

STRAUSS SAYS: TRADITION WITH A TOUCH OF TOMORROW!

## DOCUMENTARY EVIDENCE:

You know how it is—a store that through the decades has become associated in the public mind with "only the best"—would arouse in some people the thought—that Strauss has only things for fat purses—or for those in the opulent plateaus with 5 and 6 figure income (net) Of course, we have always presented—and always will present the choice and select—  
—If it's not too fine for London or Los Angeles—or New York or points in between—we do not deem it too fine for the discerning Indiana clientele that we serve! And we search the world for superlative things—the smart—the unusual—

But we are just as proud of the apparel and accessories of lesser cost—as we are of the top—"The BEST at YOUR price—no matter what the price." That's the story—and that's the performance! These lesser priced presentations not only carry the Man's Store's standards of taste and service—but in sheer downright VALUE they are outstanding! For example and for instance—here is documentary evidence—There is more of it throughout the Store on every floor.
