CANDY VALENTINES ARE SWEET--All of us, young or old, like to receive candy on special occasions. Why not combine this pleasure with an original greeting and pass it along to someone special? Dime stores often have unusual hard candies that can be glued or tied to a valentine of this type. This year send one extra valentine to some person whom you suspect will be forgotten. It might be an old sunny neighbor or someone who is bedridden or must stay at home. Think hard, and share the fun which you will have on this special day. Just imagine how happy you would feel if you received a valentine and you didn't expect any. You would give a special place in your heart to the sender and put the valentine on display for all to see. A great many of us, in the hustle and bustle of living, forget our first love, our mother. Remember she never forgets you.
