounds that it might be interpreted that way.

Chairman Owen Brewster (R. Me.) described the substitute as a "face-saving gesture all around."

Hickman Charges Control Tactics Says Machine Seeks To Run City

Campaign tactics of the regular Republican organization are designed to seize control of city government without the public realizing it, Roy E. Hickman, candidate for the G. O. P. mayoralty nomination charged in a speech in Washington township last night.

He declared that William H. Wemmer, also a candidate for the G. O. P. mayoralty nomination, has failed to "explain how he can wear the mantle of the party machine now and thrust aside when he is boosted into city hall."

"Colonel Wemmer makes no bones about the support he is receiving from the Bradford-Ostrom machine (James L. Bradford and County G. O. P. Chairman Henry E. Ostrom)," Mr. Hickman said.

Acknowledges Support

"He acknowledges the support yet some of his public utterances have been couched in language calculated to convey the paradoxical suggestion that the city hall will not be controlled by the Bradford-Ostrom machine if he is nominated and elected. This does not make sense," he said.

"Furthermore, the Ostrom-Bradford machine proposes to insure complete subservience from their mayoralty candidate by placing five of their machine stalwarts in the city council seats."

"Only recently these five resigned as ward chairmen in response to reiterated public criticism and this bold and obvious move," Mr. Hickman said. "This does not mean they have forsaken the machine. The machine wants them elected if for no other reason than to exert influence over Colonel Wemmer in the event he should rebel."

Mr. Hickman said both Mr. Wemmer and himself were equally sincere in their promises of good government.

"However, if elected I will owe nothing to the Bradford-Ostrom machine and Colonel Wemmer, if elected will be deeply indebted to the machine."

He has been concerned with the rising divorce rate and the increase in juvenile delinquency. For this reason, he has given special attention to the matter of instructing young couples about to be married.

He has reduced the debt of his church \$21,000, and been instrumental in the complete revamping of the women's work and in doubling the membership. He is a Mississippi native, a graduate of the University of Tennessee and the University of the South. Sigma Chi is his fraternity.

Overcrowded Court Helps Prisoner Escape

A crowded municipal courtroom yesterday resulted in the escape of a "pint-sized" man held for questioning in connection with a series of burglaries.

The man, Frederick Rybolt, 18, of 1708 S. Harding st., who is 5 feet 3 inches tall, was waiting his turn to face Judge Alex Clark on vagrancy charges.

Police said he apparently slipped out of the prisoner's box and混入了 the crowd.

Overcrowded court conditions were caused by the transferring of Judge Joseph Howard's cases to municipal court 3. Judge Howard's court is being redecorated.

Ernie Pyle's Home Country

There is many a scrap book full of Ernie's columns clipped from the newspapers; and there are plenty of people who wish they had kept scrap books of his things.

Well, a book has been made up for those who would like to re-read Ernie's columns, and it is going to be published on the 26th of May.

Quite properly, it starts with Indiana, but even in the letters from remote parts of the country, Indiana, and Dana, and Ernie's Aunt Mary, and all the things we have associated with Ernie keep turning up again and again.

Here in Ayres' Book Department, we intend to keep talking continuously about this new book—Home Country, it is called—all summer and all fall and all next winter. It is that kind of book. You are very likely to get letters from us about it, and we are almost certain to offer it to you next Christmas when you come in looking for books to give your relatives and friends. We expect you to like it, because we remember that you bought 7500 copies of Brave Men from Ayres and 7500 more of Ernie's other books—which is more copies than most books sell through all the bookstores put together in all the United States. Only Ernie Pyle has ever made such a record in Indiana.

Of the whole first printing of Home Country, one copy out of every 35 is coming to our book department. We will have plenty of books, but it seems rather likely to us that a great many of you will want the book the minute it becomes available and would like to place advance orders for delivery on publication date—3000 of you did with Brave Men.

We are, therefore, printing a coupon at the bottom of this advertisement for your use; and on the day before publication, your copies will be sent to our Delivery Department to be placed in your hands on the day the book officially appears. The price will be \$3.75.

Dailey Scores Boetcher Tactics

The factional fight in the Democratic party primary contest for the mayoralty nomination broke out into the open today for the first time in the campaign.

George S. Dailey, anti-organization candidate for the mayoralty, charged in a series of speeches that Walter C. Boetcher, county Democratic chairman, was attempting to force the party organization "into line behind a candidate of his choice."

Although he didn't mention his opponent by name, Mr. Dailey apparently was referring to Al Feeney, who recently was endorsed by more than 75 per cent of the party's regular ward chairmen.

Mr. Dailey also charged that Chairman Boetcher had refused him the use of the Democratic list of registered voters for his campaign purposes.

"I first was given permission to use the lists and then, the following day I was informed that he (Mr. Boetcher) issued an order prohibiting precinct committeemen from permitting anyone to see their poll books," he charged.

"In this campaign we have a clear-cut case of misuse of the party chairman's power," he said. "Every effort is being made by the Democratic chairman to force the organization into line behind a candidate of his choice."

Mr. Feeney, leading opponent of Mr. Dailey for the nomination, has not issued any campaign statements.

Chairman Boetcher could not be reached for comment in connection with Mr. Dailey's charges.
