## Award Is Planned For Arsenal Tech

### Author to Present Flag to High School

Arsenal Technical High School will receive the Francis Bellamy award on Columbus Day, Tuesday, from Miss Margarette Miller, of Portsmouth, Va., author of "I Pledge Allegiance."

The award, a five by eight foot American flag, will be presented to the school during an assembly in the boys' gymnasium, to begin at 9:45 p.m.

"I Pledge Allegiance" is a history book emphasizing the fact that the Pledge of Allegiance to the American Flag was written by Edward Bellamy in 1892 in Boston. The book settled a long-standing dispute concerning the authorship of the pledge.

Used by U. S.

While Tech is only 35 years old, it was chosen for the award because the Arsenal grounds were used by the government for military purposes from 1862 until 1903, and a school for industrial education existed on that site before it became a technical high school.

To be introduced by Hanson H. Anderson, Tech principal, Miss Miller will speak on "Why Tech was selected for the 1948 Bellamy award."

Mayor Al Feeney will explain "The Flag of the United States as a Symbol of Good Government." The School Board will be represented by Virgil Stinebaugh, superintendent of schools.

Others present will be Dr. Leroy Burney, state health commissioner for Indiana and secretary of the State Board of Health; Mrs. Margaret Markey Thornburg, former president of the Tech Alumni Association and Harry Ice, national vice president of the Junior Chamber of Commerce and president of the Scout Council of Indianapolis.

2 eggs  
1 pound of cottage cheese  
1/2 cup bread crumbs

### Tighten Building Code To Curf New Shacks

A stricter enforcement of the City building code began today to reduce the number of temporary shacks being constructed to beat the housing shortage.

More rigid enforcement was urged by Mayor Al Feeney after Charles E. Bacon, building commissioner, reported what he called a 25-family "jerrybuilt" housing project" in the 3000 block of W. Wyoming St.

The officials decided they could not evict the tenants of the temporary structures because of the hardship it would cause. But more vigilance will be maintained to make sure no new structures of the same type are erected, they said.

FAB with Super-Wetting Action makes far more suds, much faster suds than soap. Proof? Two washing machines were filled with hardest water. One cup of FAB was put into one washer—one cup of soap into the other. Both ran 7 minutes. Result? A washer brimful of suds from FAB. Almost no suds from soap.

Demonstration shows FAB gives FABULOUS SUDS, even in hardest water!

NEW INGREDIENT GETS WHITE WASH WHITER... COLORS BRIGHTER!

FAB with Super-Wetting Action contains a fabulous, new ingredient that gets white wash whiter, colors brighter. And, besides, there is no soap scum to "yellow" white wash or dull colors with FAB... even in hardest water.

FAB WASHES DIRTIEST CLOTHES CLEANER THAN ANY SOAP!

FAB with Super-Wetting Action instantly penetrates materials...pushes out dirt. Washes grimmest overalls cleaner faster than soap! Makes tough dirt, like the "lime" on shirt collars, disappear like magic! FAB leaves no "graying" soap scum... Wash is whiter, cleaner!

FAB WASHES DISHES TWICE AS FAST!

No need to wipe dishes. Just wash with FAB, and rinse. FAB leaves no soap scum or suds to pollute water... Even clothes are sparklier! FAB with Super-Wetting Action slashes through grease as no soap can! Pots and pans cleaned easier!

What is Super-Wetting Action?

To see, drop a little ball of cotton sewing thread into a glass of water. It doesn't stay dry a long time. Drop another little ball of thread into a glass of water and FAB it sinks; becomes completely soaked at once. This shows how FAB penetrates materials faster and more thoroughly!
