

Cancer Drive Goal Tony and Jerry Hold Reunion Set at \$50,000

Berman Addresses Kickoff Luncheon

Marion County's 1950 Cancer Drive today began tugging at the heart-and-pulse strings of generous Indianapolis.

Given its initial kickoff at a luncheon yesterday in the Athletic Club, the month-long drive to reach a goal of \$50,000 began gaining momentum today.

Education to cancer can not be attained by "horse-and-bug" medicine," Dr. J. K. Berman, Indiana University School of Medicine faculty member, told more than 120 county volunteer workers. "But the future cure is not too far removed," he said.

Dr. Berman, also a director of the Indiana Cancer Society, said he believes in future cure because "every branch of science is unified to find the cause and cure of the disease."

Paul Starrett, county drive chairman, officiating at the meeting, introduced Dr. Chester A. Stayton, director of services, vice president and chairman of the Indiana Cancer Society executive committee, and Rolla S. Weesner, the society's executive director.

Also on the program were Mrs. Ronald M. Hazen, chairman of the special gifts division, and Adrian E. Wilhoite, chairman of the Marion County Cancer Society.

Good Friday Silence

Mayor Fennell today urged Indianapolis residents to observe one-minute of commemorative silence at 2:59 p. m. Friday as part of Good Friday activities in cooperation with the Interdenominational Good Friday Committee of Indianapolis.

Association Admits Speedway High School

Speedway High School today was named one of seven Hoosier association's recent business meeting high schools admitted to the North Central Association of Colleges and Secondary Schools. Standards of each school was conducted by the association's Batesville; St. Francis of Laffayette, Mississippi; Gas City, Indiana; Dunkirk and Wheatfield.

Other are North Vernon, Dr. Carl G. F. Franzen, Indiana University.

Under ordinances adopted, however, the Police Department has been authorized to buy 10 new motorcycles, five to be equipped with radio. Weir Cook Municipal Airport was granted \$3875.35 to equip a new crash truck and pay the salary of a new employee.

Parking on either side of Arlington Ave., from Pleasant Run Blvd. to E. 10th St., will be prohibited.

An ordinance which would appropriate \$950,000 for the 37th St. and Fall Creek storm and Sanitary sewer was introduced last night. The ordinance also provided that the money be used for improvement of other lines.

CIO officials would neither confirm nor deny report by the Pittsburgh Press, a Scripps-Howard newspaper, that Mr. Murray has proposed that labor unite into a giant confederation for com-

pany-wide bargaining and estimated at \$100,000.

According to the newspaper, the

AFL, the United Mine Workers and all non-Communist independent unions would be invited to join the confederation. The first goal of such a group, it said, probably would be the election of Congressmen pledged to the repeal of the Taft-Hartley Act.

SIGNAL CORPS TRAINING

Signal Corps reserve officers

who now are members of a re-

search and development group

may apply for active duty train-

ing at the corps Engineering Lab-

oratory, Fort Monmouth, N. J.

Starting date for the first course

is April 17.

Union demands for a pension plan and double-time for Sunday and holiday work have been abandoned, union negotiators said, but they stood firm on a requested nine-cent-per-hour general wage increase.

Boys Snatch Purse

Irene Eaton, 28, of 1023 Park

Ave., reported that three boys

ranging from 13 to 16 years old

had snatched her purse at 2:45 p. m.

The employees here walked out

yesterday when negotiators met

and agreed on the new contract. Fed-

eral mediators entered the dispute:

there was no money in the purse.
