90,000 U. S. Troops To Join in Germany Maneuvers in Autumn

War Games Expected to Answer Query—'Can Western Reich Be Defended and How'

The U. S. high command in Germany plans to throw some 90,000 combat troops into maneuvers in western Germany this autumn, it was disclosed today.

The war games, to be staged between the Rhine and the Elbe, two of Europe's natural defense lines, are expected to answer an important question posed by the Atlantic Pact:

"Can Western Germany be defended and how?"

Military experts said the answer depends to a large extent on where the Western democracies' defense line against possible aggression from the East is drawn.

"Military Vacuum"

By using the large troop force in the maneuvers, the Americans hope to determine if their highly mobile German garrison can defend the "military vacuum" Germany presents today.

It was expected that the experiences of the U. S. Army in the maneuvers would have considerable bearing on the differences between Britain and France on where Western Europe would be defended.

The British, remembering the battle of Britain, are reported to feel that substantial forces should be held behind the English Channel in the British Isles.

Other world developments:

France

The European union foreign ministers split sharply today on how much say the small nations should have in the new Council of Europe.

Ireland and Sweden called for a change in the rules to make it easier for the small nations to get questions of interest to them placed on the agenda of the European assembly, which together with the ministers committee, forms the council.

But the strong support expected from other small nations failed to materialize. Denmark, Norway and several others spoke in favor of the proposal but they were lukewarm.

Opposition came largely from Britain, which wants the ministers committee to have the deciding voice in the British assembly. No decision was reached at the morning session.

United Nations

United Nations Secretary-General Trygve Lie launched his own peace offensive today with a six-point plan urging joint east-west efforts to reverse dangerous economic trends and adoption of a western-opposed blueprint for Italy's former empire.

Mr. Lie's peace-insurance program, one of the boldest proposals of his United Nations career, clashed with western power views not only in advocating direct United Nations trusteeship over the one-time Italian colonies but also in suggesting endorsement of 14 nations meeting United Nations membership.

On the other hand, Mr. Lie stirred with Soviet ire by reaffirming his plea for creation of a United Nations guard and field reserve panel.

Jacobs Criticizes Bishop Oxnham

WASHINGTON, Aug. 9 (UP)—Belated entry of Methodist Bishop G. Bromley Oxnham, of New York, former president of DePaul University, into the Cardinal Spellman-Mrs. Eleanor Roosevelt school-aid controversy was criticized today by Rep. Andrew Jacobs, Indianapolis Democrat.

Using the controversy, which since has been settled by "clarifying statements" from both the Cardinal and Mrs. Roosevelt, Bishop Oxnham went on the radio Sunday night and reopened the issue.

Mr. Jacobs, who is for the Barden bill which is opposed by the Catholic Church, said he is a member, had this to say about the Oxnham attack:

"At a time when the proponents of aid to parochial schools have started discussing the basic principles and when all persons involved in the controversy have sought to approach the problem objectively, it comes with little grace to renew name-calling and initiate such unwarranted and offensive comparisons between Catholics and Communists as did Bishop Oxnham."

"The Bishop could have contributed more by a deeper discussion of the issues. I regret the tendency of too many people to engage in name-calling and personalities."

3 Burglars Flee With \$300 Loot

Three men who burglarized the American Hardware & Supply Co., 1018 Virginia Ave., and fled off with \$300 in currency and more than \$200 in merchandise were being sought by police.

Albert Wood, 14, who lives with his parents in an apartment over the store, told police he was awakened this morning by a "ripping sound."

The boy said he looked out a rear window and saw the three emerge from the store below and drive off in a car.

Louis Kasoff, 39, of 4463 Washington Blvd., owner of the store told investigators that \$100 was missing from the cash register, in addition to several shortguns and rifles, 20 boxes of ammunition, six electric fans, two rolls of screen wire, two paint brushes and an electric shaver.

RHEUMATIC PAINS

Take time to rest. WIPAC-5 tablets for pain and discomfort of rheumatism. Nettle or Muscular Complication. Buy WIPAC-5 tablets today with absolute guarantee of quick relief or money back. 100 for \$12.50. KERNER DRUG CO., 285 N. Delaware St., Indianapolis 4, Ind.
