

## Truman Invades Indiana on Tour

(Continued From Page One)  
miners work in the area through which Mr. Truman passed. Relations between the President and Mr. Lewis have been strained ever since the chief executive ordered legal action to halt the 1946 mine strike.

While the mine chieftain has refrained from endorsing either Mr. Truman or Gov. Dewey, the United Mine Workers' Journal, which frequently reflects his views, has been sharply critical of the administration.

The President told Oklahomans yesterday that the Republican Party is "afraid" to take a stand on the major issues of the campaign. But he promised to keep up his efforts to "smoke 'em out."

### Warns Dictators

In his Louisville speech, he will renew his attack on the GOP record on housing and prices.

Gov. Dewey, in his foreign policy address, is expected to stress the theme that the United States is united in its opposition to Soviet aggression, despite political differences on domestic issues.

Speaking in Great Falls, Mont., last night, the Republican candidate issued a warning to any "dictator or trigger-happy militarist" that the political campaign will not divide this country.

## MANOR HOUSE COFFEE

Some coffee has more flavor than others... and MANOR HOUSE has more of the flavor most people like best. It's tree-ripened with all Nature's goodness left in. It's flame-roasted for strength without bite. It's coffee you never want to hurry through... the flavor's too good to miss.
