'Soviet Russia' Banned

NEWARK, N. J., Jan. 28 (UP)—The Board of Education approved today a ban on the magazines The Nation and Soviet Russia in public school libraries. The ban was imposed by School Superintendent John Herron on the grounds that The Nation had published a series of anti-Catholic articles and Soviet Russia today was un-American.

NOTICE TO ALL GAS USERS

Help Yourselves by Helping Us

SAVE ON FUEL!

The gas used in Indianapolis homes and factories is made from coal and oil... two critically short fuels.

The less gas you use, the more coal and oil you save... and the more you protect yourself from the hardships and distress now being experienced in many parts of the country.

Fortunately, the Citizens Gas and Coke Utility has been able to supply gas to all types of Indianapolis users throughout this difficult period without curtailment. However...

You can save hundreds of tons of coal and thousands of gallons of oil by conserving gas in the following ways:

1. If you heat your home with gas, keep the temperature only high enough to insure health. Close up unused rooms so that no heat is wasted. Turn your thermostat down if you are going to be away from home.
2. Do not use the oven of your gas range for heating your house... and use it sparingly for cooking. Turn off burners promptly when not in use. Keep your meals simple.
3. Use gas-heated water sparingly. Watch those leaky faucets.
4. If you own a gas refrigerator, open the door as infrequently as possible and let hot foods cool to room temperature before placing them inside the refrigerator.
5. If you are a commercial or industrial gas user, check up on your plant operations and keep gas consumption as low as possible at all times. You'll find many opportunities to conserve.

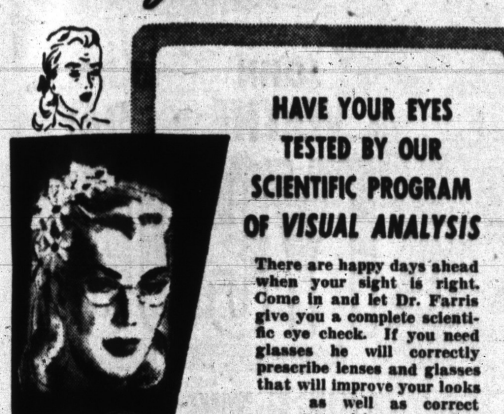

If each of the 117,000 gas users in Marion County will save just a little gas, the total saving in coal and oil will go a long way toward easing the critical fuel shortage in this area.

Help yourselves by helping us... PLEASE SAVE ALL THE GAS YOU POSSIBLY CAN!

Thos. L. Kemp,
General Manager

Citizens Gas & Coke Utility
