

## That "New Look"

## Now They've Got the Navy Doing It

**STRIPES MISSING**—New dress blues feature collarless jackets with wide cuffs and no wrist stripes. Above, jacket is thrown back from shoulder to reveal white blouse which has navy blue sailor collar. There is no white or red stripe on cuff to indicate whether wearer belongs to the deck division or the engine-room "black gang."

**NEW NAVY UNIFORMS**—The Navy may bid farewell to such time-honored uniform features as bell-bottomed, pocketless trousers and sailor-collared dress blouses if radical uniform changes, now under consideration, are adopted. Some of the models that may give our sailor lads a "new look" are pictured in these official Navy pictures.

**THE GIRL'S NOT INCLUDED**—Proposed khaki uniform for enlisted men, left, is of the same design as present summer white, with addition of dress hat with khaki cover. At right is utility uniform for both officers and men. It consists of dark blue trousers, blue wool shirt and baseball-type cap. Jean Dawson, of Washington, is looking over the Navy's "new look."

**OFFICER**—This is the proposed replacement for Navy officers' workaday service blues. The uniform is naval aviation green, with Eisenhower jacket, somewhat like the present Marine Corps working uniform, except for the different color and black necktie. Traditional shoulder-boards are replaced by shoulder-straps.

Arrest 5th Man  
In 'Hot Car' Probe

Another Indianapolis man has been arrested in connection with the smashing of a Mid-West "bogie check-hot car" ring, the FBI announced today.

Under arrest is Jack Mahiford, alias Jack Williams, 42, Riley Hotel. He was arrested here yesterday on an FBI warrant charging conspiracy with four others in interstate transport of cars purchased on bad checks.

Another Indianapolis man de-

scribed as the "main cog" in the syndicate was arrested earlier yesterday in California. He was Raymond (Pete) Ivory, 38.

Also under arrest are Marvin L. (Buzz) Gardner, 38, Tibbs Ave. and U. S. 52; Richard Shelton, 34, of 2521 Park Ave. and Karl Von Wille, 45, of 2017 N. Pennsylvania St.

## Georgia to Aid Veterans

ATLANTA, Ga. (UP)—The State Veterans Board is studying a proposal to set up a "baby RFC" to make \$5,000,000 in loans to World War II veterans on a low-interest, long-term basis. The program was authorized by the 1947 State Legislature.

Cancer Death  
Claims Up in '46

NEW YORK (UP)—Payments of death claims for victims of cancer reached a new high in 1946, the Metropolitan Life Insurance Co. reports.

The total was \$35,500,000, or about one-sixth of the \$228,000,000 paid in death claims by the company last year.

Half of the total disbursements for deaths made by the company

in 1946 were for deaths ascribed to disease of the heart, arteries, or kidneys, the company reports.

The proportion of the total accounted for by these degenerative diseases and by cancer has increased somewhat in the past 10 years, while payments on account of infectious conditions have declined, the company says.

Thus, between 1936 and 1946, claim payments for tuberculosis dropped from 5.0 per cent to 3.3 per cent of the total; for influenza and pneumonia the reduction was from 8.0 per cent to 2.9 per cent, dropping those diseases from fifth to eighth in rank as a cause of claim payment.

Chicago Printing  
Strike Spreads

Hammond Times  
Seventh Affected

CHICAGO, Nov. 27 (UP)—An AFL compositor strike spread to a seventh Chicago area newspaper today.

Members of Local 16, International Typographical Union, struck against the Hammond (Ind.) Times after Publisher James De Launier refused to give them a pay raise without signing a formal labor contract.

The issue was the same one which caused compositors at six Chicago dailies to leave their jobs early this week.

Today, the Chicago Tribune and the Chicago Sun put out large holiday editions, most pages of which were photo-engraved. The afternoon Chicago papers—the News-Times and Herald-American, did not publish because of the holiday.

88 Pages in Sun

The Sun and Tribune were more than four hours late but the Sun had 88 pages and the Tribune 80, both almost twice normal size.

Mr. De Launier said the compositors at Hammond had demanded wage increases of \$14.50 weekly for day workers and \$15 for night workers.

The main issue, however, centered around the ITU's refusal to sign a written labor contract.

The union is attempting to bypass the Taft-Hartley bill by making verbal agreements which would retain the closed shop and other provisions outlawed by the new labor act.

Mr. De Launier said it was doubtful whether the Times would be able to put out photo-engraved editions during the strike because his plant lacks the necessary facilities.

However, he ordered editorial employees and other non-striking workers to report on Friday.

The union has made the same wage demands on five smaller Chicago publications and threatened to strike against them unless they comply.

They are the Chicago Defender, the Drover's Journal, Life Printing and Publishing Co., the Racing Form and another race-report.

The Hammond-Times compositors walked out yesterday afternoon after setting the type for the newspaper's first edition.

Squeeze Play Bounces Back;  
'Bankrupt' Gets the Dough

By VIRGINIA MACPHERSON, United Press Hollywood Correspondent

HOLLYWOOD, Nov. 27 (UP)—Here's one show-business squeeze play that back-fired—in dollar signs.

Horace Heidt, bandleader, balanced up his three-year feud with Jules Stein, president of the Music Corporation of America, today and figured he came out ahead on a deal that was supposed to bankrupt him.

Mr. Heidt's back in the music world these days, but with a difference. But his battle with Mr. Stein proved he's a better businessman than he is a musician.

Back in 1944 Mr. Stein, as Mr. Heidt's agent, was collecting 10 per cent of his musical earnings.

Then he decided to cut himself in on all of Mr. Heidt's earnings. Mr. Heidt said nothing doing.

Okay, said Mr. Stein, who then pronounced him as dead in the music world as long as he had an MCA contract.

So Mr. Heidt broke up his band and started buying real estate. He bought the Las Vegas Biltmore Hotel for \$500,000 and sold it a year later "because the bartenders

run the town") for almost twice that.

He bought the Trianon Ballroom in Los Angeles for \$150,000 cash, gave it a new face, and made his dough back the first year.

Next he latched on to a wabbling restaurant in Beverly Hills for \$65,000. A neon sign: "It's Heidt time to eat" (with a clock that worked) had the customers stampeding for steaks. He sold that early this year—for a neat profit.

**Glorified Hangout**

Next he bought the Lone Palm Hotel in Palm Springs, a glorified hangout for movie stars on vacation. Recently he returned down \$450,000 for the deed. Last year the bandleader who was supposed to be going broke did a \$2,000,000 business.

Then came a public apology from Mr. Stein plus a cash settlement for all the money he could have made meanwhile leading a band.

How much?

"Plenty!" said Mr. Heidt.

But here's the kicker—the minute his contract with Mr. Stein expired he signed a new one with him.

"Only this time it's on my terms," Mr. Heidt grinned.

French Dock Strike  
Delays Liner America

SOUTHAMPTON, England, Nov. 27 (UP)—The United States liner America, due to leave for New York at 2 p. m. (8 a. m. Indianapolis time), delayed its departure for at least 12 hours today because of the dock strike in France.

The America's scheduled call at Cherbourg was canceled. About 450 passengers booked to embark there were being brought to Southampton, and were expected to arrive soon after midnight.
