act of a letter from a respecta-  
officer in the Patriot army of  
Mexico to a gentleman in New  
York, dated

Republic of Mexico,  
Matagorda, Feb. 15, 1817.  
Dear friend—Although I  
born in unfortunate Spain,  
I consider myself bound to  
the miseries and calamities which  
compatriots suffer under the  
Ferdinand. I love my  
country, but I despise its king  
its tyrannical laws. Under  
considerations I have aban-  
every thing that I have as  
soniard, and I have sworn on  
stars of the republic to live  
or die. This is the sentiment  
every one who has the honor  
a soldier in this glorious

Gen. Mina is the beloved of  
the army, and of every inhabit-  
ant. Our military stores are a-  
bundantly provided, and disci-  
pline and good order are shown  
every part where his command  
resides. Our corsairs bring to  
every day, valuable prizes.  
We have money enough, and we  
say that we are in want of  
little. The numerous tribes  
Indians come to us with pre-  
of friendship and they are  
disposed to take arms against  
common enemy. These poor  
people have suffered so much in  
war times, that they are rea-  
dy to do any thing against the  
Spanish government.—We know  
how to take advantage of this  
disposition of the aborigines  
and masters of this soil. We  
are ready to march: our army is  
increasing daily, and I have every  
hope that I will soon write you  
from the capital of Mexico, after  
having fixed the standard of liber-  
ty in every house of that populous  
and wealthy city.

From Poulson's Philadelphia Ameri-  
can.

We are indebted to a respecta-  
ble friend for the subsequent in-  
formation.—

From the India Gazette—Extra.  
CALCUTTA, Oct. 14, 1816.

The following is an extract of  
a letter which has just reached us  
from an intelligent correspondent  
at Bushire. It is dated the 25th  
August.

Report says, that one hun-  
dred thousand Russians are ar-  
rived at Trifliz, that they are  
commanded by Constantine Pow-  
litich, that they are resolved to  
make war with Persia, that this  
commander in chief is brother to  
Alexander the king, and empow-

ered to act as he pleases. Walla-  
chia and Moldavia the Russians  
have taken from the Turks, and  
we may expect to hear that they  
will shortly make further advan-  
ces Eastward—their ambition is  
well known, and now they are  
at peace with their neighbors,  
they must find out employ for  
their immense armies.

"The Sultan of Muscat has as-  
sembled all the Arab tribes, and  
is in person gone to take Bah-  
rein, he has been severely bea-  
ten by some Whuabee horse; but  
is resolved to renew the attack,  
although he and all his party  
were obliged to fly to their boats,  
&c."

Liberty of the Press in England.

Mr. Sutton, editor of the Not-  
tingham Review, has been tried  
by his majesty's attorney general,  
and condemned to suffer a year's  
imprisonment, for having pub-  
lished in his paper certain obser-  
vations on the destruction of  
Washington by the British army  
during the late war. This trans-  
action shews that there are men  
in England who entertain just  
ideas of the enormity of that bar-  
barian atrocity, which has left so  
deep a stain on the character of  
that nation.

### Pensacola.

BALTIMORE, MARCH 31.

Captain Thomas, of the schr.  
Traverse the Ocean, informs us  
that he was on board the Fourth  
of July, com. Taylor, on the 4th  
of the present month, and was  
informed that the Patriots had ta-  
ken and were in possession of Pensa-  
cola. The commodore further  
stated in corroboration of the a-  
bove mentioned fact, that he had  
ordered several prizes to that port  
instead of sending them to Cape  
Francois as he has usually done.

### Latest from Europe.

Baltimore, Mar. 11.

It is stated in a London paper  
that the current expenses of the  
year are deficient more than 20  
millions. To this, next year, the  
Irish expenditure of four and a  
half millions, making a deficiency  
of 25 millions, unless the minister  
reduces the national expenses,  
which he will not do, unless he is  
forced to a reform.

The London Courier of 21st  
of Jan. contain long accounts of  
the trials of the rioters, some of  
whom have been found guilty. It  
would appear that the jury were  
much inclined to be merciful to  
these unfortunate men, as they ac-  
quitted 4 of them, much to the  
surprise of the judge. New jury-  
men were to be impanelled to try  
the other rioters.

The people of England and Ire-  
land continue their loud com-  
plaints of the hardness of the  
times, and cry for a reform of the  
grievances. Even the Scotch,  
not easily moved in common cases  
have joined in the cry—but the  
influence of government, backed  
by a powerful army, will be too  
strong for all the cries of the  
starving multitude.

State of Ireland.—Landlords &  
tenants are involved in common

ruin, neither is there the slightest  
prospect, or the most distant hope  
of any amendment.

The desertion of farms by ten-  
ants, and the quantities of lands  
unoccupied, daily increase. In  
one barony in Clare county, that  
of Burren, there are upwards of  
18,000 acres given up by the for-  
mer tenants, and not occupied by  
any—they remain quite waste.

Let any man look round him  
and say how is the INTEREST  
of the Debt—called, by courtesy  
National—to be paid, or by  
whom?

### Cause of Darkness.

REMARKABLE.—On the 8th  
day of January it was so dark in  
the city of London that candles  
were lighted at mid-day. Every  
American knows that the 8th of  
January is the anniversary of the  
glorious battle of New Orleans—the  
result of which literally put  
the city of London in mourning.  
It was indeed a dark day for Eng-  
land.

your place, but for the recurrence

however, detain her longer than  
to-morrow.

### WOOL--CARDING.

A Wool-carding machine is  
now in order for business at the  
subscriber's in Madison, where  
common wool will be carded at  
ten cents per pound. Wool re-  
ceived for carding must be picked  
open and cleared of burs, dirt, &  
every hard substance that would  
injure the cards or spoil the rolls:  
one pound of clean soft grease  
for 7 or 8 pounds of wool; if  
wool is brought suitably prepared  
for carding, the owner may ex-  
pect good rolls, but where wool is  
not prepared in a proper manner,  
good work cannot be made of it.

The owners of wool, any part  
being Merino, will do well not to  
bring it before July; the gum  
must be cleaned out of it, otherwise,  
it cannot be carded: the price for  
carding it will be higher than  
common wool. Attention will  
be paid to the business by
