

WHAT GOES ON HERE

Invisible, non-exploding bombs may rain down on Indianapolis next Saturday.

Nearly 1000 planes will fly over the seven-state Great Lakes region during a simulated air attack, designed to sharpen the eyes and ears of the Ground Observer Corps, a group of 25,000 civilian volunteers.

Pilots from the Civilian Air Patrol, the Tactical Air Command, the Air National Guard and the Naval Air Reserve will be winging through the blue while the GOC volunteers spot them and relay information to the nearest of nine filter centers. The news then goes to intercept stations, which send out fighter-interceptors of Eastern Air Defense Force to knock down the "enemy" aircraft.

"Just imagine me eating all my favorite foods with never a sign of acid indigestion, heartburn or gas," says Aunt May.

"If Cousin Harry hadn't given me some Tums that time I visited him and had that bad case of sour stomach, I wouldn't believe anything could work so fast."

Tums do work in record time. No mixing, no waiting—no soda to cause acid rebound. Remember, keep Tums handy—eat like candy. See if you don't have lots more fun eating favorite foods and enjoying life.

Your Federal Job

(Mr. Cramer's column normally appears in The Sunday Times. It was delayed, so we present it today.)

By JOHN CRAMER

WASHINGTON, Jan. 8 (Special)—Civil Service Commission tentatively has decided against imposing new restrictions on promotions for Uncle Sam's many Indianapolis area per diem (blue collar) employees, and an estimated 800,000 elsewhere.

It has decided that the present promotion system, which rests mainly on seniority, fully meets the requirement of the so-called Whitten rider.

As revised last fall, this rider set up definite waiting periods for promotions in the Classified (white collar) Federal service. And it directed CSC to work out similar rules for blue collar employees.

CSC, however, points out that advancement for blue collar employees traditionally has been based on length of service—whichever, of itself, involves specific waiting periods for promotion. And this, it has decided, rules out the possibility of over-rapid promotions—the thing the Whitten rider was designed to prevent.

Roundup

Early this month, Civil Service Commission will announce a nationwide exam open to veterans only for substitute postal transportation clerks at \$1.71½ per hr. Applications will be accepted between Jan. 8 and Feb. 5. It's the first nationwide exam of its type since 1949. . . . World-wide Federal employment increased 7700 during November. Government's biggest employers as of Dec. 1: Army, 530,600; Post Office, 508,600; Navy, 461,000; Air Force, 280,300; Veterans Administration, 178,700. . . . When he resigned recently to return to private industry, Former National Labor Relations Board member James J. Reynolds praised the "untiring devotion" of Federal employees, and said: "In my experience in industry and Government, I never have found a finer or more loyal group anywhere."

County Home Fires Blamed on Boy, 11

An 11-year-old boy today was blamed for two fires in six weeks at the Marion County Children's Guardian Home.

Police of the Juvenile Aid Division questioned him after a blaze late yesterday.

Both fires were minor.

Miss Agnes Perkins, assistant superintendent, said he was "a troublesome boy" who entered the institution last summer from a foster home.

Police said that because he started two fires in six weeks, the boy was regarded as a potential "hazard to the lives and property at the home."

Last evening's fire in a basement closet damaged boxes of blankets.

Windfall

Upwards of 50,000 indefinite employees of the postal service, including many in the Indianapolis area, will get a pleasant windfall under the new annual leave system effective Jan. 6.

They will get retroactive credit for annual leave benefits which have been denied them since Dec. 1, 1950.

The retroactive leave will go only to postal indefinites still on the payroll. It will be credited under the old postal leave system—15 days per year or 1½ days per month. Future leave for indefinites will be on the new, graduated plan.

Set Air Raid Drill

Civil defense airplane observers in northern Indiana will participate Saturday in spotting mock air attacks by some 1000 planes in an air defense test for seven states.
