Swallow Anything

BIRMINGHAM, Ala. (UP)—A hospital reported the following "swallowing" here in one day: A straight pin, violet dye, piece of wire, pecan hull, tax token.

MORNING COUGHS

Ofenbach's Bronchial Asthma
Do you cough and cough, especially mornings and at night? At times do you feel like you are strangling yourself to pieces trying to get rid of strangling mucus and still you choke, gasp for breath, wheeze and often can't sleep? The cause of these devastating symptoms may be recurring attacks of Bronchial Asthma. In such cases, the very first dose of MENDACO, a physician's prescription, usually starts almost instantly to help relax that clogged up, stuffy feeling in the bronchial tubes, then helps Nature loosen and remove tickling, choking phlegm. This helps you get good fresh air into your lungs and promotes restful sleep. MENDACO is not a smoke, injection or spray, but is a tasteless internal medicine which works through the blood, thus reaching the bronchial tubes and lungs. Ask your druggist for MENDACO now. Satisfaction or money back guaranteed.
