

Miss Sgro, Mr. DeFabis Say Vows

Local Couple United
In Church Ceremony

Vows uniting Miss Madeleine Sgro and Mr. DeFabis were read at 9 a.m. yesterday in Our Lady of Lourdes Catholic Church. The Rev. Fr. James Moore officiated.

A candlelight satin gown made on traditional lines was worn by the bride. Her full length illusion veil cascaded from a tiara of orange blossoms and she carried white roses.

Miss Catherine Pangallo, maid of honor, wore a green satin frock. The bridesmaids, Misses Antoinette Pangallo, Thelma LaGrotta, Phyllis Panici and Mary Louise Sgro, wore pink satin.

The best man was George DeFabis and the ushers were Gene Sgro and Julius Michael and Ernest DeFabis.

At Home in Indianapolis

After a breakfast in the Milano Inn and a reception in the Leiderkranz Hall the couple left for a trip to New York. They will be at home later this month at 4547 Irvington Ave.

A graduate of Marion College, the bride is the daughter of Mr. and Mrs. Joseph Sgro, 4765 English Ave. The bridegroom's parents are Mr. and Mrs. Michael DeFabis, 2705 N. Tibbs Ave.

Wash tub Revolution—

Rapid Increase in Use of Detergents Throws Soap World Into Pandemonium

Which to use—soap or detergent?

By DOUGLAS LARSEN, NEA Staff Correspondent

WASHINGTON, Sept. 6.—A revolution is in progress in a place you'd probably never guess—the wash tub.

Soap, the housewife's dependable old ally in the ceaseless campaign against dirt, has a rival. This competitor, known as "detergent," has risen to challenging stature since the end of World War II.

Yesterday "detergent" was just a word in the dictionary to most of us. Today it is a potent new force, breaking age-old habits in the home, overturning fixed patterns of trade in the Far East, raising new problems about city sewage systems and water supplies, stirring debate in the halls of Congress.

Only recently has the federal government begun to grasp the meaning of this revolution. Congress and half a dozen agencies are feverishly trying to catch up with it.

Definition of Term

It is hard to realize that things have changed so radically in a field where soap was and that was that.

First of all, what is a detergent? The dictionary says it is "any cleaning agent," which would include soap. But as the industry has come to use the term, it means all chemical cleaning agents except soap.¹

Detergents were first manufactured commercially in Germany in the 1930's. A shortage of fats and oils there inspired the new industry. Soon afterwards a few detergents began to be sold in America. Most were produced under German patents, as are many on the market today.

Blackwood on Bridge— Giving Self Two Chances Is a Good Policy in Bridge

By EASLEY BLACKWOOD

WATCH MR. Champion's technique in the play of this hand. He won the opening spade lead with the king on the board, cashed the ace of spades and ruffed a spade with dummy's ace of hearts. Then he took two rounds of trumps, ending in his hand.

You take it from there. How would you play to take a total of 10 tricks? Count out your 8 winners and you find you have five heart tricks, the ace and king of spades, a spade ruff in dummy and the ace of diamonds. All you need is one more for game.

Well, one alternative is to play the ace of diamonds and then a small diamond, hoping the king is on your left. If it is dummy's queen will, of course, become a winner.

The second line of play isn't too clear but it must have something to do with clubs since that's the only suit left.

Go After Clubs

Mr. Champion went after the clubs. I'll tell you why in a minute. He led the five of clubs, Mr. Meek played the ten of clubs and the nine was taken by Mr. Abel's jack. Now Mr. Abel was in quite a spot. A diamond lead would run to the queen on the board, giving Mr. Champion his 10th trick.

A club lead didn't look much more inviting but Mr. Abel cashed the king of that suit and followed with his last club. On this trick Mr. Champion dropped the five of diamonds and Mr. Meek won with the ace of clubs.

Now it was all over. Dummy's queen of clubs was good and Mr. Champion could reach the board with a trump and discard his eight of diamonds.

Why did Mr. Champion try for his 10th trick in clubs rather than in diamonds? The answer is that when you have a choice of two suits to develop, it is almost always best to start on the suit in which you have quick, certain losers. Save for the last the suit in which you have high card control.

Mr. Champion knew that he had only a remote chance of setting up a winner in dummy's club suit. But there was some chance and he could always fall back on the diamond play as a last resort.

Now look at it the other way around. If he had led the ace and one diamond first he could not

E. E. Stumpf To Take Local Bride

Phyllis Peterson Will Marry Tonight

Sweeney Chapel, Butler University, will be the scene of Miss Phyllis Peterson's marriage to Edwin Ernest Stumpf at 7:30 o'clock tonight. Dr. Dallas L. Browning will read the vows.

The bride is the daughter of Mr. and Mrs. Lester C. Peterson, 5814 N. Pennsylvania St., and the bridegroom is the son of Mr. and Mrs. Ernest H. Stumpf, Ft. Wayne.

Miss Dolores Peterson, sister of the bride, is to be the maid of honor. She will wear orchid satin. Lloyd K. Stump will be the best man and the ushers are to be David Wilson, Donald Tharp, Lewis W. Knight and Richard D. Feltertag.

Reception Planned

A gown of white satin will be worn by the bride. Her fingertip veil is of illusion and she will carry a bouquet of white bridal flowers.

After a reception in the Marott Hotel the couple will leave for a trip. They will be at home later this month at 3270 N. New Jersey St.

Miss Peterson attended the University of Illinois and is a graduate of the Methodist Hospital School of Nursing. The bridegroom is a graduate of Franklin College and is enrolled in the Indiana University School of Medicine.

How to Play Canasta—
'Frozen' Pack Provides
One of Game's Handicaps

By WILLIAM E. MCKINNEY, America's Card Authority

Written for NEA Service

"FREEZING" THE PACK is one of the handicaps in Canasta. The pack is frozen in several methods—first, when the cards are dealt, the top card of the stock pile is turned over to form the pack. If this card is a red trey, deuce or joker, it freezes the pack, and another card must be turned over from the stock pile. If this card also is a red trey, deuce or joker, another card from the stock pile must be turned over to cover it.

This process is continued until some card other than a red trey, deuce or joker is turned up. The red trey, deuce or joker is slid under the edge of the discard pile with part of it left protruding. Thus, every card is reminded that the pack is frozen.

The health classes include gym, archery, badminton and dancing. Swimming classes are also open.

There will be a junior program this year for girls 10 to 15 years old. The classes in swimming, crafts, games and dramatics will be held on Saturday.

The "Ladies Day Out" series will begin Oct. 4.

When the pack is frozen, a player cannot take the top card or discard pile unless he has a legal minimum held.

The pack is frozen if during the process of play a deuce or a joker is discarded. It is suggested that you place the discarded wild card under the edge of the pack or tray, so that everyone can see that the pack is frozen. When one wild card is placed under the edge of the pack, if another wild card is discarded, it should remain in the pack.

If the pack is not frozen, you may add the up-card of the discard pile to one of your meids. The balance of the pack is then put in your hand. When the pack is frozen, you cannot take the pack by placing the up-card on one of your meids.

When you intend to take the discard pile by matching it with cards in your hand, you must place the two cards in your hand on the table and then take the up-card of the discard pile and place it with those two. After a correct meld is made by using the up-card of the pack, the balance of the pack is then placed in your hand, and you can add to other meids or make as many more meids as you desire.
