Congress—

# Snyder Hints Truman Will Veto Tax Bill Proposed by GOP

Treasury Secretary Denounces Plan As a Red Ink Proposition

WASHINGTON, Jan. 16 (UP)—Treasury Secretary John W. Snyder today denounced the Republican income tax reduction plan. He said it was a red ink proposition for the government and hinted that President Truman would veto it.

The bespectacled Mr. Snyder told the House Ways and Means Committee that the GOP bill would result in a \$2,100,000,000 deficit in the next fiscal year. He said it would present a "major threat to the nation's financial integrity and economic stability."

His calculations, however, did not take into account Republican plans to cut Mr. Truman's new budget by from \$3 billion to \$5 billion. Republicans say this will leave ample room for both a balanced budget and the \$5,600,000,000 tax cut proposed in the Knutson bill.

**Uses Sharp Language**  
The usually soft-spoken Mr. Snyder used the sharpest language of his career as a public servant in criticizing the tax reduction bill sponsored by Rep. Harold Knutson (R. Minn.), chairman of the House Ways and Means Committee. He recommended that the Republicans junk their tax plan and approve the one recommended by the President in his recent messages to Congress.

**Thomas Will Testify Before Probers in Week**  
Sen. Elmer Thomas (D. Okla.), former chairman of the Senate Agriculture Committee, will be called before speculation investigators within a week to explain his dealings in the commodity market. A source close to the Senate Speculation Subcommittee said Chairman Homer Ferguson (R. Mich.) would begin open hearings on the case after a series of secret sessions.

The 71-year-old Mr. Thomas acknowledges that he has been a speculator in cotton during most of the 25 years he has been in Congress. But he contends that his market operations always have been "open and above board."

**Expect Early Action On Red Legislation**  
A House subcommittee may come up with Communist-control legislation within a few weeks. Chairman Karl M. LeCompte (R. Iowa) said his House administration group may get the jump on the Un-American Activities Committee.

He said it's too early yet to predict what form the legislation will take. But the subcommittee is considering a bill that would bar Communists from the ballot.

**Plan to Subpena Ex-Hungary Premier**  
Chairman John McDowell (R. Pa.) said his House subcommittee on Fascism plans to subpoena former Hungarian Premier Ferenc Nagy to back up his charge that a fellow Hungarian refugee aided the Nazis.

Mr. Nagy claims that Ferenc Vajtha edited a Nazi newspaper in Budapest during the war and served as a "show window" for Hitler.

Vajtha, who denies he was ever a Nazi, is at Ellis Island awaiting a deportation hearing.

**Board Re-elected**

Geupel Construction Co.; Neal Grider, vice president of the bank; Walter J. Pray, partner in Benham-Pray Co.; Fred C. Tucker, president of the F. C. Tucker Co.; Clarence R. Weaver, bank vice president and trust officer; L. Roy Zapf, attorney; and Felix M. McWhirter, president of the bank.

**Seize U. S. Communist, Deportation Planned**  
WASHINGTON, Jan. 16 (UP)—The Justice Department said today FBI and immigration agents have arrested Alexander Bittelman, member of the American Communist Party's national committee, in Miami for deportation to his native Russia.

The Justice Department said the warrant for Bittelman's deportation was issued because he advocates the overthrow of the government by force.

**Injured in Ladder Fall**  
Robert Butterfield, 33, of 2824 S. Pennsylvania St., is in Methodist Hospital today with head injuries. He fell from a ladder yesterday while doing salvage work at 1007 N. Meridian St., site of a recent \$400,000 fire.
