

Around the World—

U. S. Hurls Favorite Russ Epithets At Soviets for Bottling Up Danube

Stalin's and Tito's Cold War Due To Get Hot, Say Balkan Experts

The State Department today bitterly hurled back at Soviet Russia the charges of "imperialism" she has made so often against the United States.

It pointed for proof to the abortive 10-power conference at Belgrade at which Russia and its six Danubian satellites yesterday killed all western hopes of reopening the Danube River to non-discriminatory shipping of all nations.

In a blistering attack on Soviet "conduct," the department said Russia used the conference to dictate a set of rules which merely "legalizes its monopoly of Danube shipping." Naturally, it said, the United States, along with France and Britain, cannot accept it as valid.

Bottle Up Trade
The statement threw back at Communist Russia the epithets Russia has used against the capitalist world. It referred to Russia's economic "vested interests" . . . Soviet "extortion" . . . "lip service" to freedom . . . "Soviet imperialism."

Officials said the conference still leaves the 1750-mile river divided into two parts, with Russia bottling up trade in the lower 1000 miles. The upper stream flows through U. S.-occupied Germany and Austria.

Yugoslavia
AUTHORITATIVE London sources today described the shooting of Gen. Arso Yovanovich in Yugoslavia as a sign that the cold war between Marshal Tito and Generalissimo Josef Stalin now has become a hot war.

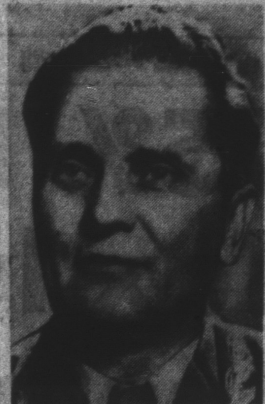

"Now that the Danube conference is over we can expect further developments," those sources said.

"This incident is the first sign of a changeover from a cold war to a hot war between Tito and the Kremlin," Balkan experts said.

Tito announced yesterday that Gen. Yovanovich was killed by a frontier guard when he attempted to flee into Romania. Communist followers in Romania have called on Yugoslavia to revolt against Tito.

Romania
AN OFFICIAL Romanian government statement accused Marshal Tito today of unleashing a "wave of terror" against Yugoslav Communists who have remained faithful to the teachings of Moscow.

Great Britain
GEORGE BERNARD SHAW said today that the world is threatened by a new war because of the "present Babel" of languages.
In a letter to The Times, he said in part:
"Until we clear up our political nomenclature, our political oratory and journalism can come to nothing but the pet calling the kettle black."

UNEASY DAYS—Balkan experts in London predict that the cold war between Marshal Tito of Yugoslavia (above), a foe of the Soviet's Cominform, and Marshal Stalin of Russia will soon break into a "hot war."

Asks De Marigny Divorce Test

MIAMI, Fla., Aug. 19 (UP)—Nancy Oakes de Marigny, seeking an annulment in New York of her marriage to Count Alfred de Marigny, today sought a court test here of her husband's divorce from his first wife in 1937.

Mrs. Marigny asked a ruling on the decree granted Mrs. de Marigny's first wife, the former Lucy Alice Cahen.

Her suit alleged that neither Mrs. Marigny nor his first wife were U. S. citizens when they obtained the divorce here in 1937.

Mr. de Marigny was acquitted in 1943 of murder charges in the death of his wife's father, Sir Harry Oakes. The murder of Sir Harry, whose estate was estimated at \$100 million, has never been solved.

Retail Milk Prices Reach Record Levels
WASHINGTON, Aug. 19 (UP)—The Agriculture Department reported yesterday that average retail milk prices reached record levels this month.

It said home-delivered milk sold for 21.3 cents a quart on the average in 24 of the nation's largest cities during the first half of August.

This was one-half cent a quart above the early July average and about 2.6 cents higher than the selling price in mid-August, 1947.

without either of them knowing what they are talking about.

"Even Hans need a language that will enable them to lie unambiguously. To the truthful, the present impossibility of wording their messages without being misunderstood is an agony."

Referring to the Berlin crisis, he said that no nation could afford war.
"The three European powers," he said, "would have to borrow the cost of another war from the United States, and blink their creditor as in 1914-18; a transaction which America could not afford."

Palestine
COUNT Folke Bernadotte called on the United Nations Security Council today to act swiftly to prevent a possible "general resumption of hostilities" in Palestine.

In his message from Stockholm Mr. Bernadotte asked that the council impose sanctions against anyone violating the Palestine truce.

The situation in the Holy City, he said, "is gradually getting out of hand." Both Arabs and Jews, he said, "have come to deliberately ignore the authority of the United Nations."

Japan
THREE American tanks, 50 troops armed with carbines and a light army reconnaissance plane helped Japanese police evict 1000 strikers from a closed movie studio today pursuant to a court eviction order.

No one was reported injured. The strikers, allegedly led by Communists, evacuated the studio after 3000 police reserves began to scale the walls and brought up bulldozers to break down the gates.

Army troops and equipment were called out when it appeared that the strike would develop into a major battle. It was the first serious labor demonstration since Gen. Douglas MacArthur prohibited strikes.

Thieves Rob Hoosier Of \$5400 In 'Cold' Cash
SOUTH BEND, Aug. 19 (UP)—George Hoffman lost \$5400 in "cold" cash.
He told police he put the money in a deep freeze locker at the Community Sales Barn he operates while he went on vacation.

When he returned the money was gone.
