U. S. Prepares To Block Russ In Near East

Diplomats Meet in Istanbul To Map Strategy Program

By United Press
American diplomatic experts for the Near East meet in Istanbul, Turkey, today to plan new strategy for blocking any threat of Soviet penetration into that area.

The parleys were part of the State Department's plan to prepare for any attempt at Communist expansion in the nations to the south and east of the Soviet Union. It is confident that the Reds' drive to the west has been halted.

Conferees at Istanbul included Assistant Secretary of State George McGhee, in charge of Near Eastern affairs, and 11 U. S. diplomats stationed in the area.

It was said that the conferees would take up a recent Arab League proposal for an Arabian security pact, presumably to be drawn along the lines of the Atlantic Defense Treaty, but without U. S. participation.

Believe Pact Necessary
Some diplomats here have made clear that they believe such a pact is necessary as a safeguard against Communist advances. But it raised the difficult question as to whether such an arrangement might not mask plans for reopening the Arab war against Israel.

Iran is also slated to come up for discussion. The Iranian Shah on his current visit to the United States has called repeatedly for increased U. S. military assistance to his country, pointing out that Iran has stood firmly against Soviet penetration of its northern province.

Nationalists in China, denouncing Russia's support of the Chinese Communists, will ask United Nations members formally today not to recognize the Peking regime proclaimed by Mao Tse-tung, nor to give it further military or economic aid.

Dr. Tingfu Li Tsang, chief of the Nationalist delegation to the United Nations, delivered a three-hour denunciation yesterday of Russia's aid to the Communists.

He charged the Soviet Union with creating a threat to China and to the peace of the Far East through open violations of the United Nations Charter and of the 1945 treaty between the two governments.

Soviet Foreign Minister Andrei Y. Vishinsky, declaring that the Nationalist delegation was "devoid of any power because it does not represent the Chinese people" strode from the meeting room of the United Nations' main political committee after announcing that Russia would boycott the debate and would not consider binding any decision reached in it.

Mr. Vishinsky's deputy, Jacob A. Malik, remained at the committee table but ostentatiously read the Moscow newspaper Pravda while Mr. Tsang delivered his 27,000-word, heavily documented charge against Russia.

At the end of his speech, Mr. Tsang announced that the Nationalists would file a formal resolution today.

Manila
The government did an about face today and agreed to permit peace negotiations in the Batangas rebellion.

Interior Minister Sotero Balyut said there were "very good prospects" for peace in Batangas, which lies 60 miles south of Manila.

"You'll know everything from me Monday," he said. He expressed the hope there would be no further bloodshed.

Mr. Balyut made the announcement after conferring with a "true European political authority."

Rep. Wagner Calls For Action to Free Flier Held in China

(Continued From Page One)
succeeded in having it released to his wife.

"We are doing the best we can for the family," Gen. Jerome said, "but we can't get him back."

One Marine, in no sense a spokesman for the corps, but probably representative of rank-and-file feeling angrily suggested today that "someone ask the State Department why it can't free a poor sergeant if it thinks it was so successful in springing a general."

Calls for More Courage

Said Rep. Wagner: "When the State Department asks for appropriations from the House next year, there'd better be a more courageous attitude on the part of the department in dealing with the Communists than there has been to date."

"Thank God," he continued, "American public opinion can make its voice heard around the world as evidenced by the magnificent job done by the Scripps-Howard Newspapers and other publications which followed their lead in demanding release of Angus Ward."

"I will have more to say regarding what I intend to do about these matters in my speech at Carnegie Hall in New York Monday night at the protest rally to be staged by the Committee to Defend America by Aiding Anti-Communist China."

Non-recognition of Communist China and protests over the treatment of Consul General Ward will be the principal themes of the New York rally Frederick C. McKee, Pittsburgh industrialist who is chairman of the sponsoring committee, said Mr. Ward's experience was a symbol of Communist arrogance toward the United States.

Pointed Questions

Meanwhile, some pointed questions were being directed at the State Department as to what steps were being taken to speed the return of Mr. Ward and his four aids to America. In some quarters it was felt that the department was returning to its old position of sitting on its hands.

A department spokesman said it had not been considered here whether to send a plane or surface vessel to pick up the Americans at some Red-controlled port.

Arrangements, it was said, were being left to consular authorities in Peiping and Mukden.

Packinghouse Workers Make Gift to CROP

PRINCETON, Nov. 26—Officials and members of United Packinghouse Workers of America, Local 172, today voted to give an hour overtime pay to the Gibson County CROP campaign.

The CROP goal in Gibson County is a carload of lard for shipment to war torn European countries.

Nurse Missing In Death Probe

Fails to Appear For Questioning

DETROIT, Nov. 26 (UPI)—An assistant prosecutor disclosed today that a supervisor of nurses wanted for questioning in the death of an injured taxi driver who lay eight hours in a city hospital without care has disappeared.

Chief Assistant Prosecutor Ralph Garber said Mrs. Edith Bagley, suspended night supervisor at Receiving Hospital, could not be located.

She had been ordered to appear for questioning today. Mr. Garber said, but did not show up. Detectives were unable to find a trace of her since the investigation began yesterday.

Mr. Garber said he protested that the trip would be useless because his safe in a downtown office building was protected by a burglar alarm system. But the leader of the gang jammed a gun into his back and said "I'll take my chances."

Officers sought to determine whether there was criminal negligence in the death of Louis Schwartz, 315-pound cab driver brought to the city-operated hospital Sunday after an auto accident.
