

2d Johnson Trial Slated For Jury At Greensburg Today

Set Morning To Wind Up Arguments

Defendant on Stand Most of Yesterday

GREENSBURG, Ind., Sept. 25 (UP)—A jury in DeCATUR circuit court will deliberate today on the fate of William Johnson, 19, Evansville, who was convicted on a charge of killing a state police trooper and sentenced to spend the rest of his life in prison.

Evidence in Johnson's second murder trial ended late yesterday, and Judge John O'Conner set this morning for closing arguments and jury instructions.

Johnson spent most of yesterday on the witness stand. He testified he was beaten by police in a cornfield near the scene of the shooting of Trooper Herbert Smith near Shelbyville in 1946. Later, he said, he was handcuffed by police as he rode handcuffed in a police car en route to Shelbyville.

Admits Theft
The state, through Deputy Attorney General Merle Wall, tried to show on cross-examination that Johnson had a crime record before the shooting. Johnson admitted he had stolen several automobiles and "other things."

Johnson and his companion, confessed trigger-man William Price, 19, also of Evansville, were convicted on charges of first-degree murder in Bartholomew County last year. Johnson won a retrial on the basis of his contention that his confession was secured through police brutality.

Two girl companions of the youths were convicted on charges of manslaughter and now are serving terms in the state women's prison.

sign policy undergoes radical changes in recent years, after a policy of peace to "a policy of expansion and realization of plans for world domination."

"Not only are the United States themselves carrying on intense preparations for aggressive attack against the USSR, and the new democracies, but they are also helping a number of western European countries to prepare for war by supplying their armies with American armaments," Mr. Vishinsky said.

He charged that it was an atomic war the United States is planning against Russia. Mr. Vishinsky also accused Secretary of Defense James S. Forrestal of seeking new billions for American armaments "inspired for the war against the USSR."

Slings Out 'Leaders'
The men responsible for this new "aggressive" American policy, he said, were Admiral William D. Leahy, Army Secretary Kenneth Royall, Sen. Styles Bridges (R-N.H.), and Gen. George C. Kenney, commander of American strategic Air Forces.

"These gentlemen are no longer coming forward with general pronouncements and slogans calling for war against the USSR and the new democracies," Vishinsky said.

"They, and in particular the above mentioned representatives of the supreme military command of the U. S. A., come forward now with flashy colored plans for utilizing American aviation and the atomic bomb for the destruction of such Soviet cities as Moscow, Leningrad, Kiev, Kharkov and Odessa."

The public galleries roared with applause when Mr. Vishinsky finished. Only once during his long speech was he interrupted for applause. The ovation was the loudest given any speaker at this session of the assembly.

Employment, Payrolls Drop in August Here

A drop in employment and payrolls in Indianapolis was shown in the report covering August and issued by the Indiana Employment Security Division.

The number of wage earners employed in August was 67,407 compared to 71,808 for July and 76,889 for August of 1947.

A similar shrinkage was shown in payrolls. The August payrolls totaled \$3,778,097 compared to \$4,129,953 for July and \$4,034,026 for August of last year.

Forest Laing, meter repairman for the Citizens Gas & Coke Utility: "Having to move is going to be rough after spending all the time we did in getting these places into livable condition. What to do is the \$64 question."

Mrs. Dwight Ingelman, whose husband works at Allison's: "This is awful. It means our children's lives will be disrupted. We'll have to put them in new schools and they'll have to make new friends and everything. One more dirty deal handed to the vets, that's what I say."

It was Truman's own idea to take the far left-of-center campaign approach, using Wall Street as bogey man. His aids think it's getting results, too, and point to polls showing he's gaining in California. His Los Angeles speech was direct appeal to Wallace voters to come back into home tent.

Resigned on Orders?

CITY HALL Demos say Mr. Cave resigned on the Mayor's orders after Feeney supporters got wind of an attempt by dissident Demos to frame campaign collectors.

The frame, according to City Hall, consisted of catching a party collector in the act of accepting funds from a tavern owner. There were to be pictures to prove it.

The Mayor's response was to pull City Hall Demos out of the campaign collection picture. He has warned his supporters not to question money. Will be collected.

THE INCOME tax men have been moving quietly around town checking up on used car deals. Specifically, checks are being made of new models purchased one day and sold as used cars the next.

Income tax people wonder whether profits on these deals have been reported as income by individual sellers.

BEHIND the fuss over city budget at the Tax Adjustment Board hearings this week were conflicting theories of municipal finance.

Without cost studies to back it up, city administration was in a poor position to defend the tax rate which the adjustment board slashed. Guesswork involved in making the budget is so great that one group of experts disagreed with another to extent of \$1 million.

CITY HALL believes cuts have doomed Mayor's plan to put

Hospital authorities say services must be cut. Adjustment Board replies City Hall's budget was loaded with padding.

SHORTAGE of cement has forced city to repair curbs with asphalt and sewers with wood. It may nip in the bud plans for extensive State Highway paving jobs this fall.

Cement manufacturers say unusual construction activity has caused shortage. Nails are short, too.

TRY AS they will, Republican speech writers cannot quite keep Governor Candidate Hobart Creighton's attitude toward the state liquor laws from creeping out.

Yesterday, for example, a prepared text was released to newspapers in which Mr. Creighton was to have said flatly that Indiana has the best liquor laws of any state. He said he would recommend no changes, revealing his earlier stand that the so-called divorce of liquor from politics might stand some improvement.

Despite the fact that he read hastily through the speech to be sure he had it all right, Mr. Creighton inadvertently slipped in a couple of off-the-cuff deviations. He called the liquor laws "perhaps the best in the land. He again slipped in the wistful observation that "maybe they could be improved."

Ask Mrs. Manners—'Success in Marriage Requires Teamwork'

THE PREACHER SHOULD tell couples when they get married to "do to others as you would have them do to you." If you women would show your husbands that you love your family I think they'd show they love you, too. True love is enough to make anyone happy. If you do that, do your work and follow a hobby you won't have time to think of other men.

I like your column, but am hurt so many women don't get along with their husbands, maybe because they leave too much time on their hands. They need to sew, read, embroider, do church work, can food, grow flowers, etc. If your husband drinks beer, have him bring it home. I don't think he'll get drunk if he doesn't have anyone to get drunk with him.

I've been happily married 14 years. I have three sons, two of them Boy Scouts. I wouldn't like for them to be hurt by their mother running around with another man. They look up to me.

SMALL TOWN READER.
You don't need an answer—you said it all, just right.

It's pretty important to become acquainted with your husband and your children. Without knowing what they think about and enjoy it's hard to become close to them.

I sat next to a father and son equally excited over the ballgame they were attending, together. They were friends. I knew a golfing mother of five golfing children. The children don't mind waiting until she comes home to eat the dinner she left in her cooker—they have something to talk about—they're friends.

When Will Television Come Here?
WHEN WILL Indianapolis radio stations switch to television? Local stations will continue with standard broadcasts, making television an additional service. WFMM and WUCB have been given two of the four television channels granted to Indianapolis by the Federal Communications Commission in Washington. Television is expected early in 1949.

My Boy Friend Has Only Two Faults
EVERYBODY tries to talk me out of marrying a boy I know I love because of his two faults. He has a bad temper and is very jealous. I want to marry for keeps and be happy. Do you think we could be happy in spite of his faults? Of course I have faults too, but none very outstanding.

Could swing the marriage, but it wouldn't be a lot of fun. I have always been very old and serious for my age. Keep up the good work—you're doing swell. Please try to help me as much as you have helped others.

CHERRY CITY.
Sometimes a marriage works, Cherry, when only one person is selfish, and jealousy and a bad temper are good signs of selfishness, self-centeredness and babyishness. An unselfish person could swing the marriage, but it wouldn't be a lot of fun. I doubt if you could improve your boy friend if four years in the Navy, around other men, didn't do it. Why don't you wait awhile and see if he changes? It's up to him to make the changes and he'll have to want to change before he does it.

Let Mrs. Manners and readers of the column share your problems and answer your questions. Write in care of The Times, 214 W. Maryland St.
