

Congress— Truman Forces Refuse to End Filibuster Fight

'We're Going Right Ahead,' Lucas Says After Major Setback

WASHINGTON, Mar. 12 (UP)—Senate administration Democrats refused today to call off their anti-filibuster fight, but gave no indication how long it will continue.

Despite major setbacks last night, Senate Democratic Leader Scott W. Lucas told reporters, "We're going right ahead."

He made the statement as he emerged from a meeting of administration Democrats a few minutes before the Senate convened for a Saturday session.

"Wait and See"
Asked how long the fight will continue, Sen. Lucas replied: "You'll have to wait and see."

He announced that the Senate will be kept in session tonight as it has been daily since Tuesday. He refused to reveal further details of the administration plans.

Other Senate administration spokesmen, however, have resigned to dropping the anti-filibuster fight to take up urgent legislation, notably extension of rent control.

Other Congress developments:
Rents
House Democratic leaders conceded today that they want to muster more support for their rent extension bill before forcing a House showdown on the measure.

They acknowledged that this was one of the factors that caused them to postpone a final vote on the bill until next Tuesday.

They had originally planned to call for House action on the bill yesterday or today. But party spokesmen said they became worried when the House started rejecting by only a few votes Republican amendments which drastically would have weakened their bill.

Rent controls are scheduled to expire Mar. 31. The administration's House bill, which has been under debate for the last two days, would extend controls for another 15 months and grant greater enforcement powers to Housing Expediter T. H. E. Woods.

**Police Arrest 90
In 10 Raids Here**
Free-for-All Follows Incident in Tavern
(Continued From Page One)

They arrested William Robinson, 23, of 411 Spring St., on a charge of drunk. He was fined \$5 and costs.

At about the same time two policemen visited the Hotel Walters Club, 337 1/2 Indiana Ave., and arrested 12 men on gambling charges.

Dudley Sims, 59, of 221 W. Vermont St., and Chaucer Cason, 59, of 239 W. Michigan St., were charged with visiting and keeping a gaming house, respectively. The other 10 men were charged with visiting a gaming house.

Police confiscated \$11.75 in cash, two decks of cards and a leather money sack.

Another policeman in plain clothes who walked into the St. Joe Bar, 3032 E. Washington St., yesterday, said he bought Pick-N-Win tickets from a waitress with a marked bill.

Waitress Arrested
Arrested there were the waitress, Lucille Wollam, 32, of 636 N. Tacoma St., charged with operating a lottery and gift enterprise, and the proprietor, Charles E. Walker, 25, of 214 S. Third St., Beech Grove, charged with keeping a room for pool selling.

Howard E. Limeback, proprietor of the Cub Cigar Store, 663 E. 21st St., was arrested and charged with operating a lottery and gift enterprise and keeping a room for pool selling. Reported confiscated was 34 books of baseball tickets and a box of Pick-N-Win slips. He later was discharged.

Confiscate Policy Books
Police said they heard the noise of gambling going on in the rear of 1507 Yandes St. yesterday and arrested eight men on charges of disorderly conduct. Two pairs of dice and \$4.30 were confiscated.

Joseph Neaton, 34, was arrested in 555 N. Holmes Ave., and charged with operating a lottery and gift enterprise. Seven policy books were confiscated. He later was discharged.

Four other men were charged with visiting a gaming house and disorderly conduct, and gambling equipment was confiscated.

**Barge Falls Short
Of River Record**
ST. LOUIS, Mar. 12 (UP)—Federal barge lines officials here gave up hope today that the towboat Harry Truman would break the long-standing New Orleans-to-St. Louis record of the famous steamboat Robert E. Lee.

The Diesel-powered craft was reported about 60 miles below St. Louis at 9 a. m. (Indianapolis time), plowing upstream on the Mississippi River at an average speed of about 11.5 miles per hour.

The tow would have had to pass Eads bridge here by 11:15 a. m. to beat the Lee record, set in its historic 1870 race with the Natchez.

Peter Fanchi, barge line manager, laid blame for the failure to a delay of nearly three hours shortly after the Truman left New Orleans at 4:30 p. m. Tuesday.

**Senator Buries
One Son; 2d Dies**
WASHINGTON, Mar. 12 (UP)—The office of Sen. John L. McClellan (D., Ark.) reported that John L. McClellan Jr. died today—less than 24 hours after the Senator buried another son who died in the war.

The Senator's office said the younger McClellan died in the Veterans Administration Hospital at Fayetteville, Ark., of injuries received in an automobile accident Wednesday night while en route to Sheridan, Ark., to attend funeral services for his brother, Corp. Max McClellan. Max McClellan died of spinal meningitis in North Africa in 1943.

At the time of the crash, the Arkansas Senator was making a six-hour speech in the Senate against anti-filibuster rules change proposals.

Sens. Jenner, Capehart Vote With South

Oppose Barkley In Move to Stop Filibuster

By Dan KIDNEY
Times Staff Writer

WASHINGTON, Mar. 12—Both Sens. Jenner and Capehart voted with the Southerners to keep the filibuster going on the two roll calls taken last night.

But they also voted to adjourn over the week-end as Sen. Capehart flew to Indianapolis for a speaking engagement. The Senate decided to stay in session instead and met at noon today.

The Indiana Senators were among the 23 Republicans, led by Sen. Arthur Vandenberg of Michigan, who joined the Southerners in their fight to keep the two-thirds cloture rule from being applied to the motion to take up any Senate measure. They voted against ruling of Vice President Barkley on two roll calls, each of which totaled 41 and 46. So the administration lost the fight against the filibuster and it continued today in the absence of the senior Senator from Indiana.

Another Story
While both Senators explained that they supported Sen. Vandenberg, who had ruled exactly opposite from Vice President Barkley while presiding over the Senate in the 80th Congress, on the grounds that this would establish a majority instead of two-thirds rule in the Senate, they also told Negroes who asked their support another story.

According to representatives of the National Association for Advancement of Colored People, the Hoosier Senators pointed out that Indiana Negroes voted the Democratic ticket last time and therefore they did not feel any obligation to them in this case.

Sen. Jenner, who in a Senate speech termed the Taft-Hartley law "the most beneficial legislation ever enacted in behalf of working men and women," turned down a challenge to debate Rep. Andrew Jacobs, Indianapolis Democrat, on labor legislation.

Mr. Jacobs had written asking the junior Senator to debate him in Indianapolis because the Senator had included in the speech an excerpt from a letter which read:

"I am not one of Mr. Jacobs' illiterates, but a white collar worker."

This was a reference to a row Mr. Jacobs has been having with Fulton Lewis Jr. over the broadcasting of a questionnaire against Taft-Hartley repeal.

Decline Debate
In turning down the Jacobs invitation to debate, Sen. Jenner said:

"I must decline the invitation to a public exchange of views regarding labor legislation, with one who blindly plays follow-the-leader in a party that rides rough-shod over the welfare of not only his constituents, but of all the people of this great country."

The Jenner letter, which was sent to Mr. Jacobs stamped instead of franked to show that the business was not considered official, carried this postscript:

"Should I change my mind about a debate I would reserve the right to choose the subject which would be resolved, that the people of Indianapolis are illiterate, and I would take the negative side."

**Slaying Suspect
Leaps From Train**
CHICAGO, Mar. 12 (UP)—A man wanted on a charge of slaying his wife escaped from authorities today by kicking out a washroom window and jumping from a moving train.

John Wilson, alias James Lee Scott, 42, was on his way back to Greenville, Miss., in the custody of Sheriff Walter Clark who had picked him up in Detroit.

Sheriff Clark said Wilson was quiet when they changed trains in Ft. Wayne earlier today.

As they neared Chicago he asked to go into the washroom and then locked himself in it.

Sheriff said Wilson had his left wrist handcuffed to a special belt with a ring. He wore a dirty gray hat and a dark shirt and trousers and no coat.

Figures in N. Y. Wire-Tapping Case Around-the-World— Aqaba Troops Reinforced By British

Precaution Taken as Israel Forces Occupy Elath Coastal Strip

By United Press
Great Britain is reinforcing her garrison at Aqaba, across the Trans-Jordan border from the southern strip of Palestine occupied by Israeli forces this week, the war office announced today.

In announcing the decision to strengthen the British detachment at Aqaba, a war office spokesman declined to make public either the present strength of the garrison or the extent of reinforcement.

The move was disclosed a day after the government of Israel reported that its forces had moved through the Negev and occupied the Elath coastal strip fronting on the Gulf of Aqaba between Trans-Jordan and Israel.

Britain originally sent troops to Aqaba at the turn of the year when Israeli and Egyptian troops were fighting along the border. The British garrisoned Aqaba under a treaty with Trans-Jordan calling for mutual aid if either should be attacked.

Other foreign developments:
Rome
Premier Alcide de Gasperi today called an unusual Sunday session of parliament in an attempt to thwart Communist efforts to foment sentiment against Italian participation in the Atlantic pact.

Premier De Gasperi's maneuver was calculated to speed up debate and hurry parliament to a final vote. It came within a few hours of a Communist call for a strike today and demonstrations tomorrow to protest against the government's "war policy."

Tokyo
Gen. Douglas MacArthur today cracked down on "malpractices" in the vital Japanese coal industry and ordered "immediate steps" be taken to insure output of 42 million tons of coal during the next year.

In a directive to the Japanese government, the supreme commander declared goals set for the industry had to be met without increasing the consumer price of coal, subsidies or resorting to deficit financing.

Paris
The French national assembly approved a form of semi-independence for Cochinchina, a province of Indo-China, today after a stormy all-night session climaxed by introduction of a motion of censure against the government.

The assembly approved 387 to 193 a government plan to give Cochinchina a territorial assembly with "exclusive competence" to decide its status within the French union.

Berlin
The western-backed deutchmark rose in value on Berlin currency markets today as reports circulated that it soon will become the only legal tender in the western sectors of the German capital.

The west mark, which has been selling for 3.20 to 3.30 Soviet-backed east marks, was bringing 4.50 to 4.70 today. It had gained 20 pfennigs overnight.

Probe Mystery Slaying
LONDON, Mar. 12 (UP)—Scotland Yard detectives began an investigation today into the strangulation of an unidentified woman early today on grounds of a London mansion once owned by Barbara Hutton, the five-and-dime heiress.

**Denbo Remains
Orange Chairman**
James Denbo was still Orange County Democratic chairman today after the party's state committee voted to override an ouster movement by members of his county committee.

State committeemen sustained Mr. Denbo's claims to the chairmanship when they agreed that some of the persons who voted to fire him did not have proper credentials.

Mr. Denbo had been accused of creating dissension in the party, failure to comply with party rules, and other charges in connection with patronage matters.

Leaders of the faction seeking to oust Mr. Denbo charged after the state committee hearing that "it was fixed."

**Orders Car That Killed
Pedestrian Destroyed**
SOUTH BEND, Ind., Mar. 12 (UP)—An automobile which struck and killed an elderly pedestrian awaited destruction today, the penalty imposed by a city judge who said the vehicle was unfit to be driven.

James Jensen, 69, was killed Wednesday when struck by the car which was driven by 19-year-old Lewis Voros.

Voros was fined \$140 by City Judge Leon Kowalski for driving without a license.

Judge Kowalski said a mechanic who examined the car found it unsafe. He ordered it destroyed.

Lead 'Hard Times' at Howe High

Body of Giraud Lies in State

French Hero of 2 Wars Dies of Cancer

DIJON, France, Mar. 12 (UP)—The body of Gen. Henri Honoré Giraud, 70, hero in two world wars, lay in state in the pavilion of the Military Hospital here.

An honor guard of officers and civilians of national societies stood at attention by his bier while long lines of mourners filed by the little chapel erected in the pavilion.

As one of France's ranking soldiers, Gen. Giraud probably will be given a state funeral. But the defense ministry had not completed arrangements.

Gen. Giraud died last night of cancer. His last will had not been read, and the defense ministry said it was waiting to see if it contained any directions for his burial. If not, he will be given a state funeral, a spokesman said.

Gen. Giraud helped clear the way for the allied conquest of North Africa in 1942. In both world wars he escaped from German military prisons to return and lead troops.

After the assassination of Adm. Jean Darlan in 1943, Gen. Giraud became civil governor and military commander-in-chief of the free French forces in the Mediterranean. He and Gen. Charles de Gaulle came into competition for the French leadership, and Gen. de Gaulle triumphed.

The national assembly observed a minute of silence last night in honor of Gen. Giraud, and Premier Henri Queuille paid tribute to him in the name of the government.

**College Paper Lists
Outstanding Americans**
MADISON, Wis., Mar. 12 (UP)—The University of Wisconsin newspaper, the Daily Cardinal, today listed "the most outstanding living Americans," chosen by a panel of professors.

Highly placed on the list were Albert Einstein, David Lillenthal and Eleanor Roosevelt. Others chosen, in order of their choice, were Dwight Eisenhower, Arthur Vandenberg, President Harry S. Truman, Walter Reuther, James B. Conant and George C. Marshall.

**Identify Drug
As Benzadrine**
Chemical tests in the police laboratory today revealed that benzadrine was the substance two women attempted to smuggle to a Marion County jail prisoner Thursday.

The wrapped powder, found sewed in a pair of trousers when deputy sheriffs examined them before giving them to a prisoner, was believed for use of inmates to intoxicate themselves.

Two unidentified women had left the trousers for a prisoner, although it was believed prisoners had used the drug before, Walter (Smoky) Davis, jail turnkey, said there has been no indication that any prisoner has been using the drug within the last week.

The women who brought the trousers are being sought, Harry Cook, chief deputy sheriff, said.

**Railway Express
Lays Off 10,000**
NEW YORK, Mar. 12 (UP)—The Railway Express Agency laid off 10,000 employees today as the AFL Railway Clerks' Union sought permission to throw picket lines around Pennsylvania station and Grand Central terminal in an effort to force settlement of a year-old contract dispute.

Express service, which has been plagued by employee "slowdowns" and "work stoppages" for weeks, came to a complete halt today with the release of 3300 truck drivers, and 1000 clerks in the metropolitan area.

Local union officers accused the agency of a "lockout" and voted yesterday to ask permission of grand president George M. Harrison to picket major rail depots in the area. Mr. Harrison is in Chicago attending negotiations of the expressmen's demands for a 40-hour week and a 25 cent an hour wage increase.

The union said it would ask affiliated terminal employees to respect picket lines around railway depots and stay off their jobs. Such action would paralyze passenger and freight traffic in New York.

Taking the CHORE Out of Banking

We realize that going to the bank is something of a chore. That is why we have tried to make the business of banking as easy as possible for more and more people.

When you open your savings or checking account at any of the 13 city-wide offices of Fletcher Trust Company, automatically you become a customer in our Downtown office, where you can also make deposits and withdrawals or cash checks. In addition, you can make deposits in any Fletcher Trust office anywhere in town, and arrange to cash checks at selected offices. And, of course, you can bank by mail through any office.

Easier banking is the real reason why 90,000 depositors—just about one out of every five persons in the Indianapolis area—call Fletcher Trust Company "my bank." You are cordially invited to open your savings or checking account at the office nearest you.
