ALL the Family Raves About Times Sunday Comics

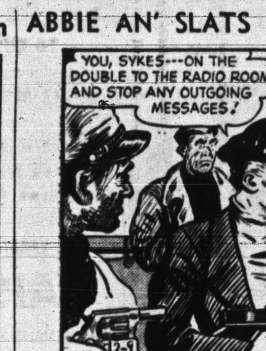

—By Gus Arriola

Assembling Valentine kits is a fine way to remember all of your friends, but take time to make some original ones, too. If you create a special Valentine that has an entirely new idea in it, send a sample to me for next year's Valentine "TRY IT". Include your name and age, and I will put your suggestion on file for next year.

This idea shows some of the possibilities of creating Valentines from heart faces. To make a heart easily, simply fold a sheet of paper, sketch a half of a heart, and cut it out. If you make your heart "head" on white paper, add red heart eyes, nose, and mouth, in fact anything you wish. Eyelashes can be cut from black crepe paper. Hats and earrings can be added, and the faces can be sent for Valentines, or used for decorations.

You may make Valentine hearts from cloth, plastics, or metal foil. Don't forget, I would like to have a sample--TOMORROW--Mirror Valentines reflect your love.
