

6th Fare Hike Since '45 Asked by Transit Firm

PSC to Hear New Plea Next Month

By IRVING LEIBOWITZ

The city transit system, which has raised fares 5 cents in five years, now is again before the State Public Service Commission for a new fare increase.

Two days after the election, the Democratic-controlled commission will hear transit officials testify why Indianapolis Railways needs more money.

Once again Public Counselor Walter Jones has elected to oppose the increase on the grounds that a fare boost today is "not necessary" in the financial operation of the company.

W. Marshall Dale, president of the transit firm, has said that the busses and trolleys are "over-worked, undernourished and strangled by competition with private automobiles." And, he added, the company needs 80 new busses.

Abbett Agrees

The solution to the problem, he said, is in a fare increase.

Hugh Abbett, Democratic chairman of the commission, is in complete agreement. He said the transit firm needed an increase two weeks before Indianapolis Railways asked for it.

Mayor Feeney criticized the statement. He said Mr. Abbett's remarks "bordered on being prejudicial."

The transit system's shaky financial condition is not new. When the transit company came out of a bankruptcy in 1932 with new capital, new personnel and new equipment, there was hope that the system would come back on "solid ground."

It never has quite made the grade. Because there was a growing belief that higher fares could not, by themselves, solve the perennial financial problems of any transit system, one efficiency survey after another was made.

Same Results

The results were all the same. To make money the company had to take the following steps:

ONE: Modernize facilities and services.

TWO: Operate with minimum fares consistent with cost of service under efficient and economical management.

THREE: Make a positive effort to shift private automobile riding as much as possible to mass transportation vehicles.

The city's transit officials all pledged themselves to economy drives and some even promised to "hold fares down." But still the fares grew larger.

Aug. 23, 1946, Harry Reid, then president of the transit company, pledged to expand service and buy equipment valued at \$4.5 million in return for an additional fare increase.

Economy Program

The fare increase was subsequently granted. How much of the \$4.5 million investment followed has never been announced.

More recently, Mr. Dale, upon taking control of the company's operations from Mr. Reid, promised to "eliminate the remaining street cars and make the operation safer, more comfortable and cheaper."

He launched a three-point economy program, consisting of a per-

sonnel shakeup, curtailment of nonessential and duplicating services and a general office economy drive.

The Public Service Commission also granted the utility a new fare increase.

But with a new fare increase drive less than six months old, Mr. Dale and other transit officials have seen fit to ask the Public Service Commission for a new fare boost.

The latest transit hike brought the fares up to the current 12-cent charge, plus a two-cent transfer. Five years ago, in September of 1945, it cost seven cents to ride a bus or street car.

Switch to Cars

And a great majority of the city's transit riders say "the service got poor and the fares went up." Many former transit riders, consequently, have switched to private automobiles.

Mr. Dale, like other transit officials over the nation, is aware of the trend. Fewer people are riding busses in proportion to the population, he says.

But, asks Mr. Dale, "where are we going to get enough money to buy the 80 new busses we need if we don't get a fare increase?"

"We have little money in our depreciation fund," he said, "and those busses cost \$17,000 apiece."

Public Counselor Jones says the transit company has no right to ask the transit-riding public to pay additional money to buy new equipment for the company.

"A utility is expected to receive a fair margin of profit on its investment," he says, "but it cannot and should not ask the cus-

tomers to pay for new equipment upon which the company will later base its valuations for future returns."

Need Modernization

Most transit authorities agree that the underlying cause of traffic problems is the continuance of antiquated, unattractive, slow-moving, crowded and uneconomical transportation facilities that have not been kept up with technological progress and with changing requirements of the traveling public.

They say most companies have been rather unprogressive, concerned chiefly with their immediate interests and problems and too little with long-range efficiency and public interest.

Other cities of comparative size have transit fares that vary. Transit authorities say each city has a different problem.

Three cities, with problems similar to Indianapolis, have flat 10-cent fare rates. They are Birmingham, Oklahoma City and Atlanta. Other cities, including Minneapolis, Schenectady and Seattle, have rates ranging from 12 to 15 cents.

Transit officials, however, now are beginning to recognize the fact that the solution to their financial problems doesn't mean hitting the public for another fare increase.

DIE IN TENEMENT FIRE

NEW YORK, Oct. 21 (UP)—Three children were burned to death in Brooklyn today when they were trapped by flames in their tenement bedroom. Three relatives were burned, two of them critically, as they fought to rescue the children.

Symphony Soloist

Blanche Thebom, mezzo-soprano, will be soloist with Fabien Sevitzky and the Symphony in the season's second pair of concerts next Saturday evening and Sunday afternoon in the Murat.

152 Firms Spend Millions Lobbying

\$32,100,000 Used
Over 3-Year Period

WASHINGTON, Oct. 21 (UP)—The House Lobby Investigating Committee disclosed tonight that 152 corporations have reported spending \$32.1 million in the last three years to influence legislation.

The committee, which said it would issue a separate report on lobbying by labor and farm groups, did not attempt to draw any conclusions from the spending reports filed by corporations.

But Chairman Frank Buchanan (D. Pa.) speaking for himself, said he thought that "Congress and the people have a right to know who is behind the gigantic campaigns to influence Congress either directly or indirectly."

Report Covers Only Few

Pointing out that there are more than 500,000 corporations in the country, Mr. Buchanan said he wanted "to emphasize that this report covers the activities of only a very small portion of the national total."

"I firmly believe that the business of influencing legislation is a billion-dollar industry," he said.

The committee sent out questionnaires to 173 corporations asking them for detailed reports on their direct or indirect attempts to influence legislation.

Footnote on U. S. Steel

Among those which said they had made no expenditures designed to influence Congress, thinking was U. S. Steel, one of the nation's largest corporations.

A footnote to the committee's report said that despite this disclaimer, the records of the Foundation for Economic Education show that U. S. Steel contributed \$30,000 to that organization.

Many of the largest corporations reported heavy expenditures for either direct or indirect lobbying activities. Among them were General Motors, General Electric, Gulf Oil Corp., Jones and Laughlin Steel Corp., New Gas and Electric Co., Southern Railway, Schenectady Industries, Inc., and Socony-Vacuum Oil Co., Inc.

Traffic Claims Five Lives on State Roads

College Bus Crash Here Injures Six Football Players

Traffic took its toll on Hoosier roads yesterday, adding five persons to the year's fatality total and almost bringing tragedy here to a victorious football team.

Nine men, including six grid-ders of the Wilmington, Ohio College team, were injured last night when a bus and a converted hearse collided in the 4800 block W. Washington St.

The dead over the state:

Alfred Alcala, 21, Chicago.

John Dillon, 24, Highland, Ind.

Billy Payne, 19, Highland, Ind.

Mrs. Mollie Aldridge, 69, Switz City, Ind.

John A. McGurty, 52, Charlestown, Ill.

Mr. Alcala died in Methodist Hospital at Gary of injuries received Friday when his car collided with a truck in West Gary.

Mr. Dillon and Mr. Payne were killed yesterday when their car was struck by a Chicago-bound Pennsylvania freight train at a crossing south of Munster, Ind.

Hits Truck

A car-truck crash yesterday on Ind. 57, two miles south of Bloomfield, Ind., took the life of Mrs. Aldridge. She was a passenger in a car driven by Miss Mary Tibbett, 40, Lyons, Ind. Miss Tibbett was taken to a hospital in Linton. She suffered a crushed chest and is in a serious condition.

The car struck a truck which was slowing down on the approach to a narrow bridge.

A station wagon in which Mr. McGurty was riding sideswiped a bridge and overturned on Ind. 46, one and a half miles east of Terre Haute at 5:45 p. m. yesterday.

Driver of the vehicle was John C. Ellis, 27, Paducah, Ky. Mr. Ellis and two other passengers, Dr. J. C. Montgomery, 42, Charleston, Ill., and the Rev. Father Martin Reidy, 49-year-old Arcola, Ill., priest, were injured. Father Reidy suffered a broken right leg.

Grid-ders Not Serious

None of the football players injured in the accident here were believed to be in serious condition.

They are:

Bob Workman, 27, Waynesville, O.; Rudy White, 18, Wilmington, O.; Dean Waddell, 21; Harold Stuet, 19, Hillsboro, O.; Jim Repligle, 19, Dayton, O., and Art Brady, 22, Lakewood.

The coach of the team which yesterday defeated Rose Polytechnic Institute, Terre Haute, by a 52-0 score, is Fred Raik, 37, Wilmington. He also was injured.

Driver Hurt

Driver of the bus, Floyd Smalley, 32, president of the Xenia-Hillsboro Bus Line which had chartered the vehicle to the college, suffered a leg injury and cuts on the face.

Robert G. Kassel, 22, Delphi, driver of the converted hearse, was injured, along with a passenger, Clark Carr, 19, also of Delphi.

All the injured were taken to General Hospital to be examined. Mr. Carr was then sent to Robert W. Long Hospital with a head injury.

Two state police cars took the injured athletes to the hospital.

Ambulance in Crash

An ambulance en route to the scene of the accident was involved in a crash in the 4400 block on W. Washington. Driver of the car which collided with the emergency vehicle was Allen Alfred, 17, of 316 S. Taft St. He was booked on charges of reckless driving and failure to stop at a preferential street.

Another ambulance had to be dispatched to the scene of the bus crash. The converted hearse was a total wreck. The fire department sprayed down gasoline spilled from the wrecked hearse.

There were 31 passengers on the bus, police reported. Most of the football players, tired after the afternoon game, were sleeping when the accident occurred.

GE to Expand Plant For Making Jet Engines

LYNN, Mass., Oct. 21 (UP)—The General Electric Co. plans to expand its facilities for making the J-47 jet engine, used in the world's fastest plane—the North American F-86 fighter.

C. W. Lapiere, manager of GE's aircraft gas turbine divisions, said today more factory space would be obtained at the company's Lockland, Ohio, plant as soon as negotiations for the expansion were completed.

POET'S RITES TODAY

AUSTERLITZ, N. Y., Oct. 21 (UP)—Funeral services will be held tomorrow afternoon for Edna St. Vincent Millay, poet, at the mountain farm home where she lived and wrote for 22 years. It was announced today. Her body will be cremated.

A Diamond from Lord's!

When Only the Best Will Do...

Lord Diamonds are a perfect blending of Beauty... Quality... Value! There's a brilliant collection for your choosing... for now, for Christmas... forever!

LORD on the box adds much to the rings... but nothing to the cost!

"Lady Suzanne"

15 FINE DIAMONDS. Set in 14k fishtail mounting. A perfectly matched pair that will add beauty to milady's hand.

\$187.50

Lord's Diamond Club Terms \$3.75 DOWN, \$3.75 WEEKLY

"Lady Barbara"

7 FINE DIAMONDS Set in 14k fishtail mounting. An engagement ring that she will wear and cherish forever.

\$97.50

Lord's Diamond Club Terms \$2.00 DOWN, \$2.00 WEEKLY

"Lady Marion"

12 BEAUTIFUL DIAMONDS. Channel set in an exquisite 14k gold mounting. Tailored by hand for lasting beauty.

\$199.50

Lord's Diamond Club Terms \$4.00 DOWN, \$4.00 WEEKLY

"Lady Helene"

Wedding Band with 6 diamonds set perfectly in a 14k mounting. This is one of Lord's many outstanding selections.

\$69.50

Lord's Diamond Club Terms \$1.50 DOWN, \$1.50 WEEKLY

"Lordship Threesome"

Lovely engagement ring set in Tiffany mounting. Matching wedding rings for bride and groom.

\$97.50

Lord's Diamond Club Terms \$2.00 DOWN, \$2.00 WEEKLY

"Lordship Threesome"

Lovely engagement ring set in Tiffany mounting. Matching wedding rings for bride and groom.

\$97.50

Lord's Diamond Club Terms \$2.00 DOWN, \$2.00 WEEKLY

"Lordship Threesome"

Lovely engagement ring set in Tiffany mounting. Matching wedding rings for bride and groom.

\$97.50

Lord's Diamond Club Terms \$2.00 DOWN, \$2.00 WEEKLY

"Lordship Threesome"

Lovely engagement ring set in Tiffany mounting. Matching wedding rings for bride and groom.

\$97.50

Lord's Diamond Club Terms \$2.00 DOWN, \$2.00 WEEKLY
