

Six Wounded As Knives Flash At Allis-Chalmers Labor Riot

60 Police Quell Rival Union Factions Quickly

TERRE HAUTE, July 28—One man was wounded critically and five others less seriously at 500 members of the CIO and AFL battled with fists and knives at the gates of the strike-bound Allis-Chalmers Manufacturing Co. here today.

In critical condition at St. Anthony's Hospital was John Martin, Paris, Ill.

Released from the hospital was John Bartee, 4722 Evanston Ave., Indianapolis. He is an international representative of the CIO, who has been assigned to Region 7, Wage Stabilization Board in Chicago.

Others wounded were: Wayne Wyatt, Terre Haute; Frank Rambo, Shelby; Paul Long, Brazil; and Clarence Brading, Paris, Ill.

Heavily Armed
The skirmish took place at 8 a. m. as AFL members tried to drive through plant gates picketed by the CIO. Armed with bricks, clubs and knives, the CIO men attacked, breaking one car windshield and stabbing the six men.

The AFL members began converging on the plant at 6:30 a. m. and reached, nearly 1000 strong, according to a CIO estimate. The CIO had about 75 pickets.

The melee was quickly quelled by 60 of Terre Haute's 85-man police force. Thirty-four members of the AFL went to work.

Meanwhile, Charles Beaver, president of Terre Haute CIO local, branded as a lie O. B. Soucie's claim that 100 dissatisfied CIO members had bolted to the AFL.

He said, "According to our lists we have lost only 25 men."

Claims Authority
He said, also, a plant vote several months ago gave the CIO union authority by a 340-10 vote. He added Allis-Chalmers refused to negotiate with them.

Frank Bartee, international representative of CIO Auto Workers, said today, "we'll continue to picket until the strike is settled and try to keep the AFL out."

The CIO strike against the plant, situated about three miles from the downtown area, began May 7. The men left their jobs to enforce demands of a contract under negotiation.

The company's only position in

the fight has been its statement doors will be open to any men wishing to return to work.

The plant is a pilot plant for a \$10 million sprawling plant the company is erecting here. The strike stopped work on the new plant, with about two-thirds of it finished.

The Navy, which has contracts with Allis-Chalmers, has begun to move out equipment because the company was unable to fill them.

Returned to Army
In Car Theft Case

A Camp Atterbury soldier was ordered returned to the Army today to face the music for stealing a car here.

Pvt. Robert E. Pettit, 23, Lafayette, pleaded guilty to stealing a car from the Superior Chevrolet Inc. sales lot, 525 E. Washington St. July 9.

Judge Harry O. Chamberlin, Criminal Court 1, gave Pvt. Pettit a three-month sentence, suspended on condition the Army takes him back.

Police testified the soldier drove to Crawfordsville in the stolen car and was arrested there.

Schricker to Dedicate
Kankakee Park Sunday

HAMMOND, July 28 (UP)—Gov. Henry F. Schricker will dedicate a 3000-acre wood and farmland area in Lake County Sunday as Kankakee River State Park, Indiana's 18th state park.

Conservation organizations started planning for the park in 1928. They were aided in 1948 when Murray M. Baker, Peoria, Ill., industrialist, gave 1600 acres for park purposes.

First formal plans were made under Gov. Ralph F. Gates' administration.

CLOWN AND BEAUTY—Clown Lou Jacobs and pretty Jeanne Sleeter, an aerialist, are two of the many performers in the Ringling Brothers & Barnum & Bailey Circus which will be in Indianapolis Aug. 9 and 10. The circus will be set up at the Indiana State Fair Grounds.

Finds 'Other Woman's' Note Under Pillow

LOS ANGELES, July 28 (UP)—She told Superior Judge George J. Wright, 45, had such a violent marriage because she found a letter from another woman under her pillow.

Reds Almost Agree on POWs

PANMUNJOM, Korea, July 28—Communist staff officers agreed today to the wording of the armistice draft on repatriating prisoners of war, but not to the Allied interpretation of it.

The agreement came in a 40-minute meeting between the No. 2 truce teams. The high-level truce talks are temporarily recessed.

The staff officer talks began over the week end at the request of the Reds, who said they wanted to discuss the wording of some paragraphs in the armistice draft.

In particular, the Communists objected to the United Nations' terms in the Korean language for "United Nations" and "Korea."

Col. Duncan S. Somerville, senior United Nations staff officer, said he did not think the problems were important.

Patrol Victory
At today's meeting, he said the Communists brought up the question of "no forced repatriation" by stating they agreed with the wording of the paragraph on prisoner repatriation, but not to the Allied interpretation.

Col. Somerville said as far as he is concerned that meant the Reds—at least on the staff officer level—"have accepted the wording of paragraph 51 concerning prisoners."

The paragraph calls for the repatriation of all prisoners on the lists at the time an armistice becomes effective. The United Nations proposed to remove from the lists in advance of a truce those prisoners who say they would forcibly resist repatriation.

SEOUL, July 28 (UP)—Communist MIGs swooped down more than 200 miles from Manchuria yesterday in their most daring thrust in months and damaged three British propeller-driven warplanes.

Heavy rains virtually halted infantry and artillery action and grounded land-based planes.

Hunt Ends for Woman Who Fell From Plane

RIO DE JANEIRO, July 28—The Brazilian air force abandoned today a search for the body of an American woman who plunged 12,000 feet into the Atlantic yesterday from the mysteriously open door of an air liner.

Planes searched yesterday and until noon today when hope was given up.

The victim was listed officially by Pan American Airways as Mrs. Marie Westbrook Capellaro, 37, Los Angeles, wife of Italian banker Emilio Capellaro, 41, Rome.

Couple Engaged
The Italian consulate said she and Mr. Capellaro were engaged but not yet married. A Pan American spokesman said Mr. Capellaro told them they were married, but that his wife was traveling under an American passport, carrying her American name.

United States civil aeronautics authorities here started investigating the means by which the victim was drawn through a door of the Stratocruiser 27 miles south of Rio de Janeiro after the plane took off for Montevideo, Uruguay.

The plane, containing 26 other persons including Mr. Capellaro, returned here after the accident. Mr. Capellaro, who remained here, could not be reached today. He was reported in a state of collapse.

Pulled From Plane
He is a representative of the Italian Commercial Bank of Marseille, France. He was sitting beside the victim when she apparently was sucked from the pressurized cabin of the plane.

Her first husband was Col. Robert Westbrook, an American World War II ace who was shot down over Celebes. Her mother, Mrs. Bessie Macchris, lives in Los Angeles. A 12-year-old son, Robert, also survives.

Progressive Party
Candidate Due Here
Mrs. Charlotta A. Bass, Progressive Party candidate for vice president, will arrive here today for a two-day visit in the city.

She will be honored tomorrow with a reception at the Federation of Colored Women's Clubs Home, 2304 N. Capitol Ave.

Mrs. Bass recently retired after 40 years as editor of the California Eagle, Los Angeles, the oldest Negro newspaper in the U. S. in continuous publication.

Robber Faces Slaying Quiz
NEW YORK, July 28—Massachusetts authorities said today they wanted to question bank robber Gerhard Puff, who killed an FBI agent in a hotel gun duel here Saturday, about the unsolved slaying of State Trooper Alje M. Savelle.

Joseph McNerny said in Boston that the slaying of the Massachusetts trooper on a lonely road last Aug. 31 was the state's top case.

Puff was under guard at Bellevue Hospital prison ward. He was shot in the leg by FBI Agent Brock in an exchange of gunfire at the Congress Hotel. Mr. Brock was killed by five bullets fired by Puff, one of the FBI's "10 most wanted men."

Lt. McNerny said two Massachusetts detectives received "encouraging" results in the questioning of George A. Heroux, 22, a trigger happy friend of Puff's who was wounded in a gun battle at Miami, Fla., Friday.

"Several encouraging leads are being checked which seem to point to Heroux as the killer in the Savelle case," Lt. McNerny said. "We feel Heroux was not alone when Savelle was killed and the man with him could well have been Puff."

Trooper Savelle was shot nine times as he sat in his automobile near Barre, Mass. Detectives believed he was killed because he recognized someone who was wanted by the FBI.

Puff and Heroux had been close friends since they met in a Milwaukee cell. It was believed they were the gunmen who robbed the Kansas bank of \$28,000 last November.

Profit to some people is a word that wears a high silk hat. The communists foster that idea. They get along without profits. They also get along without almost everything else.

They don't understand that profits wear overalls. If they had some profits, they'd also have some prosperity and payrolls instead of slave labor. Because profits work harder than anyone.

Here's why:
Last year the Illinois Central made a profit of \$18 million. From that profit and profits saved from previous years we took \$29 million to improve the railroad and pay off part of the mortgage.

There's no silk hat on profits that buy tools for workers to do a transportation job for you and thereby earn \$164 million a year in wages.

If our profits drop too low or become losses we run short of working dollars. We enjoy no backlog of government subsidies—no publicly owned airports or highways or waterways. We're on our own, and we pay taxes (\$28 million a year) besides.

When subsidized highway, air and waterways transportation cuts into our business, it costs you tax money and may cause us to need higher rates.

We say the cheapest way for you to get good transportation is to let us all—rail, air, highway and water carriers—compete on an equal basis. Free competition such as this has made us the most prosperous people in the world.

Air Radar Mystery Lights

WASHINGTON, July 28 (UP)—Jet planes capable of 600 miles a minute, a futile attempt at mysterious glow streaked over the second consecutive day.

The Air Force has maintained its attitude about the unidentified as "glowing" which were spotted by Air Force pilots.

"We don't know but we are investigating," a Force spokesman said. "We have no evidence that they are saucers."

The spokesman had been relayed officers in the Air Force intelligence center, son Air Force B center for the "flying saucer."
