## Eastman Makes Fastest Shutter.

ROCHESTER, N. Y., AUG. 5—The fastest shutter of its type in the world and a new type of indoor, color roll film were announced here today by the Eastman Kodak Company.

Eastman said the new between-the-lens shutter, which will be incorporated in a new model camera, has an accurate top speed of one-eighth-hundredth of a second, making it the fastest shutter of this type.

Blades in the shutter pivot and rotate through a partial circle inside the shutter housing, opening and closing the aperture in a single stroke, it was explained.

The new film is similar to other Kodachrome film, but it requires no special filters for taking pictures indoors or outdoors at night with flash of flood bulbs. If used in daylight, however, the new Kodachrome film, type A, should be used with a filter, it was explained.

## Owners Deny Firm Visited by Thieves

R. Gran Jr., of Gran & Co., 546 S. Meridian St., insisted today it was not his firm visited by burglars Wednesday night as reported by Indianapolis police.

Two unidentified burglars, trapped by employees, dropped two cases filled with jewelry and fled Wednesday night from the freight entrance of the Jackson building at the S. Meridian St. address.

The police reported they ransacked Gran & Co. on the fourth floor but it developed later that they had visited the Shu-Yei Wholesale Jewelers on the sixth floor and ransacked the office. Jewels valued at \$3000 were recovered but the burglars escaped.

## Italian Ace Plans Visit Here After Ocean Hop

John Brondello, Italian flying ace, today announced he will visit Indianapolis Sept. 2 after a planned mid-August non-stop trans-Atlantic flight from Lisbon to New York in a single-engine plane.

Brondello is making the flight to raise \$3 million for an Italian Boys Town. It will be the first time, at completion, a single engine plane has flown the ocean from east to west between Lisbon and New York. He plans to visit 66 cities in North and South America.
