## Greeks Isolate 2613 Held as Reds

ATHENS, July 10 (U. P.)—Security police announced today that 2613 persons arrested in a roundup of alleged Communist plotters had been transferred to the island of Psytalia in Piraeus bay.

Greek press reports said the roundup was continuing with 300 arrested at Salonika, 300 at Volos, 41 at Patras, and an undisclosed number at Agrinio.

Government circles claimed that the Communists would announce the establishment of a "free democratic government" within a few days.

Spokesmen said the headquarters of the Communist "government" probably would be in the guerrilla-held corner of northwest Greece.

Premier Demetrios Maximos said he had no knowledge of press reports from Salonika that an "international brigade" had entered Greece or that the Communists already had formed a new government.

**BABY BINOCULARS**—About the smallest practical binoculars ever made are the tiny, 4½-ounce ones shown above. With prismatic lenses, they measure up to normal sized ones in quality and are high-powered, despite their midget size. The tiny binoculars should come in handy for sportsmen and theater-goers.

### Russ Pay Interest On Lend-Lease Bill

WASHINGTON, July 10 (U. P.)—The Soviet Union has paid \$4,170,000 to the United States for interest due under the terms of the Soviet lend-lease agreement of 1945, the state department announced today.

## Treasury Income Tops Cash Outlay

WASHINGTON, July 10 (U. P.)—The federal government took in about \$8 billion more from the American public in the last 12 months than it paid out.

This was shown today by an analysis of the government's cash transaction—as distinguished from budget accounting—for the fiscal year which ended June 30.

The government got about \$45 billion from the public and business in all forms of taxation and other revenues—excluding borrowing.

It paid out in cash transactions only about \$37 billion during the same period.

These figures are far different than the budget accounting which showed receipts and expenditures nearly balanced. Here is a comparison of the figures:

	Budget basis	Cash basis
Income	\$3,525,000,000	\$2,525,000,000
Outgo	\$3,525,000,000	\$2,525,000,000
Excess of inc.	754,000,000	7,915,000,000
