TRY IT MAKE A WALL MAP FOR AFRICAN ANIMALS

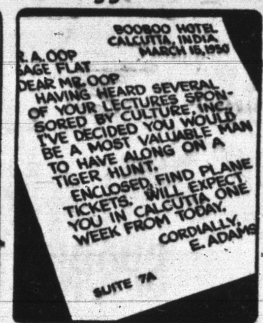

No matter how many times we go to the zoo the thrill of seeing strange animals never wears off. Even picture books showing wild animals in their homes are exciting.

The large African animals such as the lion, rhinoceros, elephant, and giraffe are favorites among the zoo animals. With so many beasts coming from Africa it is interesting to bring these animals right into your room by making a large wall map and mounting cut-outs of them on it.

Africa, shaped like a triangle, can easily be sketched with pencil on heavy brown wrapping paper. When outlined, paint in the shoreline and locate the equator. Tack or thumb tack your large map to the wall, and then start collecting animal pictures. Make a list of all of the African animals that you can think of, then check your list with an encyclopedia or an animal book.

Don't forget the camel in the northern Sahara desert or the crocodiles along the rivers and in the swamps. You might want to include some of the domestic African animals too as well as the wild ones. Good mapping to you!—TOMORROW—"Doll Up" Bettye Babes.
