

Giant Housing Plan Hits Snag

Hike in Residential Minimums Sought

The first major stumbling block to a proposed \$25 million housing development in the Northeast pocket of Indianapolis appeared today.

Residents near the site of a 1200-home project planned by Atkinson & Co. petitioned the Marion County Plan Commission yesterday to hike residential minimums in a portion of the project.

Their petition asked for higher lot and home minimums for 476 acres bounded by 46th and 40th Sts., Emerson Ave. and Sherman Drive than now called for by zoning ordinances.

The Atkinson application for rezoning 126 of 672 acres from an agriculture to a residential district showed, however, that lots will average greater than minimums now imposed by zoning laws.

Sewer Hook-up Sought

The firm's proposed subdivision is bounded by 42d St. to the 5000-block north on Emerson and Arlington Aves. and from Sherman Drive to Arlington Ave. and beyond.

The firm today also petitioned the Board of Works for a hook-up to the city sewer system in the Northeast section.

The Plan Commission will rule upon the petitions at their Apr. 20 meeting.

The commission will also consider a subdivision for 226 homes proposed at E. Washington St. and Shadeland Ave. Plans for this project were filed yesterday by R. C. Hiller, office supply dealer.

IU Commencement Date Confirmed

BLOOMINGTON, Apr. 6 (UP)—Indiana University's commencement will be held as scheduled Monday, June 12, despite vigorous protests from students advocating a Sunday, June 11, date.

Class officers presented an appeal to the faculty council to change the date following a campaign waged in the Daily Student, campus newspaper. The council, however, refused to alter its previous decision.

This Little Girl Enjoys Riding Her Hobby Horse

Sometimes a girl's best toy is her hobby horse, says Jackie Lou Winchell, daughter of Mr. and Mrs. Jack Winchell, Jasonville.

Zale, Wife Swap Legal Punches

Map Fight Over Children's Support

GARY, Apr. 6 (UP)—Middleweight champion Tony Zale traded legal punches with his wife today preparatory to a court bout over their children.

Mrs. Adeline Zale, Chicago nightclub organist, asked that Mr. Zale be held in contempt of court for failure to pay \$200 monthly for the children's support. The ex-boxer, who operates a tavern and bowling alley here, was ordered by Circuit Judge Felix A. Kaul to show cause why he should not be held in contempt.

But Mr. Zale's attorney, William M. Malczewski, said his client would ask that Mrs. Zale be held in contempt for failure to live up to agreement that permitted the ex-boxer to visit their two children.

The Zales were separated last September.

How Frenchmen Make Love

American men still are in the bow-and-arrow era when it comes to love making.

That's what a French actor says in PARADE MAGAZINE'S illustrated story next Sunday... a story that tells — and shows in pictures how to win that favorite girl or 'keep that devoted wife happy.

Men of all ages will find a new experience in this revealing picture-story. PARADE MAGAZINE Comes With THE SUNDAY TIMES

Woman Hit by Car Suffers Broken Leg

Mrs. Ella Newkirk, 78, of 1142 Linden St., was in General Hospital today with a broken leg after being struck by an automobile last night.

Police said Mrs. Newkirk was struck at East and South Sts. by an automobile operated by Leslie Pruitt, 40, of 946 N. Meridian St.

Police Seize 32 In Gaming Raids

Climb Fire Escape To Spot Dice Game

Thirty-two persons faced gambling charges in Criminal Court today following police raids last night.

Eugene Lamb, was charged with keeping a gaming house after police raided the West Side Civic Club, 532 1/2 Indiana Ave. Thirty-one others were charged with visiting a gaming house.

Police climbed a fire escape outside the club and saw a group of men around a billiard table shooting dice. They returned to the prosecutor's office for a warrant to make the raid.

Sixty-five dice, but no money, were confiscated.

Four Other Raids In four other raids police confiscated baseball tickets, but made no arrests.

Raided were 539 W. Washington St.; 1412 E. 16th St.; 729 N. Pershing Ave., and the Golden Rule Cigar Store, 653 E. 19th St.

Acheson's a Guy To Trust—Tully

Takes Attacks In His Stride

(Continued From Page One)

reason why they have to like me."

Nevertheless, you got the feeling that if Dean Acheson saw no reason why people should be compelled to like him, he wanted fiercely to have them—these ordinary American citizens—accept him into the crowd.

He was puzzled at the charges that he doesn't understand the American people because he said he felt his background had been "just as any American's."

"After all," he said, "I was brought up in a little town. My father was a minister and there were few people in the town my family didn't know."

Being well-bred, he didn't mention that his family was wealthy and that his father became an Episcopal bishop.

He went on, then, and reminisced about catching rides on ice wagons and camping in caves. And there was no note of self-consciousness in his voice when he spoke about riding his pony about the country, although kids with ponies are not very typical in this well-to-do country. He just mentioned it casually and it was good that he didn't apologize for being so fortunate.

Yet—because Dean Acheson is that kind of a man—it had to be a little strained when he mentioned that there were plenty of Irish and Italians and Poles in Middletown. A man like, say, Harry Truman, wouldn't have had to mention it.

He's Pretty Nice Fellow Similarly, Mr. Acheson seemed anxious to remind you that he still got around with the boys. There was, for instance, that speaking tour he made on the Marshall Plan in 1947.

He wanted to emphasize that he enjoyed that tour, enjoyed riding around with Hubert Humphrey now Senator from Minnesota, in "Hubie's" car, and got a big kick out of sitting around after the meetings and shooting the breeze with the gang.

"I liked that," he said and there was a kind of wistfulness in his voice that, in bad plays, is always associated with poor little rich boys. "I didn't want to talk a lot of high-toned talk. I wanted to have a good time with the crowd."

That is your Secretary of State. You would have to say that he is a very nice fellow whom you'd trust with your last sawbuck or your wife.

He's pretty nice even when he's trying to be a barefoot boy.

'Racing Days' Adventure Strip Coming to Times

Indianapolis Speedway Time is Almost Here

Indianapolis Speedway time is almost here... stock car competition... have arrived.

The Times, too, gets into the speed season in a thrilling way with a brand new adventure strip... RACING DAYS... starting next Monday.

You'll meet Hub Capp, the most lovable, daring adventure strip character you've ever met.

Thrills six days a week in RACING DAYS STARTING MONDAY IN THE TIMES

Hoosier Kids Face Sad News

No Candy at All Advised by Dentists

If the Hoosier babes were squawling a little more than usual today, it's probably because they've heard via the grapevine what went on at Indiana University School of Dentistry yesterday.

Specialists in children's dentistry lecturing there at a symposium on the subject made it clear that today's parents are responsible for:

ONE: Prohibition of sweets in the diet.

TWO: Correction of thumb-sucking where it exists.

THREE: Frequent trips to the dentist from the age of 2.

Not Any Candy

Dr. Stewart MacGregor, chairman of the department of pedodontia of the University of Toronto, Canada, said:

"It is not enough to say the mother should see that the child doesn't have much candy. She should see that the child doesn't have any candy."

In addition to the danger of decay caused by sugar, Dr. MacGregor said, there is a danger of malocclusion (abnormal bite) if the child is not cured of biting his thumb. He advocated prevention of the habit by placing an appliance in the child's mouth.

Dr. Ray D. Smiley, director of the dental division of the Indiana State Board of Health, outlined a community program for preventive dentistry for children which included regular visits to the dentist from the age of 2.

50,000 in Danger Of Losing Bonus

Hoosier Veterans Warned by VA

The state Department of Veterans Affairs today estimated 50,000 World War II veterans were in danger of losing their state soldiers' bonus rights.

The estimate was a combination of three figures, an official department statement said.

First, it appeared that 25,000 veterans who have obtained application forms for the bonus have misplaced the completed applications. Thousands of these forms, the department estimated, are lying in desks and glove compartments of cars. Many veterans, they feared, may be under the impression that the forms have been mailed.

Second, the department has found that of 100,000 letters written to clear up irregularities, 30,000 have never been answered.

No Answer, No Bonus

The department estimated that about half of this number of unanswered requests never will be answered. If the irregularities are not cleared up, the veterans involved will not receive a state bonus when the legislature authorizes its payment.

In addition to these groups, the department estimated that 10,000 veterans will miss the boat completely on bonus application. That is, they will miss the Dec. 31 deadline for filing their claims.

Solution to the problem, the department statement said, is for each veteran who has not yet applied for the bonus to apply immediately, for others who have received correspondence from the division to make certain the correspondence has been answered.

Facing Lifetime Of Darkness, Blind Boy Hangs Himself

A 12-Year-Old Hoosier Youth, Blind and in Ill Health, Found Peace in Death Today

Facing a lifetime of darkness and unhappiness because he could not live the life of a normal boy, he hanged himself yesterday in his room.

Sheriff's deputies were called after a companion his own age went to his room and found the body. He had attached a leather belt to a window latch.

General ambulance physicians worked more than an hour in a futile effort to revive the lad. A coroner's deputy pronounced death by suicide.

Get a Mule's View of War In the Pacific

Bob Hope said, "216 pages of the most uproarious humor I have ever read."

And you'll laugh, too, when you read David Stern's satire on Army brass, "Francis."

"Francis," the story of a talking mule and its war against inefficiency in the Army, will be serialized daily in The Times starting with the first big installment in The Sunday Times.

You won't want to miss a single chapter of this hilarious novel, which the author guarantees to give you at least 200 belly-laughs. Get a mule's-eye view of the war in the Pacific in "Francis," starting Sunday.

Policeman's Son Held in Slaying

Accused of Strangling Girl in Lover's Lane

MARTINEZ, Cal., Apr. 6 (UP)—The 19-year-old son of a policeman will be charged today with strangling his sweetheart in a lover's lane "because she went out with other guys."

Arthur Eldon Peinde, 19, was held under a suicide guard at Contra Costa County Hospital, recovering from an overdose of sleeping pills and loss of blood suffered when he slashed his wrists in a suicide attempt.

His victim was Sally Ann Humphreys, 18-year-old daughter of a Berkeley, Cal., and San Francisco, lawyer. Her battered body was found in the front seat of a convertible yesterday. Prindle lay unconscious in the back seat.

Father Is Policeman

The youth awoke last night and mumbled out a confession to his father, Lester Prindle, a member of the Oakland police force. His mother, Melba, also was in the hospital room.

"Tell us what happened, Art," said the father.

"I killed Sally," the youth mumbled. "I choked her to death."

"I'll find a way to get rid of myself," he added. His father rushed out of the room, sobbing.

Later, the boy made a formal statement to Deputy District Attorney Wakefield Taylor.

"I had it planned for months," Prindle said.
