

Democrats Fire 'Big Guns' in Election Drive

Truman in Kickoff Bid for Labor Vote

By JAMES F. DONOVAN
United Press Staff Correspondent
The 1948 election campaign began in earnest today with Democrats assailing the Taft-Hartley Act and blaming Republicans for high prices.

President Truman and a battery of his Cabinet officers hampered away on those issues in Labor Day speeches that marked the formal opening of Mr. Truman's election campaign. The President chose industrial Michigan and Ohio for his kickoff bid for labor support.

The Republicans will have their inning tomorrow night when Harold E. Stassen strikes back at the Democrats in a speech from Detroit, scene of Mr. Truman's principal address today.

Confers With Dewey

Mr. Stassen, one of the unsuccessful contenders for the GOP presidential nomination, prepared his address in a series of conferences with Gov. Thomas E. Dewey, the Republican standard bearer.

He was expected to take responsibility for high prices right back to the Democrats. Mr. Dewey will hit the campaign trail later this month. Other political developments:

Dewey

Gov. Dewey's labor record was praised as "one of the brightest chapters in the history of labor" by New York Republican State Chairman Glen R. Bedenkapp. Defending the GOP presidential nominee against attacks by Democratic state chairman, Bedenkapp said the Democratic leader was "trying to produce sound without substance."

O'Daniel

Some Washington politicians see a possibility that Sen. W. Lee O'Daniel (D. Tex.) may enter the Texas senatorial race soon as a Democrat or even as a Republican.

He did not seek the Democratic nomination to the Senate this year. However, he has until Sept. 18 to file on other party tickets and may do so. Although Texas Republicans already have chosen

a candidate, they did so with the understanding that he will drop out if Sen. O'Daniel wants to run on the GOP ticket.

3500 in N. J. Join Truck Strike

Fear General Tieup in New York Area

NEW YORK, Sept. 6 (UP)—Some 3500 New Jersey truck drivers went on strike today, joining more than 10,000 drivers whose six-day walkout has curtailed seriously shipment of food and other commodities in the metropolitan area.

Involved in the New Jersey strike are 3500 of the 4700 members of local 478 of the International Brotherhood of Teamsters (AFL) at Newark, N. J., whose employers have not signed contracts.

Their walkout tended to worsen the outlook in the metropolitan area, where many industries have been virtually paralyzed. It also pointed to a possible general trucking tie-up in the area.

Grocers May Close

The New Jersey drivers voted to strike at a membership meeting in Newark yesterday. The full effect of the two-state walkout was not expected to be felt until Tuesday, however, because of today's holiday.

Companies to Ration Gas in W. Coast Strike

SAN FRANCISCO, Sept. 6 (UP)—Seven major oil companies formed an emergency committee to ration gas and oil today as west coast motorists jammed service stations to stock up before the California oil strike pinches off supplies.

The struck oil companies asked the federal government to take over the rationing job. Federal and state conciliators were trying to open new negotiations between the strikebound companies and the CIO Oil Workers International Union. The unions demand a 21-cent hourly increase. The industry offered only 12 1/2 cents.

Schricker Denies Misuse of Powers

Replies to Springer On Clemency Charges

Democratic gubernatorial candidate Henry Schricker was on record with a denial today that he had misused his clemency powers while war-time governor of Indiana.

Speaking in Sullivan Saturday, Mr. Schricker told his party rally audience that all clemency pleas which he reviewed had been approved by the Clemency Board.

"The Board," Mr. Schricker said, "was composed of one Republican and one Democrat." Furthermore, he said, the majority of the men who won paroles joined the U. S. armed forces. Some died later in combat, he added.

Mr. Schricker made the statement in answer to charges by the state GOP Chairman H. Clark Springer that Mr. Schricker "paroled more men than did Governors Gates, McNutt and Townsend."

The former Hoosier governor also leveled a blast at other political parties when he said: "We have no place in our country for a party which offers allegiance to a foreign government... and we do not need a party that draws a race, or creed line."
