NEW-YORK, JUNE 12.

The ship Elizabeth arrived last

hundred thousand dollars in spe-  
cie, and 288 pipes of gin.

It appears by a late paper from  
Europe that an earthquake had  
done immense damage at Jerusa-

been thrown down.

### War with Spain.

We are informed that capt. Bid-  
dle is appointed to the command  
of the U. States ship Ontario, now  
at N. York, and will sail shortly  
for the coast of South America.  
Capt. Downes, late of the Ontario  
is appointed to the command of  
the Java. We also learn from the  
same source, that a war with  
Spain is extremely probable.

Herald.

An arrival at N. York brings  
the news that Mr. Bourne, consul  
of the U. States at Amsterdam,  
died suddenly on the 26th of A-  
pril.

The British vessel Angelica,  
was lately foundered while on  
her passage from the Cape of  
Good Hope to the Isle of France,  
and all on board perished. John  
James Armstrong esq. late consul  
at Teneriffe, his Lady, 7 children,  
2 nephews and servants were part  
of those who perished.

On the suspension of the Habe-  
as Corpus act, nine British officers  
broke their swords, and embark-  
ed for America.—One of them ar-  
rived here, has told us the fact.

England has been styled by a  
French writer, "The Jailor Na-  
tion." The Irish, some hundred  
years ago, styled them by the title  
of the 'Assassins.' Such reproach-  
es more properly belong to the  
government than the people of  
England. Their cruel and cow-  
ardly treatment of Napoleon, will  
brand them with everlasting infamy.

RESPECTFULLY informs  
the citizens of Madison and its  
vicinity, that he is now opening  
a general assortment of Merchan-  
dize in the white building oppo-  
site Major Henry Ristine's tavern;  
where all those wishing to pur-  
chase can have an opportunity of  
examining the prices for them-  
selves, which he hopes will be  
perfectly satisfactory, as nothing  
on his part shall be wanting to  
give general satisfaction.

### REMOVAL.

William Wallace,  
TAILOR,

Respectfully informs the friends  
of an old soldier, that he has re-  
moved his shop from the white  
house on Main Cross-street, to  
the store house lately occupied  
by Mr. Boicourt, on Second-street,  
next door to Doctor Heath, where  
the old soldier will do his work  
on the shortest notice and the  
lowest price—He thanks his  
friends and the public for their  
liberal support one year that is  
past, and hopes a continuance of  
the same.

All those indebted to him will  
make immediate payment, as it is  
out of his power to lay out of his  
money any longer.

No more electioneering.

N. B. My Office for election-

opened again!—I wish the differ-

selves, as the situation of my fam-  
ily will not permit me to keep my  
Office open any longer.

1818. Containing the Astronomical  
calculations and a variety of  
useful and entertaining pieces, and

Remedy for difficulty of Hearing.

### Dr. D. Green,

TAKES the liberty of inform-  
ing the people, that he has discov-  
ered a very easy mode of assisting  
those who are hard of hearing.

Knowing that providence has  
permitted a remedy to grow for  
every disease, he has made it his  
study, this number of years past  
to try to find out this remedy.

At length he flatters himself of  
being successful, more so, than any  
other man yet.

The remedy generally gives  
help, except to very old people,  
who begin to lose their eye sight,  
about the time that the hearing  
becomes weakened. To all others,  
it as yet, has seldom failed, of  
restoring that great blessing of  
hearing.

The Medicine, with directions,  
can be sent to the patient by post  
or otherwise to any place, howev-  
er distant. At the same time, it  
may be somewhat satisfactory to  
those distressed to know that they  
may pursue their their business, &  
to eat and drink what tastes best.

The preparing, transmission,  
postage, &c. of the remedy, will  
come to about five dollars.

This inclosed in a letter, will  
cover all expense to the patient.

One great object is to diffuse  
its benefits as far as possible; there  
fore, all printers who will give  
the above an occasional insertion,  
shall receive its advantages for  
themselves, or relatives, in thus  
assisting to place it within the  
reach of the distressed.

DOCTOR D. GREEN.
